

CSODINCE JJYY-001

CSODINCE 40W USB C Charger Block Instruction Manual

Model: JJYY-001 | Brand: CSODINCE

INTRODUCTION

This manual provides comprehensive instructions for the safe and efficient use of your CSODINCE 40W USB C Charger Block. This 2-pack, 4-port Type C fast charging brick features dual Power Delivery (PD) and Quick Charge (QC) technology, designed to provide rapid charging for a wide range of devices, including iPhones, iPads, AirPods, iWatches, and Samsung Galaxy devices. Please read this manual thoroughly before use and retain it for future reference.

PRODUCT FEATURES

- **Fast Charging Capability:** USB-C ports support up to 20W power output, enabling devices like iPhones to charge from 0% to 50% in approximately 30 minutes, up to 3X faster than standard 5W chargers.
- **Multi-Port Design:** Equipped with dual USB-C ports and dual USB-A ports, allowing simultaneous charging of up to four devices (e.g., phone, tablet, headphones). This design minimizes waiting time and optimizes wall outlet usage.
- **Universal Compatibility:** Broad compatibility with various devices including iPhone 16/16 Pro/16 Plus/16 Pro Max/15/15 Pro/15 Pro Max/15 Plus/14/14 Plus/14 Pro/14 Pro Max/13/13 Pro Max/12/12 Mini/12 Pro/12 Pro Max/11/11 Pro/11 Pro Max/XS/XS Max/XR/X/8/7/6, iPad Pro/iPad Air, Google Pixel, Samsung Galaxy series, and more.
- **Compact and Portable:** Designed for enhanced portability, its pocket-friendly size makes it ideal for home, office, and travel use.
- **Advanced Safety Protection:** Built-in safeguards protect connected devices against excessive current, overheating, and overcharging. The charger automatically stops charging when a device is fully charged to prevent damage.

PACKAGE CONTENTS

The CSODINCE 40W USB C Charger Block package includes:

- 2 x CSODINCE 40W USB C Charger Adapters (Model: JJYY-001)

Note: Charging cables are not included and must be purchased separately.

SETUP

Setting up your CSODINCE 40W USB C Charger Block is straightforward:

1. Unpack the charger from its packaging.
2. Locate a standard wall outlet (100-240V).
3. Plug the charger firmly into the wall outlet. Ensure it is securely seated.
4. Connect your device's charging cable (USB-C to USB-C or USB-A to USB-C/Lightning, etc.) to the appropriate port on the charger.
5. Connect the other end of the cable to your device.

OPERATING INSTRUCTIONS

The CSODINCE 40W USB C Charger Block is designed for simple operation:

- **Single Device Charging:** For optimal fast charging, connect a single device to either of the USB-C (PD20W) ports. This will deliver up to 20W of power to compatible devices.
- **Multiple Device Charging:** You can charge up to four devices simultaneously using the two USB-C ports and two USB-A ports. The total power output is 40W, which will be intelligently distributed among the connected devices.

- **Charging Indication:** Your device's screen will typically indicate that it is charging. The charger itself does not have an indicator light.
- **Optimal Performance:** For best charging speeds, use high-quality charging cables that are compatible with your devices and the charger's power output capabilities.

Charges 2 Devices at High Speed

3X Faster Than the Original

⚠ Note: charging speed will slower when device's power is above 60%.

MAINTENANCE

To ensure the longevity and optimal performance of your charger, follow these maintenance guidelines:

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or aerosols.
- **Storage:** When not in use, store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the charger or subjecting it to strong impacts. Do not attempt to disassemble or modify the charger.
- **Cable Care:** Always grasp the plug when disconnecting cables from the charger or your device; do not pull on the cable itself.

TROUBLESHOOTING

If you encounter issues with your CSODINCE 40W USB C Charger Block, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging.	Loose connection, faulty cable, incompatible device, power outlet issue.	Ensure charger is firmly plugged into the wall. Check cable connections at both ends. Try a different cable. Test the power outlet with another device. Verify device compatibility.
Slow charging speed.	Using non-fast charging cable, multiple devices connected, device not supporting fast charge.	Use a high-quality cable designed for fast charging. Disconnect other devices to allow maximum power to a single device. Ensure your device supports PD or QC fast charging. Note that charging speed may slow down when the device's battery is above 60%.
Charger feels warm.	Normal operation, heavy load.	It is normal for the charger to become warm during operation, especially when charging multiple devices or fast charging. If it becomes excessively hot or emits smoke/odor, immediately unplug it and discontinue use.
Charger ports not working.	Debris in port, internal fault.	Inspect ports for debris and gently remove if present (with charger unplugged). Try a different port. If issue persists, contact customer support.
