

Makeid L1

Makeid L1 Label Maker Machine User Manual

Model: L1 | Brand: Makeid

INTRODUCTION

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your Makeid L1 Portable Wireless Sticker Label Maker Machine. Please read this manual thoroughly before using the device to ensure proper function and longevity.

WHAT'S IN THE BOX

Verify that all components are present in the package:

- Makeid L1 Label Maker Machine
- 4-meter roll of label tape
- USB charging cable
- User Manual (this document)

PRODUCT OVERVIEW

Familiarize yourself with the key components of your Makeid L1 Label Maker.

Easy to Use

More Efficient

Image: Overview of the Makeid L1 Label Maker, highlighting the power button, the lid for tape replacement, and the integrated cutter for crisp labels.

- **Power Button:** Located on the side, used to turn the device on/off.
- **Lid:** Opens to access the tape compartment for loading and replacing label rolls.
- **Built-in Cutter:** Ensures clean and precise cuts of printed labels.

- **Label Output Slot:** Where printed labels emerge.
- **Charging Port:** USB port for recharging the device.

SETUP

1. Charging the Device

Before first use, ensure the label maker is fully charged. Connect the provided USB charging cable to the device's charging port and a compatible USB power source (e.g., computer USB port, USB wall adapter). The indicator light will show charging status (refer to device specific light indicators for full/charging status).

2. Loading Label Tape

The Makeid L1 supports various label tape widths (9mm, 12mm, 16mm) and types (continuous, die-cut, transparent, white, colored, pattern). Ensure the tape is correctly oriented.

1. Open the lid of the label maker.
2. Insert the label roll into the compartment, ensuring the tape feeds out from the bottom and through the output slot.
3. Close the lid securely.

Image: The Makeid L1 Label Maker demonstrating the label tape roll and examples of printed labels, including continuous and die-cut types.

3. Downloading and Installing the App

The Makeid L1 operates via a dedicated mobile application. Search for "MakeID-Life" on your device's app store.

Image: Screenshots showing the "Get it on Google Play" and "Download on the App Store" buttons, indicating where to find the MakeID-Life application.

4. Bluetooth Pairing

The label maker connects to your smartphone via Bluetooth.

1. Ensure Bluetooth is enabled on your smartphone.
2. Turn on the Makeid L1 Label Maker by pressing the power button. The indicator light will flash, indicating it's ready for pairing.
3. Open the "MakeID-Life" app. The app will automatically search for nearby devices.

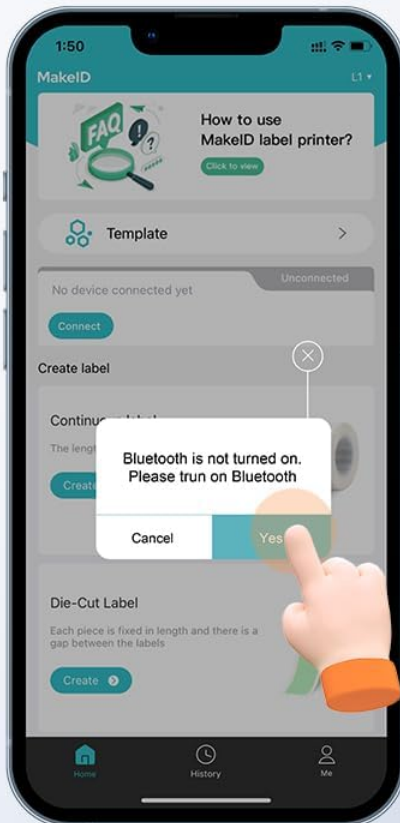

4. Select "L1" from the list of available devices to connect. Once connected, the indicator light on the label maker will become solid.

Easy to Start

User-Friendly Bluetooth Connection

1. Designing Your Label

The "MakeID-Life" app offers extensive customization options:

- **Text Input:** Type your desired text.
- **Fonts:** Choose from 88 different font styles.
- **Icons & Symbols:** Access over 600 icons and various symbols.
- **Templates:** Utilize over 400 pre-designed templates for various purposes (e.g., kitchen, office, school).
- **Borders & Frames:** Add decorative borders.
- **Other Functions:** Create barcodes, QR codes, tables, dates, and patterns.

User-Friendly Versatile APP

Continuously Updated Every Month

2. Printing Labels

Once your design is complete in the app:

1. Review your label design on the app screen.

2. Tap the "Print" button within the app.
3. The label will be thermally printed and emerge from the output slot.

3. Cutting Labels

The Makeid L1 features a built-in cutter for clean edges.

- After printing, gently pull the label forward slightly.
- Press the cutting button (refer to the Product Overview image for location) to cleanly cut the label.

Image: Illustration of the Makeid L1's built-in cutter, demonstrating how it provides professional and safe cutting of labels, eliminating messy torn edges.

4. Types of Label Printing

The L1 supports two primary types of label printing:

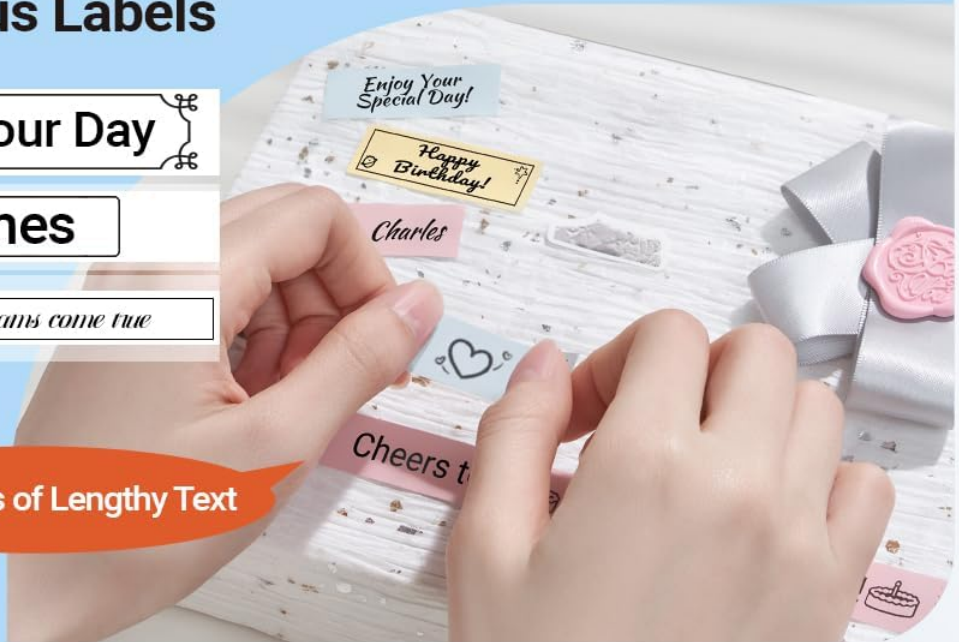

- **Continuous Labels:** Ideal for custom lengths, allowing you to print text of any length and cut it precisely.
- **Die-Cut Labels:** Pre-sized labels with specific shapes, perfect for consistent labeling of items like jars or files.

Two Types of Label Printing

Continuous Labels

No Worries of Lengthy Text

Die-Cut Labels

Unlock More Order and Productivity

Image: Visual representation of continuous labels, which can be cut to any length, and die-cut labels, which are pre-shaped for specific applications.

MAINTENANCE

Cleaning the Print Head

To ensure optimal print quality, periodically clean the thermal print head.

- Turn off the label maker and disconnect it from the power source.
- Open the lid and remove the label tape.
- Gently wipe the print head with a soft, lint-free cloth dampened with isopropyl alcohol. Do not use water or abrasive cleaners.
- Allow the print head to dry completely before reinserting the tape and closing the lid.

Storage

Store the label maker in a cool, dry place away from direct sunlight and extreme temperatures. Remove the label tape if storing for extended periods.

TRUBLESHOOTING

Refer to the table below for common issues and their solutions.

Problem	Possible Cause	Solution
Device does not turn on.	Low battery.	Charge the device using the provided USB cable.
Cannot connect via Bluetooth.	Bluetooth is off on phone; device not in pairing mode; app issue.	Ensure Bluetooth is enabled on your phone. Turn the label maker off and on again to re-enter pairing mode. Restart the "MakeID-Life" app.
Poor print quality / Faded prints.	Print head dirty; incorrect label tape; low battery.	Clean the print head. Ensure you are using Makeid compatible thermal label tape. Charge the device.
Label tape not feeding.	Tape incorrectly loaded; tape jammed.	Open the lid and re-insert the label tape correctly, ensuring it's not jammed.
Labels are not cutting cleanly.	Cutter blade dull or obstructed.	Ensure no debris is obstructing the cutter. If issues persist, contact customer support.

SPECIFICATIONS

Detailed technical specifications for the Makeid L1 Label Maker Machine:

Feature	Detail
Brand	Makeid
Model Name	L1
Connectivity Technology	Bluetooth
Printing Technology	Thermal
Printer Output	Monochrome
Resolution	203 x 203 DPI (also 300 x 300 DPI for other variants)
Maximum Media Size	0.63 inches (16mm)
Compatible Devices	Smartphones (Android & iOS)

Feature	Detail
Control Method	App
Hardware Interface	USB
Power Source	1 Lithium Ion battery (included)
Product Dimensions	3.93"D x 1.6"W x 1.96"H (10 x 4.06 x 4.98 cm)
Item Weight	4.4 ounces (126 Grams)
Special Features	Continuous & Pre-cut Label Tapes, Waterproof, Oil-proof, Friction Resistant, Light Resistant, No Fading, Rich Font Icon Pattern, Portable, Inkless, Wireless, Rechargeable, Creative Print Functions (Barcode, Text, Picture, QR 2D Code, Table, Date, Border, Icon, Shape, Pattern, Template)
