

## Kodiak KBX5940

# Kodiak KBX5940 Gun Safe User Manual

Model: KBX5940

## 1. SAFETY INFORMATION

Always prioritize safety when handling firearms and operating your gun safe. Failure to follow these guidelines may result in serious injury or death.

- Always keep the safe on a stable, level surface.
- Never attempt to move the safe when it is unlocked or loaded.
- Always use both hands when opening and closing the heavy door. Keep fingers and other body parts away from the door seal to prevent injury.
- Always unload firearms before storing them in the safe.
- Keep the safe dry and away from direct sunlight to prevent rust and damage.
- Always follow local laws and regulations regarding the storage of firearms.

## 2. UNPACKING AND SETUP

The Kodiak KBX5940 gun safe is a heavy item. It is recommended that at least two people assist with unpacking and setup to prevent injury.

### 2.1 Unpacking the Safe

Carefully remove the outer packaging. Be mindful of the weight and ensure proper lifting techniques are used. The safe is secured to a short pallet for transport.

Note: This video is a general guide and may not show the exact Kodiak KBX5940 model.

## 2.3 Securing the Safe

For maximum security, it is highly recommended to bolt the safe to the floor or wall. The KBX5940 features reinforced bolt-down holes at the bottom for secure anchoring. Hardware for anchoring is included.

## 3. FEATURES OVERVIEW

The Kodiak KBX5940 Gun Safe is designed with advanced security and convenience features to protect your firearms and valuables.

- **SafeX Security System:** A revolutionary anti-pry system for enhanced security.
- **Construction:** Built with 14-gauge steel for robust protection.
- **Locking Mechanism:** Features a UL Listed electronic lock, hardened armor plate, and anti-tamper handle.
- **Fire Protection:** Provides 40 minutes of fire protection at 1400°F, thanks to fireboard protection and a heat-activated fire seal.
- **Capacity:** Designed to hold up to 57 long guns and 8 handguns.
- **Internal Organization:** Includes a deluxe door organizer, handgun holders, and adjustable shelves.
- **Internal Power Access:** Equipped with USB outlets inside the safe for charging electronics.
- **Door Opening:** External hinges allow for a 180° door opening for full access.

## 6. MAINTENANCE

Regular maintenance ensures the longevity and proper functioning of your safe.

- **Cleaning:** Wipe the exterior with a soft, damp cloth. Avoid abrasive cleaners.
- **Lock Maintenance:** Periodically check and replace batteries in the electronic lock (typically 4 AA batteries).
- **Hinges:** Inspect hinges for any signs of wear or damage. Lubricate if necessary.
- **Door Seal:** Ensure the heat-activated fire seal is free from debris and damage to maintain fire protection.

## 7. TROUBLESHOOTING

If you encounter issues with your safe, refer to the following common troubleshooting steps:

- **Lock Not Responding:** Check battery levels. Replace batteries if low. Use the emergency key if the electronic lock fails.
- **Door Not Closing Properly:** Ensure no obstructions are blocking the door or the locking bolts. Check for any debris on the door seal.
- **Alarm Activation:** If the alarm sounds unexpectedly, check for unauthorized attempts or accidental shaking/movement of the safe. Refer to the lock manual for alarm deactivation procedures.
