HIFIT Twin Upholstered LED Bed Frame

MODEL: HFT-UP-074

Instruction Manual

Product Overview

This manual provides detailed instructions for the assembly, operation, and maintenance of your HIFIT Twin Upholstered LED Bed Frame. This bed frame features an adjustable petal-shaped headboard, integrated RGB LED lighting, and a sturdy platform design that eliminates the need for a box spring. It is designed for use with a twin-size mattress.

Safety Information

- Do not use a mattress larger than 12 inches in thickness or heavier than 650 lbs.
- Assemble the bed frame strictly according to the provided instructions to ensure stability.
- Exercise caution during assembly and use to avoid sharp edges.
- Ensure all connections for the LED lighting system are secure and properly installed.

Setup and Assembly

The HIFIT Twin Upholstered LED Bed Frame is designed for straightforward assembly. All necessary parts, detailed instructions, and tools are included in the package. No additional tools are required.

Key Assembly Features:

- **Adjustable Headboard:** The headboard height can be adjusted from 44.1 inches to 46.1 inches to accommodate various mattress sizes.
- **Sturdy Construction:** Features natural wood boards and large load-bearing slats for stability.
- **Noise-Free Design:** Includes powerful Velcro strips and a silent bar to reduce friction and eliminate squeaking.
- **No Box Spring Needed:** The robust wooden structure supports your mattress directly.

Maintenance

To maintain the appearance and longevity of your bed frame, follow these care instructions:

- For general cleaning, wipe the upholstered surfaces with a damp cloth.
- Immediately follow with a dry cloth to prevent moisture damage.
- Avoid using harsh chemicals or abrasive cleaners, as these may damage the velvet upholstery or LED components.

- Regularly check and tighten all assembly hardware to ensure stability.

Troubleshooting

Problem	Possible Cause	Solution
Bed frame squeaks	Loose connections or improper slat placement.	Ensure all bolts are tightened. Verify slats are correctly positioned and the noise-free strips are intact.
LED lights not working	Power connection issue, remote battery dead, or app connectivity problem.	Check if the power adapter is securely plugged in. Replace remote batteries if necessary. Ensure the smartphone app is correctly paired and updated.
Headboard feels unstable	Headboard attachment bolts are loose.	Re-tighten the bolts connecting the headboard to the frame.
