3. PACKAGE CONTENTS

Please check the package for the following items:

- WARSUN H882 Searchlight Flashlight
- USB Charging Cable
- Built-in Lithium Ion Battery

4. SETUP

4.1 Initial Charge

Before first use, fully charge the WARSUN H882 Searchlight Flashlight. Connect the provided USB charging cable to the charging port on the device and to a standard USB power adapter (not included) or a computer USB port. The charging indicator will show the charging status.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

Press the power button located on the handle to turn the flashlight on. Press it again to cycle through the different lighting modes (High, Low, Strobe). To turn off the flashlight, continue pressing the power button until the light switches off, or press and hold the button for a few seconds.

5.2 Changing Modes

With the flashlight on, short press the power button repeatedly to switch between High, Low, and Strobe modes. Select the mode appropriate for your lighting needs.

6. CHARGING INSTRUCTIONS

6.1 Charging the Device

To charge the H882, locate the USB charging port, typically protected by a rubber cover to maintain water resistance. Plug the smaller end of the USB cable into the flashlight's port and the larger end into a compatible USB power source. The indicator lights will show charging progress. A full charge can take several hours.

6.2 Power Bank Function

The WARSUN H882 also features a power bank function, allowing you to charge other USB-powered devices. Connect your device's charging cable to the flashlight's output USB port. This feature is useful for charging mobile phones or other small electronics in emergency situations.

7. MAINTENANCE

7.1 Cleaning

Wipe the flashlight with a soft, damp cloth to remove dirt and debris. Do not use abrasive cleaners or solvents, as these may damage the surface or internal components. Ensure the charging port cover is securely closed after

cleaning to maintain water resistance.

7.2 Storage

Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures. For long-term storage, it is recommended to charge the battery every 3-6 months to maintain battery health.

8. TROUBLESHOOTING

- **Flashlight does not turn on:**

    - Ensure the battery is charged. Connect to a power source and allow it to charge for at least 30 minutes before attempting to turn it on again.
    - Check if the power button is functioning correctly.

- **Light is dim or flickers:**

    - The battery level may be low. Recharge the flashlight fully.
    - Ensure the lens is clean and free from obstructions.

- **Charging is not working:**

    - Verify that the USB cable is securely connected to both the flashlight and the power source.
    - Try using a different USB cable or power adapter to rule out faulty accessories.
    - Check the charging port for any debris or damage.

If issues persist after attempting these troubleshooting steps, please contact customer support.

9. SPECIFICATIONS

Feature	Specification
Model Number	H882
Brand	WARSUN
Light Source Type	LED, Xenon
Brightness	3000 Lumens
Beam Distance	Up to 1 Kilometer
Battery Life	Up to 48 hours (Low mode)
Power Source	Battery Powered (1 Lithium Ion battery included)
Battery Cell Composition	Lithium Ion
Water Resistance Level	IP5 (Waterproof)
Material	ABS
Product Dimensions	20D x 10W x 15H Centimeters
Item Weight	0.55 Kilograms (550 g)
