Zienstar MT131

Zienstar MT131 Foldable 360° Rotating Adjustable Aluminum Tablet Stand User Manual

Model: MT131

1. Introduction

Thank you for choosing the Zienstar MT131 Foldable 360° Rotating Adjustable Aluminum Tablet Stand. This manual provides detailed instructions for the proper setup, operation, and maintenance of your new tablet stand. Please read this manual thoroughly before use to ensure optimal performance and longevity of the product.

2. Product Overview

The Zienstar MT131 is a versatile and robust stand designed to securely hold tablets and smartphones ranging from 4 to 14 inches. Constructed from durable aluminum, it features a 360° rotatable base and a double-axis adjustable arm, allowing for various viewing angles and heights.

2.1 Key Features

- **360° Rotation:** The base allows for full rotation, enabling easy screen sharing and angle adjustments without moving the entire stand.
- **Foldable and Portable:** Designed for easy storage and transport, making it ideal for travel.
- **Double-Axis Adjustment:** Offers 180-degree angle adjustment and height customization for ergonomic viewing.
- **Large Aluminum Base:** Provides enhanced stability for larger tablets.
- **Anti-Slip Design:** Equipped with silicone pads to prevent device slippage and protect against scratches.
- **Wide Compatibility:** Supports devices from 4 to 14 inches, including iPads, other tablets, and smartphones.

2.2 Package Contents

- Zienstar MT131 Tablet Stand (1 unit)
- Screws (for axis elasticity adjustment)

3. Setup Instructions

The Zienstar MT131 tablet stand comes pre-assembled. Follow these steps to prepare it for use:

1. **Unfold the Stand:** Gently unfold the stand from its compact, folded position. Ensure all joints click into place securely.
2. **Place on a Stable Surface:** Position the stand on a flat, stable surface to prevent accidental tipping.
3. **Adjust Axis Elasticity (Optional):** If the stand's joints feel too loose or too stiff, you can adjust the elasticity. Locate the four screws on the underside of the base. Use an appropriate tool (not included) to slightly tighten or loosen these screws to achieve your desired tension.

4. Operating Instructions

Using your Zienstar MT131 stand is straightforward:

1. **Place Your Device:** Carefully place your tablet or smartphone onto the stand's holder. Ensure it rests securely against the silicone pads.

2. **Adjust Viewing Angle:** The stand features a double-axis design. Gently adjust the upper and lower arms to achieve your desired viewing angle. The arms can be adjusted up to 180 degrees.

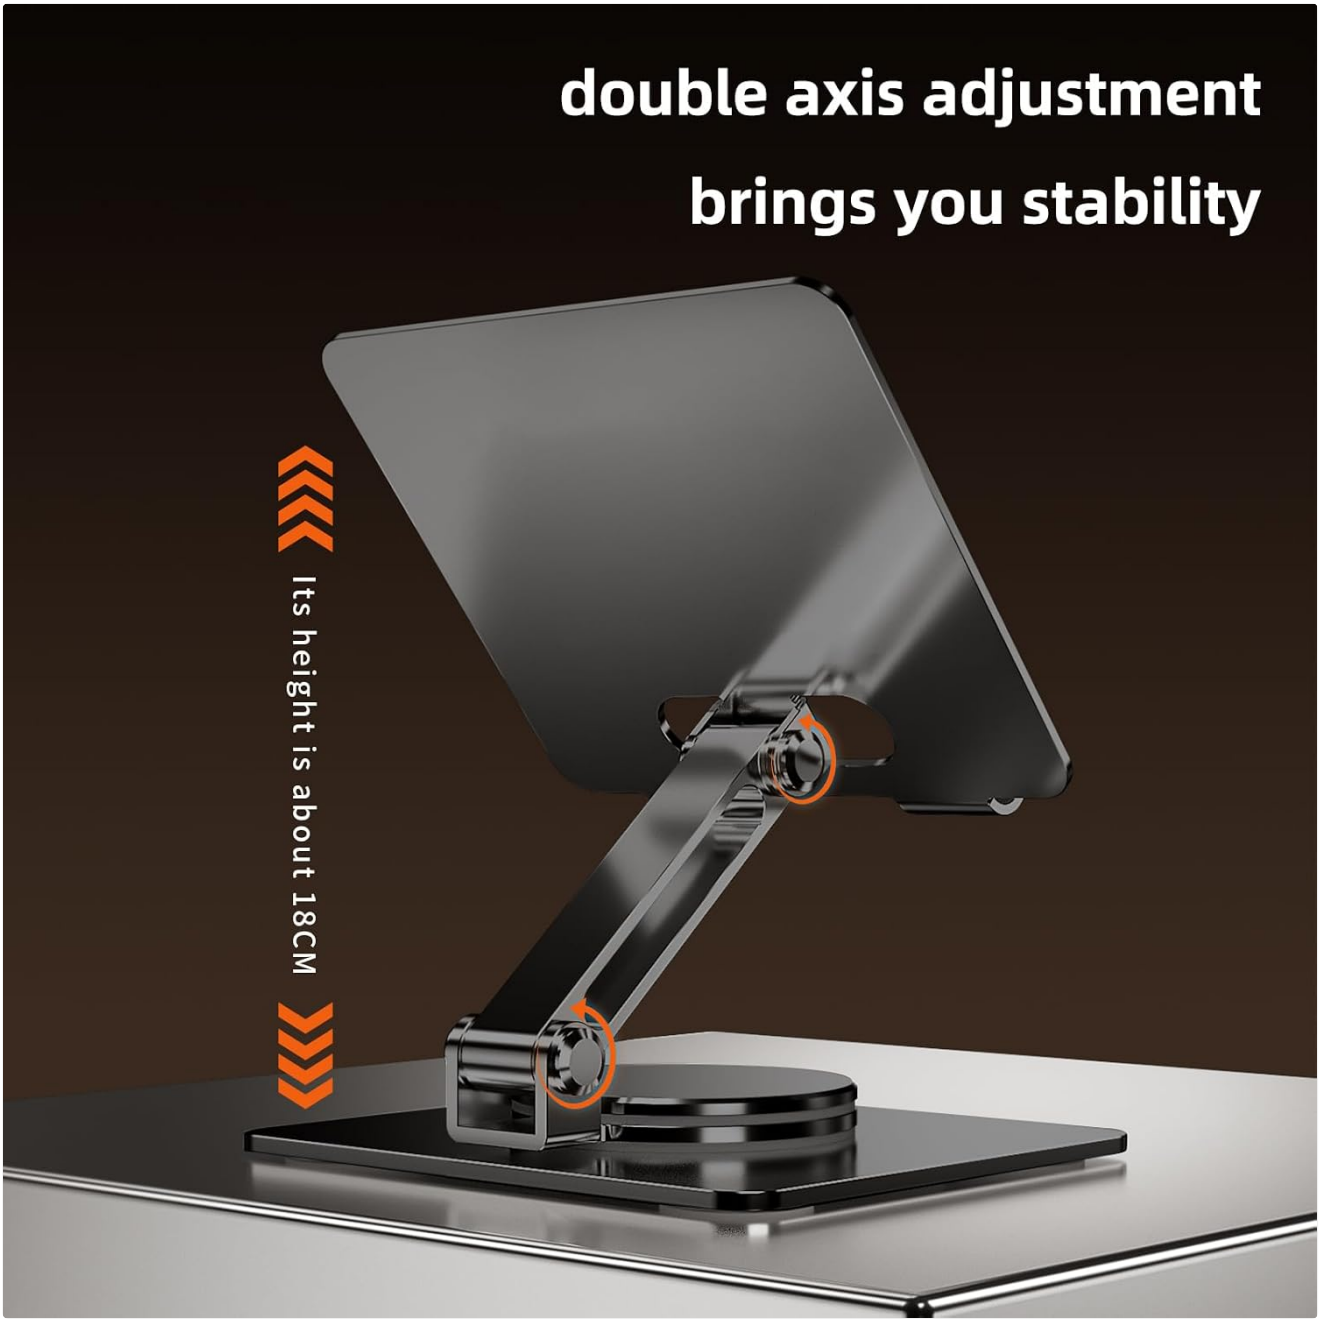

Image: Side profile of the stand demonstrating its double-axis adjustment capability for height and tilt.

3. **Adjust Height:** The double-axis design also allows for height adjustment. Raise or lower the stand to an ergonomic height that suits your needs.
4. **Rotate the Base:** To change the orientation of your device or share your screen, rotate the entire stand base 360 degrees. This allows for seamless transitions between portrait and landscape modes or different viewing directions.

5. Maintenance

To ensure the longevity and optimal performance of your Zienstar MT131 tablet stand, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the stand with a soft, dry, or slightly damp cloth. Avoid using abrasive cleaners or solvents, as these can damage the aluminum finish and silicone pads.
- **Inspection:** Periodically check the screws on the base and the joints for any looseness. Tighten them if necessary to maintain stability.
- **Storage:** When not in use, fold the stand to its compact form for easy storage and to protect it from dust and damage.
- **Avoid Overloading:** Do not place devices heavier than the recommended weight capacity (implied by 4-14 inch device compatibility) to prevent damage to the stand.

6. Troubleshooting

Problem	Possible Cause	Solution
Stand feels unstable or wobbly.	Loose screws in the base or joints. Uneven surface.	Ensure the stand is on a flat surface. Tighten the four screws on the underside of the base.
Device slips from the holder.	Device size outside recommended range (4-14 inches). Silicone pads are dirty or worn.	Ensure your device is within the compatible size range. Clean the silicone pads. If pads are worn, contact support.
Joints are too stiff or too loose.	Axis elasticity needs adjustment.	Adjust the four screws on the underside of the base to modify the tension of the joints.

7. Specifications

- **Model:** MT131
- **Brand:** Zienstar
- **Material:** Aluminum (Metal)
- **Base Size:** 149mm x 132mm
- **Product Dimensions:** 14.9 x 13.2 x 12.2 cm (folded/minimum height)
- **Product Weight:** 500 g
- **Compatibility:** Smartphones and Tablets from 4 to 14 inches
- **Features:** Foldable, 360-degree rotation, Double-axis adjustment, Anti-slip silicone pads
