## 4. SETUP

### 4.1 Initial Charging

Before first use, fully charge your Fluentalk T1 Mini using the provided USB Type-C cable and a compatible power adapter (not included). The device will indicate charging status on the screen.

## 4.2 Powering On/Off

To power on, press and hold the Power Button until the screen lights up. To power off, press and hold the Power Button, then select 'Power Off' on the screen.

## 4.3 Initial Setup and Network Connection

Upon first power-on, follow the on-screen prompts to select your preferred system language. The device will automatically activate its 1-year free global mobile data plan, providing connectivity in supported regions without needing a SIM card or Wi-Fi.

## 6. MAINTENANCE

### 6.1 Battery Care

To maximize battery life, avoid extreme temperatures. Charge the device regularly, and if storing for extended

periods, ensure it has at least a 50% charge. Turning off the device when not in use can significantly conserve battery.

## 6.2 Cleaning the Device

Use a soft, lint-free cloth to clean the screen and body of the device. Do not use abrasive cleaners or solvents. For the camera lens, use a specialized lens cleaning cloth.

## 6.3 Software Updates

Periodically check for software updates through the device's settings menu to ensure you have the latest features and performance improvements. Updates may require a stable internet connection.

# 7. TROUBLESHOOTING

If you encounter issues with your Fluentalk T1 Mini, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
Device does not power on.	Battery may be depleted. Connect to charger and allow it to charge for at least 30 minutes before attempting to power on again.
Translation is slow or inaccurate.	Ensure a stable internet connection (Wi-Fi or mobile data). If using offline mode, verify that the correct language packages are downloaded and up-to-date. Speak clearly and at a moderate pace.
Global mobile data not working.	Verify that the 1-year data plan is active (it activates automatically upon first power-on). Check network signal strength in your location. Some remote areas may have limited coverage.
Photo translation not working.	Ensure good lighting and clear focus on the text. The text should be legible and not too small. Check if the language is supported for photo translation.
Battery drains quickly.	Reduce screen brightness. Close unused applications. Turn off Wi-Fi or mobile data when not needed. Power off the device when not in use for extended periods.

If problems persist, refer to the 'User Guide' section within the device's system settings or contact customer support.
