4. Setup

Follow these steps to prepare your Xgody X60 for first use:

1. **Insert SIM and SD Cards:** The X60 features three independent card slots: one for a Nano SIM card, one for a Micro SIM card, and one for an SD card (up to 256GB). Use the provided SIM card tray pin to open the back cover. Carefully insert your SIM cards and SD card into their respective slots.

2. **Install Battery:** Place the 3000mAh removable battery into the battery compartment. Ensure it is correctly aligned.

3. **Close Back Cover:** Securely reattach the back cover.

4. **Power On:** Press and hold the power button located on the side of the phone until the Xgody logo appears.

5. **Initial Setup:** Follow the on-screen prompts to complete the initial setup, including language selection, Wi-Fi connection, and Google account setup.

Refer to the following video and image for visual guidance on installing the battery and SIM/SD cards:

5. Operating Instructions

Once your phone is set up, you can begin using its features:

- **Power On/Off:** Press and hold the power button to turn the device on or off. A short press will lock/unlock the screen.
- **Navigation:** Use the on-screen navigation buttons (Back, Home, Recent Apps) to move between applications and screens.
- **Settings:** Access device settings by swiping down from the top of the screen to open the notification panel, then tapping the gear icon, or by finding the 'Settings' app in your app drawer.
- **Face Unlock:** Configure Face Unlock in the security settings for quick and secure access to your device.
- **Applications:** Download and install applications from the Google Play Store.

The following video demonstrates the phone's interface and basic operations:

6. Maintenance

To ensure the longevity and optimal performance of your Xgody X60:

- Keep the device clean and free from dust and moisture.
- Avoid exposing the phone to extreme temperatures.
- Use only approved chargers and accessories.
- Regularly clear cache and unnecessary files to maintain system speed.
- If the battery is damaged, it can be easily replaced due to its removable design.

7. Troubleshooting

If you encounter issues with your Xgody X60, consider the following common solutions:

- **Device not powering on:** Ensure the battery is correctly installed and charged. Connect the phone to a charger for at least 30 minutes before attempting to power on again.
- **Poor network signal:** Check that your SIM card is properly inserted and that you are within your carrier's coverage area. Restart the phone.
- **Applications crashing:** Clear the cache for the problematic app in Settings > Apps & notifications > [App Name] > Storage & cache. If the issue persists, try reinstalling the app.
- **Slow performance:** Close unused applications, clear storage, and restart the device.
- **Face Unlock not working:** Ensure your face is well-lit and unobstructed. Re-register your face data in the security settings if necessary.
