## OCHIDO Turtle Balance Stepping Stones

# OCHIDO Turtle Balance Stepping Stones

## USER INSTRUCTION MANUAL

### 1. Introduction

---

The OCHIDO Turtle Balance Stepping Stones set is designed to promote physical development in children. This set encourages the development of balance, coordination, motor skills, and logical thinking through engaging play. Suitable for both indoor and outdoor environments, these stepping stones offer a versatile platform for active learning and fun.

## 2. What's Included

Your OCHIDO Turtle Balance Stepping Stones set includes the following components:

- **6 x Turtle Balance Stepping Stones:** Made from durable plastic in various colors (red, yellow, green, purple, orange, blue).
- **24 x Activity Cards with Turtle Facts:** Educational cards to enhance learning during play.
- **6 x Game Suggestions Cards:** Provides ideas for structured play.
- **1 x Colorful Game Spinner:** Used for interactive game play.
- **1 x Durable Non-Woven Storage Bag:** For convenient storage and portability.

## 3. Setup Instructions

---

Before first use, please follow these steps:

1. **Unpack Components:** Carefully remove all items from the packaging.
2. **Attach Non-Slip Pads:** Each turtle stepping stone is equipped with eight non-slip pads on its underside. These pads may need to be firmly inserted into their designated slots. Ensure all pads are securely in place to prevent movement during use.
3. **Inspect:** Check all components for any damage or defects before allowing children to play.

## 4. Operating Instructions

The OCHIDO Turtle Balance Stepping Stones can be used in various ways to promote physical and cognitive development:

- **Balance and Coordination:** Arrange the stones in a path or obstacle course. Children can walk, stand, jump, or climb from one stone to another, improving their balance and body coordination.
- **Interactive Games:** Use the included game spinner and activity cards to create structured play. The spinner can dictate which color stone to move to, while activity cards suggest specific movements or poses (e.g., "Turtle Squat," "Turtle Crawl").
- **Color Recognition and Logical Thinking:** Encourage children to identify colors and plan their movements across the stones, fostering color recognition and logical thinking skills.
- **Indoor and Outdoor Use:** The durable plastic construction makes these stones suitable for use on various surfaces, including carpet, hard floors, grass, and playgrounds.

## 5. Safety Information

---

To ensure safe play, please observe the following:

- **Adult Supervision:** Always supervise children during play to prevent accidents.
- **Secure Non-Slip Pads:** Ensure all non-slip pads are firmly in place before each use to prevent the stones from sliding.
- **Weight Limit:** The maximum weight recommendation for each stepping stone is 100 pounds (approximately 45 kg).
- **Choking Hazard:** The small non-slip pads can be a choking hazard if they become detached. Regularly check that all pads are secure. If a child tends to put toys in their mouth, consider permanently securing the pads with a non-toxic adhesive.
- **Clear Play Area:** Ensure the play area is free from obstacles and hazards.

## 6. Maintenance

---

To keep your stepping stones in optimal condition:

- **Cleaning:** Wipe the stones with a damp cloth and mild soap as needed. Rinse thoroughly and allow to air dry completely before storing.
- **Inspection:** Periodically inspect the stones and non-slip pads for wear and tear. Replace any damaged components if necessary.

## 7. Storage

The OCHIDO Turtle Balance Stepping Stones are designed for convenient storage:

- **Stackable Design:** The turtle stones are stackable, allowing them to be nested together to save space.
- **Storage Bag:** Utilize the provided durable non-woven bag to keep all components together and organized when not in use.

*Image: A young girl demonstrating how to store the turtle stepping stones neatly in the provided storage bag.*

## 8. Troubleshooting

If you encounter any issues, consider the following:

- **Stones Sliding:** Ensure all non-slip pads are fully inserted and secure. If pads frequently detach, they may need to be re-inserted firmly or secured with a suitable adhesive.
- **Difficulty Stacking:** Ensure the stones are aligned correctly when stacking. They are designed to nest efficiently.

## 9. Specifications

---

<b>Brand</b>	OCHIDO
<b>Model</b>	Turtle Balance Stepping Stones
<b>Material</b>	Plastic
<b>Color</b>	Red, yellow, green, purple, orange, blue
<b>Maximum Weight Recommendation</b>	100 Pounds (approx. 45 kg)
