## 5. OPERATING INSTRUCTIONS

Your YMYNY 3-Tier Printer Stand is designed for versatile use. Here's how to maximize its functionality:

- Adjusting Shelf Height:** The middle wooden shelf can be repositioned to one of three available heights to accommodate different sized items, such as printers, shredders, or storage bins. To secure the stand in place, flip the lever back to the locked position. Alternatively, you can use the included adjustable feet for a stationary setup.
- Storage Capacity:** Each tier of the stand is designed to hold up to 27 kg (59.5 lbs), providing ample storage for printers, paper, office supplies, books, or decorative items.

- **Accessory Hooks:** Utilize the S-hooks on the side bar to hang headphones, keys, small bags, or other frequently used items for easy access and organization.

## 6. MAINTENANCE

Proper care will extend the life and appearance of your YMYNY Printer Stand:

- **Cleaning:** Wipe the wooden and metal surfaces with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or excessive water, as these can damage the finish.
- **Screw Tightness:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary to maintain stability.
- **Protection:** Protect the wooden surfaces from scratches by avoiding direct contact with sharp or rough objects. Use coasters or mats under items that might leave marks or moisture.
- **Environmental Conditions:** Keep the stand in a dry environment and avoid prolonged exposure to direct sunlight or extreme temperatures, which can cause warping or fading of the wood.

## 7. TROUBLESHOOTING

---

If you encounter any issues with your YMYNY 3-Tier Printer Stand, refer to the following common problems and solutions:

- Check if the wheel locks are engaged. Disengage them to allow free movement.
- Inspect the wheels for any debris (hair, dust, etc.) that might be obstructing their movement. Clean as necessary.
- Ensure the wheels are securely screwed into the frame.

- **Difficulty Assembling:**

- Re-read the assembly instructions carefully, paying close attention to diagrams.
