Vanclearidea HV300 Series

Vanclearidea Vacuum Tool Clip Instruction Manual

FOR SHARK ROCKET HV300 SERIES AND COMPATIBLE MODELS

Introduction

This manual provides instructions for the installation and use of the Vanclearidea replacement tool clip. This accessory is designed to enhance the convenience of your vacuum cleaning experience by providing on-board storage for your vacuum attachments.

Compatibility: This tool clip is compatible with various Shark Rocket vacuum models, including but not limited to: HV380, HV380C, HV380W, HV381, HV381C, HV382, HV384Q, HV345, HZ2002, HZ251, IC160, IC162, UV380, ZS350, ZS351, ZS352, HV384QBL, HV384QR, HV390S, ZS360, ZS362, HV300, HV301, HV302, HV303, HV305, HV306, HV310, HV320, HV321, HV322, HV324, HV325, NR96, UV422, UV425, UV450, HV300C, HV300W, HV300WC, HV301C, HV301Q, HV302Q, HV306Q, HV308Q, HV320C, HV320W, HV322Q, HV324Q, UV422CCO, UV425CCO, UV450CCO, UV450CCOFS, HV307QPK. The part number for this clip is 392FFJH380.

Product Overview

The Vanclearidea tool clip is a durable accessory made from high-quality ABS material. It is designed to securely attach to the wand of your compatible Shark Rocket vacuum, providing two slots for convenient storage of your most frequently used cleaning attachments.

Setup and Installation

Installation of the tool clip is straightforward and requires no tools.

1. **Identify Vacuum Wand:** Locate the main wand or extension tube of your Shark Rocket vacuum cleaner where you wish to attach the tool clip.
2. **Position the Clip:** Align the opening of the tool clip with the vacuum wand. The clip is designed to snap onto the cylindrical part of the wand.
3. **Secure the Clip:** Gently but firmly push the tool clip onto the vacuum wand until it snaps into place. Ensure it is securely fastened and does not slide freely.
4. **Test Stability:** Once attached, gently tug on the clip to confirm it is stable and will not detach during use.

Operating Instructions

Once installed, the tool clip allows for easy access to your vacuum attachments during cleaning.

1. **Insert Attachments:** Take your desired vacuum attachments (e.g., crevice tool, upholstery tool) and insert their base into the circular openings on the tool clip.
2. **Secure Attachments:** Ensure the attachments are firmly seated in the clip to prevent them from falling out during vacuum operation.
3. **Access During Cleaning:** When you need to switch attachments, simply remove the desired tool from the clip and re-insert it when finished.

Maintenance

The Vanclearidea tool clip requires minimal maintenance.

- **Cleaning:** If the clip becomes dirty, wipe it with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the ABS material.
- **Inspection:** Periodically check the clip for any signs of wear or damage. If the clip becomes loose or cracked, it may need to be replaced to ensure secure attachment of tools.

Troubleshooting

- **Clip does not fit on wand:** Ensure your vacuum model is listed in the compatibility section. The clip is designed for specific wand diameters. Do not force the clip, as this may cause damage.

- **Attachments fall out of clip:** Verify that the attachments are fully inserted into the clip's openings. If the clip itself is loose on the wand, reposition it or inspect for damage.
- **Clip slides on wand:** Ensure the clip is fully snapped into place. If it continues to slide, the wand's diameter might be slightly smaller than intended, or the clip may be worn.

Specifications

Brand	Vanclearidea
Model Number	HV300 Series
Part Number	392FFJH380
Material	Acrylonitrile Butadiene Styrene (ABS)
Color	Gray
Dimensions (L x W x H)	5.9 x 3.93 x 1.97 inches
Item Weight	1.13 ounces
Included Components	Tool Clip (1)
