LOVMOR S-422092X-DF

LOVMOR 2 Tier Individual Pull Out Cabinet Organizer 7½" W x 21½" D Instruction Manual

Model: S-422092X-DF | Brand: LOVMOR

1. INTRODUCTION

The LOVMOR 2 Tier Individual Pull Out Cabinet Organizer is designed to maximize storage efficiency and accessibility within your kitchen cabinets. This durable metal organizer features two independently sliding shelves, providing convenient access to items typically hidden at the back of your cabinets. With a robust design capable of holding up to 100 lbs, it's an ideal solution for organizing pots, pans, kitchen accessories, and more.

Key Features:

- Individual Pull-Out Shelves: Both upper and lower shelves can be pulled out independently for easy access.
- High Weight Capacity: Strong enough to hold up to 100 lbs.
- Adjustable Height: Features 2 height sets on the stand for customizable shelf placement.
- Full-Extension Ball-Bearing System: Ensures smooth and quiet operation of the sliding shelves.
- Durable Construction: Made from rust-resistant metal with a chrome finish.
- Easy Installation: Designed for straightforward setup with included mounting template.

2. SAFETY INFORMATION

Please read and understand all instructions before assembly and use. Failure to follow these instructions may result in product damage, property damage, or personal injury.

- Always ensure the cabinet organizer is securely installed to a stable surface according to the instructions.
- Do not exceed the maximum weight capacity of 100 lbs (45 kg) per shelf. Overloading can cause damage or instability.
- Keep fingers clear of moving parts, especially during installation and when sliding shelves in and out.
- Ensure all screws and fasteners are tightened securely before use. Periodically check for loose connections.
- This product is intended for indoor use only.
- Keep small parts and packaging materials away from children to prevent choking hazards.

3. PACKAGE CONTENTS

Verify that all components are present and in good condition before beginning assembly. If any parts are missing or damaged, please contact customer support.

- 2 x Wire Baskets (Upper and Lower)
- 1 x Main Frame Assembly (Vertical Supports with Pre-attached Slides)
- Mounting Hardware (Screws, Washers)
- Installation Template
- Instruction Manual (this document)

5. SETUP & INSTALLATION

For a visual guide, please refer to the official installation videos provided below or download the [Installation Manual \(PDF\)](#).

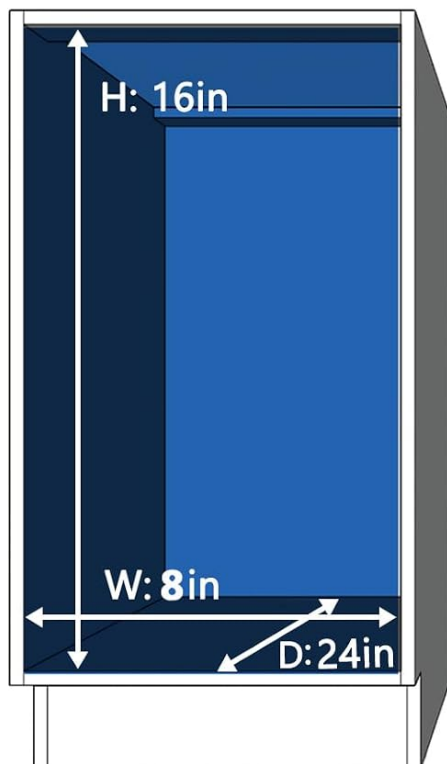

Before You Begin:

- Measure your cabinet opening carefully. This organizer fits 9" cabinet openings, 24" depth, 15" height and larger. Do not include hinges when measuring.
- Gather necessary tools: Screwdriver (Phillips head recommended), Drill (optional, for pilot holes), Pencil, Measuring tape.

Installation Steps:

1. **Assemble the Frame:** Attach the full-extension ball-bearing slides to the vertical support brackets using the provided screws. Ensure the slides are oriented correctly for smooth operation.

Video: Demonstrates the assembly of the organizer's frame and slides.

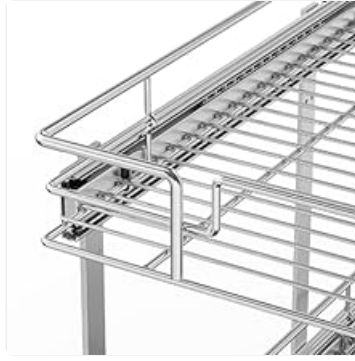

Image: Close-up of the basket attachment points on the slides.

2. **Prepare the Cabinet:** Place the provided mounting template inside your cabinet, aligning it with the front edge. Use a pencil to mark the drilling locations for the screws. For easier installation and to prevent wood splitting, it is recommended to pre-drill pilot holes at the marked locations.

Video: Shows how to use the mounting template and pre-drill holes in the cabinet.

Image: Visual guide for marking and drilling pilot holes using the template.

3. **Install the Frame:** Position the assembled frame inside the cabinet, aligning the screw holes with your marked pilot holes. Secure the frame to the cabinet base using the provided screws. Ensure the frame is level and stable.

Image: Screws securing the organizer frame to the cabinet base.

4. **Insert the Baskets:** Slide the wire baskets onto the installed full-extension slides. The baskets should click securely into place. Ensure both baskets slide smoothly and independently.

Image: The organizer installed in a cabinet, ready for use.

5. **Adjust Shelf Height (Optional):** The upper shelf has 3 height adjustment options, and the lower shelf has 2 adjustment options. To adjust, lift the basket slightly and reposition it into the desired set of holes on the vertical supports.

6. OPERATING INSTRUCTIONS

Using your LOVMOR 2 Tier Pull Out Cabinet Organizer is simple and intuitive.

- **Pulling Out Shelves:** Gently pull the front of either the upper or lower basket to slide it out. The full-extension ball-bearing system allows the shelves to extend completely, providing full access to your stored items.
- **Returning Shelves:** Push the basket back into the cabinet until it is fully recessed.
- **Loading Items:** Place items evenly distributed on the shelves to maintain balance and prevent tipping. Do not exceed the 100 lbs weight capacity per shelf.

Image: The lower drawer can be pulled out independently for easy access.

You can pull out only the LOWER DRAWER or UPPER DRAWER

7. MAINTENANCE

To ensure the longevity and smooth operation of your LOVMOR cabinet organizer, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the metal surfaces with a damp cloth. For stubborn grime, a mild soap solution can be used, followed by drying thoroughly. Avoid abrasive cleaners or harsh chemicals that could damage the chrome finish.
- **Lubrication:** If the slides begin to feel stiff or noisy, apply a small amount of silicone-based lubricant to the ball bearings. Avoid oil-based lubricants as they can attract dust and debris.
- **Regular Checks:** Periodically inspect all screws and connections to ensure they remain tight. Re-tighten any loose fasteners to maintain stability.

8. TROUBLESHOOTING

If you encounter any issues with your cabinet organizer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Shelves do not slide smoothly.	Dirt/debris in slides, lack of lubrication, uneven installation.	Clean slides and apply silicone lubricant. Check if the frame is level and securely mounted.
Organizer feels wobbly or unstable.	Loose mounting screws, uneven cabinet surface.	Tighten all mounting screws. Ensure the cabinet surface is flat; use shims if necessary.
Baskets do not fit into the frame.	Incorrect orientation, obstruction.	Ensure baskets are facing the correct direction. Check for any obstructions preventing proper insertion.
Items fall off the shelves.	Overloading, uneven weight distribution.	Do not exceed weight capacity. Distribute items evenly across the shelf surface.

9. WARRANTY & SUPPORT

LOVMOR products are manufactured to high-quality standards. For specific warranty information, please refer to the product packaging or contact LOVMOR customer service directly. If you have any questions, require assistance with installation, or need to report a missing/damaged part, please reach out to our support team through the retailer's platform or the official LOVMOR website.
