ZHIYUN Molus G200

ZHIYUN Molus G200 200W COB Video Light Instruction Manual

Model: Molus G200

INTRODUCTION

The ZHIYUN Molus G200 is a powerful and portable 200W COB video light designed for professional photography and video recording. It features a bi-color temperature range of 2700K-6500K, high color rendering (CRI ≥95, TLCI ≥97), and a unique separated light body and controller design for enhanced flexibility. This manual provides essential information for setting up, operating, and maintaining your Molus G200 light.

The ZHIYUN Molus G200 200W COB Video Light, showcasing its main components including the light head, reflector, and controller.

An introductory video highlighting the key features and capabilities of the ZHIYUN Molus G200 COB Video Light.

WHAT'S IN THE BOX

Verify that all items are present in your package:

- G200 Main Device x 1
- Standard Reflector (Bowens Mount) x 1
- Power Adapter+Cable x 1
- Storage Bag x 1
- Quick Start Guide x 1

The complete package contents of the ZHIYUN Molus G200, including the light, controller, reflector, and cables, stored in the provided bag.

A video demonstrating the unboxing and contents of the ZHIYUN Molus G200 light kit.

SETUP

1. **Assemble the Light and Controller:** Connect the light body to the controller using the provided cable. Ensure a secure connection.

2. **Attach the Reflector:** Align the standard Bowens Mount reflector with the light head and twist clockwise until it locks into place.

3. **Mount on a Stand:** Use the integrated 180° adjustable arm to mount the light onto a compatible light stand. Secure it by tightening the knob.

4. **Connect Power:** Plug the power adapter into the controller and then into a power outlet.

The ZHIYUN Molus G200 light head and its separate controller, designed for flexible placement and control.

The 180° rotatable light support allows for versatile positioning of the ZHIYUN Molus G200.

OPERATING INSTRUCTIONS

1. **Power On/Off:** Use the power switch on the controller to turn the device on or off.

2. **Adjust Brightness (DIM):** Rotate the [DIM] knob on the controller to adjust the light intensity from 0% to 100%.

3. **Adjust Color Temperature (CCT):** Rotate the [CCT] knob to change the color temperature between 2700K (warm) and 6500K (cool).

4. **MAX Extreme Mode:** For a peak output of up to 300W, press and hold both the [DIM] and [CCT] knobs simultaneously. Note that continuous use in this mode may trigger temperature protection.

5. **ZY Vega App Control:** Download the ZY Vega App to control the light remotely via Bluetooth. The app supports seamless CCT and DIM adjustment, as well as five built-in presets for quick changes.

6. **Bowens Mount:** The universal Bowens Mount allows for compatibility with a wide range of light modifiers, such as softboxes and diffusers.
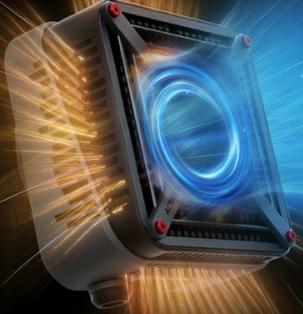

The controller's display allows for precise and seamless adjustment of brightness and color temperature.

Activate MAX Extreme Mode for a powerful 300W output from the Molus G200.

Control your Molus G200 remotely using the ZY Vega App for convenient adjustments.

New Cooling System for The COB Light and Controller

The features heat sink, FOC fan, and DynaVort Cooling System   Delivering high-power output while maintaining a lightweight and bright solution.

The DynaVort Cooling System ensures efficient heat dissipation for stable performance.

SPECIFICATIONS

Product Dimensions	5 x 2.66 x 5 inches
Item Weight	4.84 pounds
Item Model Number	AU_PL109
Brand	ZHIYUN
Connectivity Technology	Bluetooth
Hardware Interface	Bluetooth
Manufacturer	zhiyun
