## MUBVIEW Bell J9

# MUBVIEW Wireless Video Doorbell with Chime

Model: Bell J9 - User Manual

## PRODUCT OVERVIEW

The MUBVIEW Wireless Video Doorbell with Chime provides enhanced home security with 1080p video, two-way audio, night vision, and human detection. It offers flexible storage options without mandatory subscriptions, ensuring peace of mind for your home security needs.

This image displays the MUBVIEW wireless video doorbell, its accompanying chime unit, and a smartphone screen illustrating the live video feed from the doorbell camera.

## SETUP

### What's in the Box

## See, hear and answer the door from anywhere

The package includes the doorbell unit, USB cable, chime, screws, screw anchors, user manual, 3M tape, and an unlock pin.

### Charging the Doorbell

The doorbell features a built-in large-capacity battery with low power consumption, ensuring up to 90 days of power per charge. Use the provided USB cable to charge the device.

# Stable WiFi Connection & Rechargeable Battery

Only work with 2.4 GHz WiFi

three months per charge

low battery warnings

stable

The doorbell features a built-in rechargeable battery designed for long-lasting performance, typically up to 90 days per charge.

Your browser does not support the video tag.

This video demonstrates the sleek design of the doorbell and highlights its extended standby time, showcasing the charging port and overall aesthetic.

## Mounting the Doorbell

The MUBVIEW doorbell is designed for easy installation. You can choose to mount it using the included screws and anchors for a permanent fixture or use the adhesive tapes for a less invasive setup.

# 2-Way Audio & Voice Changer

interact seamlessly with visitors anywhere and anytime

Wait a minute.

Hello, we're here.

Original sound

Clown

Uncle

The doorbell can be easily mounted on a wall using either the provided screws and anchors or the adhesive tapes.

The doorbell unit slides onto its mounting bracket, which can be affixed to the wall using screws or adhesive.

## OPERATING INSTRUCTIONS

### App Connection & Live View

Download the MUBVIEW app to your smartphone. The doorbell is compatible with 2.4GHz WiFi networks (5G is not supported). Once connected, you can access a live 1080p video feed from anywhere, ensuring seamless real-time interaction.

# Accurate Human Detection

Less false alerts & timely notification

ultra HD

**33ft**  
night vision

The included wireless chime can be placed anywhere in your home, offering adjustable volume and multiple tunes. Multiple chimes can be paired with a single doorbell.

## MAINTENANCE

### Battery Management

The doorbell's built-in battery offers long-lasting performance. Recharge the doorbell using the provided USB cable

when the battery level is low. The frequency of charging depends on usage and motion detection activity.

### Storage Options

The MUBVIEW doorbell offers flexible storage solutions. It includes a lifetime of free AES encrypted cloud storage with a 7-day free loop recording. Additionally, it supports local storage via a 128GB SD card (not included) for extended video retention.

The doorbell supports local storage via a 128GB SD card (not included) and offers a free 7-day loop recording to AES encrypted cloud storage.

## TROUBLESHOOTING

### Common Issues

- **5G Network Compatibility:** The MUBVIEW doorbell camera only supports 2.4GHz Wi-Fi and is not compatible with 5G networks. Ensure you connect to a 2.4G network during pairing.
- **Battery Life:** In general, the doorbell can stand by for 2-3 months. Actual battery life may vary depending on factors such as movement detection frequency and temperature.
- **False Alarms:** Utilize the AI human detection and adjustable sensitivity settings in the app to minimize false alarms. Customize motion zones to focus on relevant areas.
