Dorai 104-10031

Dorai Home Bath Stone Mat (2-Pack) Instruction Manual

Model: 104-10031

INTRODUCTION

Thank you for choosing the Dorai Home Bath Stone Mat. This quick-drying, non-slip bath mat is crafted from diatomaceous earth and recycled paper, designed to provide a hygienic and efficient solution for your bathroom. This manual will guide you through the proper setup, usage, and maintenance to ensure optimal performance and longevity of your bath mat.

Image: Dorai Home Bath Stone Mat (2-Pack) in Zen Slate packaging.

The Dorai Bath Stone Mat utilizes Diomat Technology, which rapidly disperses water through millions of pores for quick evaporation. This innovative design helps prevent mildew odors and ensures a consistently dry surface. The mat features a rubberized bottom pad for anti-slip stability and is engineered to remain flat over time.

How does it work?

Diomat® Technology rapidly disperses water through millions of pores for rapid evaporation.

- ✓ No mildew odors
- ✓ Non-slip
- ✓ Hygienic
- ✓ Patented technology
- ✓ Stays room temperature

PACKAGE CONTENTS

Upon unpacking, please verify that all components are present:

- Dorai Bath Stone Mat (2 units for this pack)
- Thick non-slip pad (2 units)
- Cleaning paper (sandpaper)

What's Included

Plastic-free packaging

Bath Stone™ Mat

Thick non-slip pad

Cleaning paper

SETUP

1. **Unpack Components:** Carefully remove the bath stone mat, non-slip pad, and cleaning paper from the packaging.
2. **Prepare Surface:** Ensure the floor where the mat will be placed is clean and dry.
3. **Place Non-Slip Pad:** Lay the thick non-slip pad on the desired floor area. This pad is crucial for preventing the mat from sliding and also helps protect the mat from potential damage due to uneven surfaces or direct impact.
4. **Position Bath Mat:** Place the Dorai Bath Stone Mat directly on top of the non-slip pad. Ensure it is centered and stable.

Important Safety Note: The mat should always be used with the provided non-slip pad. Using the mat without the pad may compromise its stability and durability. Use on dry surfaces only. Avoid inhaling dust from the mat. Keep away from open flames.

OPERATING INSTRUCTIONS

The Dorai Bath Stone Mat is designed for immediate use. Simply step onto the mat after showering or bathing. The diatomaceous earth material will rapidly absorb and evaporate moisture, leaving your feet and the mat dry within seconds.

Image: Mat dimensions and quick-drying capability demonstration.

- For optimal performance, ensure the mat is placed in an area with good air circulation.
- Avoid placing the mat directly under running water for extended periods.
- The mat is designed for indoor use only.

MAINTENANCE AND CARE

Proper care will extend the life and effectiveness of your Dorai Bath Stone Mat.

1. Regular Cleaning (Wash):

If the mat becomes dirty, wet the stone and gently scrub with clear soap and a soft sponge. Rinse thoroughly and repeat if necessary. Avoid harsh chemical cleaners.

Image: Washing the bath stone mat with soap and sponge.

2. Treating Stains:

For stubborn stains or to restore absorbency, gently sand the affected area with the included cleaning paper (sandpaper). Perform this in a well-ventilated area to avoid inhaling dust. After sanding, wipe off any residue.

Image: Treating stains on the bath stone mat with sandpaper.

3. Encourage Air Flow:

If the mat becomes overly saturated or to ensure thorough drying, prop your Bath Stone against a wall or in an upright position to allow air to circulate around all surfaces. Let it dry fully before using again.

Made to last with proper care

If overly saturated, let it dry out between uses

Easily remove stains with included sandpaper

TROUBLESHOOTING

How do I best care for my Dorai Bath Stone and prevent breaking?

The Dorai quick-dry Stone Bath Mat is designed to be durable, but it can break with sufficient force or weight. To prevent this, always ensure the foam non-slip pad is in place between the floor and your stone bath mat. Avoid dropping heavy objects on the mat or subjecting it to sharp impacts.

What is Diatomaceous Earth?

Diatomaceous earth, sometimes referred to as "grass of the sea," is a naturally occurring mineral composed of the fossilized remains of tiny aquatic organisms called diatoms. Its porous structure is what gives the Dorai Bath Stone Mat its exceptional absorbency and quick-drying properties.

SPECIFICATIONS

Feature	Detail
Brand	Dorai
Model Name	104-10031
Size	23.6"x15.4"x0.4" per stone
Material	Diatomite (Diatomaceous Earth and Recycled Paper)
Back Material Type	Rubber
