Aoxun 10x12 Hardtop Outdoor Gazebo

Aoxun 10'x12' Hardtop Outdoor Gazebo Instruction Manual

Model: 10x12 Hardtop Outdoor Gazebo

Product Overview

Thank you for choosing the Aoxun 10'x12' Hardtop Outdoor Gazebo. This gazebo is designed to provide a comfortable and protected outdoor space, featuring a durable galvanized steel double-top roof and a sturdy aluminum frame. It includes mosquito netting and privacy curtains for enhanced usability. Please read this manual thoroughly before assembly and use to ensure proper installation and longevity of your product.

Setup and Assembly

Proper assembly is crucial for the stability and safety of your gazebo. We recommend that 5-6 people work together on the assembly, which typically takes 3-4 hours. Ensure all parts are present before beginning. Refer to the included detailed instruction booklet for step-by-step guidance.

Preparation

- Choose a level and stable surface for installation.
- Clear the assembly area of any obstructions.
- Unpack all components and verify against the parts list in your instruction booklet.
- Gather necessary tools (not included): ladder, screwdriver, wrench, safety gloves.

Assembly Steps Overview

1. **Frame Assembly:** Connect the pre-drilled aluminum frame components according to the diagrams. Ensure all connections are secure.
2. **Roof Installation:** Carefully lift and attach the galvanized steel double-top roof panels. Pay attention to the roof slope for efficient water drainage.
3. **Netting and Curtains:** Install the mosquito netting and outer curtains onto the designated tracks or hooks.
4. **Anchoring:** Secure the gazebo to the ground using appropriate anchors (not always included, check your package contents) to prevent wind damage.

Operating Instructions

Your Aoxun gazebo is designed for versatile outdoor enjoyment.

Using Netting and Curtains

- **Mosquito Netting:** The inner netting provides protection from insects while allowing air circulation. Zip the netting closed for a bug-free environment.
- **Outer Curtains:** The outer curtains offer privacy and additional protection from sun, wind, and light rain. They can be tied back when not in use or fully closed for privacy.
- **Curtain Straps:** Utilize the integrated straps to secure the curtains in an open position, improving visibility and airflow.

Double Top Roof Ventilation

The double-top roof design promotes air circulation, reducing heat buildup and ensuring a comfortable environment within the gazebo. This design also aids in wind resistance by allowing gusts to pass through.

Integrated Hook

A hook is located in the center of the steel ceiling. This can be used to hang lightweight items such as decorative lights or a small fan (ensure items are within weight limits and safely secured).

Maintenance

Regular maintenance will extend the life and appearance of your gazebo.

- **Cleaning the Frame:** Wipe the aluminum frame with a damp cloth and mild soap. Rinse thoroughly and dry. Avoid abrasive cleaners.
- **Cleaning the Roof:** The galvanized steel roof can be cleaned with water and a soft brush to remove debris. Ensure the roof slope remains clear for proper water runoff.
- **Netting and Curtains:** Hand wash the netting and curtains with mild soap and cold water. Air dry completely before storing or reattaching. Do not machine wash or tumble dry.
- **Hardware Inspection:** Periodically check all screws, bolts, and connections to ensure they are tight and secure. Tighten any loose hardware.
- **Winter Care:** In areas with heavy snow or strong winds, it is recommended to remove the roof panels and store the fabric components indoors to prevent damage. Ensure the frame is securely anchored if left outdoors.

Troubleshooting

Here are solutions to common issues you might encounter:

- **Difficulty during Assembly:**
  Issue: Parts do not align, or screws are difficult to insert.
  Solution: Ensure all components are oriented correctly as per the instruction manual. Do not overtighten screws until all parts for a section are loosely fitted, then tighten gradually. If screws strip easily, ensure you are using the correct size and type of screwdriver.
- **Loose Connections:**
  Issue: Gazebo feels wobbly or unstable after assembly.
  Solution: Re-check all bolts and screws. Ensure they are fully tightened. Verify that all frame components are properly seated and locked into place.
- **Water Accumulation on Roof:**
  Issue: Water pools on the roof instead of draining.
  Solution: Confirm that the roof panels are installed with the correct slope as indicated in the manual. Clear any debris (leaves, snow) from the roof surface that might obstruct drainage.
- **Netting/Curtains Not Closing Properly:**
  Issue: Zippers snag or curtains do not slide smoothly.
  Solution: Check the tracks for any obstructions or damage. Ensure the fabric is not caught in the zipper. Apply a silicone-based lubricant to the zipper teeth if necessary.

Specifications

Feature	Detail
Brand	Aoxun
Model	10x12 Hardtop Outdoor Gazebo
Product Dimensions (L x W x H)	120"L x 120"W x 108"H
Item Weight	235 Pounds
Frame Material	Alloy Steel, Aluminum
Roof Material	Galvanized Steel Double Top
Water Resistance Level	Waterproof

Ultraviolet Light Protection	True (99% sunlight prevention)
Assembly Required	Yes
Color	Gray

Warranty Information

For specific warranty details regarding your Aoxun Hardtop Outdoor Gazebo, please refer to the warranty card included with your purchase or contact the manufacturer directly. Keep your proof of purchase for any warranty claims.
