5. MAINTENANCE AND CARE

5.1 Cleaning

To maintain optimal performance and hygiene, regularly clean your headphones.

- Wipe the headphones with a soft, damp cloth.
- Do not use harsh chemicals, cleaning solvents, or strong detergents.
- Ensure the charging port is dry before charging.

5.2 Waterproof and Sweatproof (IPX5)

The headphones are rated IPX5 waterproof, meaning they are protected against low-pressure water jets from any direction.

- They are resistant to sweat and light rain, making them suitable for workouts and outdoor activities.
- **Important:** These headphones are not designed for underwater swimming or submersion in water. Avoid exposing them to high-pressure water or prolonged immersion.

Figure 9: IPX5 Water Resistance

This image depicts a person exercising outdoors with the headphones, demonstrating their resistance to sweat and light rain, highlighting the IPX5 waterproof rating.

Figure 10: Water Resistance Demonstration

This image shows the headphones with water splashing around them, visually reinforcing their IPX5 waterproof capabilities against splashes and sweat.

5.3 Battery Care

- Avoid fully discharging the battery frequently.
- Store the headphones in a cool, dry place when not in use for extended periods.
- Charge the headphones at least once every three months to prevent battery degradation.

6. TROUBLESHOOTING

If you encounter any issues with your headphones, please refer to the following common solutions:

Problem	Possible Solution
Headphones do not turn on.	Ensure the headphones are fully charged. Connect to a power source and try again.
Cannot pair with device.	Ensure Bluetooth is enabled on your device. Make sure the headphones are in pairing mode (LED flashing blue and red). Move the headphones closer to your device. Forget the device from your phone's Bluetooth settings and try pairing again. Restart both the headphones and your device.

Problem	Possible Solution
No sound or low volume.	Adjust the volume on both the headphones and your connected device. Ensure the headphones are properly connected via Bluetooth. Check if the audio source is playing. For calls, if the microphone sound is low, manually turn up the volume on your device during the call.
Sound quality is poor.	Ensure the headphones are positioned correctly on your cheekbones. Move closer to your device to avoid interference. Try playing different audio files to rule out source issues.
Headphones disconnect frequently.	Ensure you are within the 33-foot (10-meter) Bluetooth range. Avoid obstacles between the headphones and your device. Check for interference from other wireless devices.
