SETUP

1. Placement

Place the sound bar on a stable, flat surface, preferably below your television or monitor. Ensure there is adequate ventilation around the unit.

2. Power Connection

1. Connect the provided power adapter to the DC IN port on the back of the sound bar.
2. Plug the other end of the power adapter into a standard wall outlet.

3. Audio Connection (Optional)

While primarily a Bluetooth device, some models may offer wired connections. If available, connect an audio cable (e.g., 3.5mm AUX) from your audio source (TV, computer) to the corresponding input port on the sound bar.

OPERATING INSTRUCTIONS

1. Powering On/Off

- To power on the sound bar, press the Power button (or central knob if it functions as power).
- To power off, press and hold the Power button until the unit shuts down.

2. Bluetooth Pairing

1. Ensure the sound bar is powered on and in Bluetooth mode (indicated by a specific LED light or voice prompt). If not, press the Mode button to switch to Bluetooth.
2. On your mobile device (smartphone, tablet, computer), enable Bluetooth and search for available devices.
3. Select "iLive ISB172B" or a similar name from the list of found devices.

4. Once paired, the sound bar will indicate a successful connection, and you can begin playing audio from your device.

3. Volume Control

Adjust the volume using the volume controls on the sound bar itself, or via the connected Bluetooth device.

4. Input Selection

If your sound bar supports multiple inputs (e.g., Bluetooth, AUX), press the Mode button to cycle through the available input sources.

MAINTENANCE

Cleaning

- Before cleaning, ensure the sound bar is powered off and unplugged from the power outlet.
- Use a soft, dry cloth to wipe the exterior surfaces.
- Do not use liquid cleaners, aerosols, or abrasive chemicals, as these may damage the finish or internal components.

Storage

When not in use for extended periods, store the sound bar in a cool, dry place, away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No Power	Power adapter not connected; outlet not working.	Ensure power adapter is securely connected to the sound bar and a working wall outlet.
No Sound	Volume too low; incorrect input selected; device not paired.	Increase volume; select correct input mode (Bluetooth/AUX); ensure Bluetooth device is paired and playing audio.
Bluetooth Disconnection	Device out of range; interference.	Move Bluetooth device closer to the sound bar; avoid obstacles; try re-pairing the device.
