5. Maintenance

To ensure the longevity and optimal performance of your Sttoraboks Garden Tool Organizer, follow these simple maintenance guidelines:

- **Regular Cleaning:** Wipe down the metal surfaces with a damp cloth to remove dirt, dust, and debris. For stubborn grime, a mild soap solution can be used, followed by thorough rinsing and drying.
- **Inspect for Damage:** Periodically check all screws and connections to ensure they remain tight. Re-tighten any loose fasteners to maintain structural integrity.
- **Rust Prevention:** Although the organizer is rust-resistant, prolonged exposure to harsh weather conditions can affect its finish. If used outdoors, consider placing it under a covered area or applying a rust-inhibiting spray annually.
- **Clear Drainage:** The perforated bottom shelf is designed to allow dirt and water to pass through. Ensure these perforations remain clear to prevent accumulation and potential corrosion.

6. Troubleshooting

If you encounter any issues with your Sttoraboks Garden Tool Organizer, refer to the following common
