3.3 Operating System Compatibility

The keyboard is compatible with both Mac and Windows operating systems. A dedicated switch on the top edge allows you to toggle between Mac and Windows modes, which adjusts the default key bindings accordingly.

4. OPERATING YOUR KEYBOARD

4.1 Keycap and Switch Customization

The Halo75 features hot-swappable switches, allowing you to easily change them without soldering. The keyboard comes with PBT keycaps, known for their durability. Additional keycaps and a variety of switches are included for further customization.

4.3 Battery Life

The Halo75 keyboard is equipped with a 4000 mAh battery, supporting up to 240 hours of continuous use with lights off. The Sidelight indicator provides real-time battery status.

4.4 Key Bindings and Software

The keyboard offers unlimited software customizability. Specific key combinations (hotkeys) are provided in the included quick guide for changing backlight effects, key bindings, and other settings without software. For advanced customization, the NuPhy Console software is available.

4.5 Product Review Video

5. MAINTENANCE

To ensure the longevity and optimal performance of your Halo75 keyboard, regular maintenance is recommended. The PBT keycaps are highly durable and resistant to wear and tear. For cleaning, gently wipe the keycaps and frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials.

6. TROUBLESHOOTING

6.1 Connectivity Issues

If you experience connection issues (e.g., keyboard not connecting via Bluetooth or 2.4G, or missed keystrokes), ensure the keyboard is fully charged and within range of your device. Verify the correct connectivity mode is selected on the keyboard's switch. For Bluetooth, ensure your device's Bluetooth is enabled and the keyboard is paired correctly. If issues persist, try reconnecting or restarting both the keyboard and your device.
