Soundcore A3035

Soundcore Space One Active Noise Cancelling Headphones

Model: A3035
Brand: Soundcore by Anker

Introduction

The Soundcore Space One headphones are designed to provide an immersive audio experience with advanced active noise cancellation. Featuring 40mm customized dynamic drivers and LDAC support, these headphones deliver high-resolution wireless audio. They are crafted for comfort with an 8° floating-axis design and offer extended playtime for long journeys.

What's in the Box

Upon unboxing your Soundcore Space One headphones, you will find the following components:

- Soundcore Space One Headphone x1
- Carry Pouch x1
- USB-C Cable x1
- AUX Cable x1

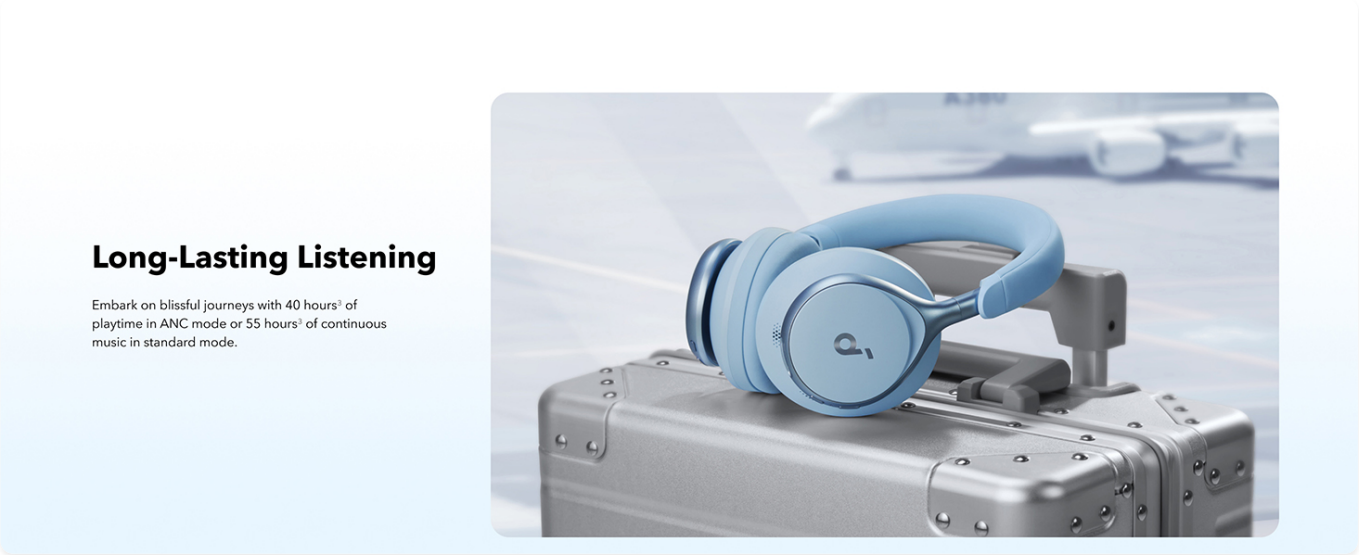

Image: All items included in the Soundcore Space One packaging: the headphones, a carry pouch, a USB-C charging cable, and an AUX audio cable.

Setup Guide

1. Charging Your Headphones

Before first use, fully charge your Soundcore Space One headphones. Use the provided USB-C cable to connect the headphones to a power source. The LED indicator will show charging status.

- A full charge provides approximately 40 hours of playtime with Active Noise Cancellation (ANC) on, and up to 55 hours with ANC off.

2. Powering On/Off

To power on the headphones, press and hold the Power button until the LED indicator lights up. To power off, press and hold the Power button again until the LED indicator turns off.

3. Bluetooth Pairing

To connect your Soundcore Space One headphones to a device via Bluetooth 5.3:

1. Ensure the headphones are powered off.
2. Press and hold the Power button for 3 seconds until the LED indicator flashes blue, indicating pairing mode.
3. On your device (smartphone, tablet, computer), enable Bluetooth and search for "Soundcore Space One" in the list of available devices.
4. Select "Soundcore Space One" to establish the connection. The LED will turn solid blue once connected.

Multipoint Connection: These headphones support connecting to two devices simultaneously. After connecting to the first device, put the headphones back into pairing mode and connect to the second device. The headphones will intelligently switch between the two connected devices.

4. Soundcore App Customization

Download the Soundcore app from your device's app store to unlock full customization options for your Space One headphones. The app allows you to:

- Adjust EQ settings and choose from various sound modes.
- Customize button controls.
- Update firmware.
- Utilize the HearID feature to create a personalized sound profile.

Operating Your Headphones

Controls

The Soundcore Space One headphones feature intuitive controls for media playback, calls, and noise cancellation management. Refer to the physical buttons on the earcups for specific functions (e.g., volume up/down, play/pause, track skip, ANC mode toggle).

Active Noise Cancellation (ANC)

The Space One headphones feature adaptive noise cancellation that detects external sounds and sound leakage, automatically calibrating to deliver optimal noise reduction. This technology is designed to reduce noise by up to 98%, with 2X stronger voice reduction compared to previous models, making them ideal for noisy environments.

Hi-Res Wireless Audio with LDAC

Experience superior sound quality with Hi-Res Wireless Audio, supported by LDAC technology. The 40mm customized dynamic drivers deliver 3X more detail than standard Bluetooth codecs, ensuring a rich and detailed listening experience.

Comfortable Fit

The headphones are designed for prolonged wear with an 8° rotating ear cup design that conforms to the contours of any head, and a soft integrated headband that evenly distributes pressure.

Clear Calls

Multiple microphones are integrated to pinpoint and amplify your voice, ensuring clear calls in any setting.

Maintenance and Care

To ensure the longevity and optimal performance of your Soundcore Space One headphones, follow these care guidelines:

- **Cleaning:** Gently wipe the earcups and headband with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** When not in use, store the headphones in the provided carry pouch to protect them from dust, scratches, and minor impacts.
- **Temperature:** Avoid exposing the headphones to extreme temperatures (hot or cold) or high humidity.
- **Water Resistance:** While the headphones have a waterproof rating, avoid submerging them in water. Clean any moisture immediately.

Troubleshooting

If you encounter issues with your Soundcore Space One headphones, try the following solutions:

- **Cannot Pair with Device:**
  - Ensure the headphones are in pairing mode (flashing blue LED).
  - Turn off Bluetooth on other nearby devices to prevent interference.
  - Clear the Bluetooth pairing history on your device and try pairing again.
- **No Sound or Low Volume:**
  - Check the volume levels on both your headphones and the connected device.
  - Ensure the headphones are properly connected via Bluetooth or AUX cable.
  - Try playing audio from a different source or application.
- **Noise Cancellation Not Effective:**
  - Ensure the ANC feature is activated.
  - Adjust the fit of the earcups to ensure a proper seal around your ears.
  - Use the Soundcore app to check ANC settings and modes.
- **Charging Issues:**
  - Ensure the USB-C cable is securely connected to both the headphones and the power source.
  - Try a different USB-C cable or power adapter.

For further assistance, refer to the Soundcore app or the official Soundcore support website.

Product Specifications

Feature	Detail
Model Name	Space One
Model Number	A3035
Noise Control	Active Noise Cancellation
Connectivity Technology	Wireless (Bluetooth 5.3)

Feature	Detail
