SAFETY WARNINGS

- Do not load more than 320 kilograms on the bed frame. Exceeding this weight limit may cause damage to the product or lead to injury.
- Careful assembly is required to avoid instability. Ensure all connections are secure before use.
- Be aware of potential sharp edges during unpacking and assembly. Handle all components with care.
- Keep small parts and packaging materials away from children to prevent choking hazards.

SETUP & ASSEMBLY

The ZINUS Soren Metal Bed Frame is designed for quick and stress-free assembly. All necessary tools, parts, and instructions are included in a single package. Please follow the step-by-step instructions provided with your product for detailed guidance.

General Assembly Steps:

1. Unpack all components and verify against the parts list.
2. Assemble the main frame sections according to the diagrams.
3. Attach the headboard and footboard to the main frame.
4. Install the steel slats into the designated slots.
5. Ensure all bolts and fasteners are securely tightened.

OPERATION

Weight Capacity

The ZINUS Soren Metal Bed Frame is designed to support a total weight of up to 320 kilograms, including the mattress and occupants. Do not exceed this limit to ensure the longevity and safety of the product.

Under-Bed Storage

The bed frame features a 26 cm (approximately 10.2 inches) platform height, providing ample space underneath for storage. This allows you to utilize the area for boxes, luggage, or other items, helping to keep your room organized.

Image: View of the generous under-bed clearance, demonstrating how storage containers can be placed beneath the frame.

Mattress Compatibility

The metal slat platform is designed to support any mattress type directly, eliminating the need for a box spring. Ensure your mattress fits the 180x200 cm dimensions of the bed frame.

MAINTENANCE

Cleaning Instructions

To clean the bed frame, simply wipe it with a dry cloth. Avoid using abrasive cleaners, harsh chemicals, or excessive moisture, as these may damage the finish or materials.

Regular Checks

Periodically check all bolts and fasteners to ensure they remain tight. Re-tighten if necessary to maintain the bed frame's stability and prevent squeaking.

TROUBLESHOOTING

Squeaking Noises

- **Check all connections:** Ensure all bolts and screws are securely tightened. Loose connections are a common cause of squeaking.
- **Verify slat placement:** Make sure all metal slats are correctly seated and evenly spaced.
- **Inspect for friction:** Identify any points where metal components might be rubbing against each other or the floor. Applying a small amount of lubricant (e.g., silicone spray) to contact points can help.

Instability or Wobbling

- **Re-check assembly:** Review the assembly instructions to ensure all parts are correctly installed and oriented.
- **Tighten all fasteners:** Systematically tighten every bolt and screw on the frame.
- **Ensure even floor surface:** Place the bed frame on a flat, even surface. Uneven flooring can cause wobbling.

SPECIFICATIONS

Feature	Detail
Model Number	EU-FBOBH1-41H
Brand	Zinus
Color	Brown
Material	Alloy Steel, Engineered Wood
Product Dimensions (L x W x H)	206 cm x 181 cm x 104 cm
Weight	32.39 kg
Mattress Size Compatibility	180 x 200 cm
Under-Bed Clearance	26 cm
Assembly Required	Yes
Care Instructions	Wipe with a dry cloth
