ALLIMITY N2QAYB001180

Allimity N2QAYB001180 Replacement Remote Control User Manual

For Panasonic LED TVs

Introduction

This manual provides instructions for the Allimity N2QAYB001180 replacement remote control, designed for use with various Panasonic LED TV models. This remote functions as a direct replacement and requires no programming.

Setup: Battery Installation

1. Locate the battery compartment on the back of the remote control.
2. Slide the battery compartment cover downwards or in the direction indicated by an arrow to open it.
3. Insert two new AA alkaline batteries (not included), ensuring that the positive (+) and negative (-) terminals match the polarity indicators inside the compartment.
4. Replace the battery compartment cover by sliding it back into position until it clicks securely.

Operating Instructions

This replacement remote control operates using infrared (IR) signals. No pairing or programming is required; it functions immediately after battery installation.

- **Direct Line of Sight:** Point the remote control directly at the infrared (IR) sensor located on your Panasonic LED TV.
- **Clear Path:** Ensure that no objects are blocking the path between the remote control and the IR sensor on your television.
- **Button Functions:** All buttons correspond to the standard functions of your original Panasonic TV remote. Refer to your TV's user manual for specific button functionalities.

Maintenance

- **Battery Replacement:** Replace batteries when the remote's response becomes inconsistent or stops working. Always replace both batteries with new AA alkaline batteries.
- **Cleaning:** Clean the remote control with a soft, dry cloth. Avoid using liquid cleaners, abrasive materials, or solvents, as these can damage the remote's surface or internal components.
- **Storage:** If the remote will not be used for an extended period, remove the batteries to prevent leakage and potential damage.

Troubleshooting

If the remote control is not functioning as expected, please follow these steps:

1. **Check Batteries:** Ensure that the batteries are inserted correctly, matching the positive (+) and negative (-) polarity indicators. Replace old batteries with a fresh pair of AA alkaline batteries.
2. **Line of Sight:** Verify that the remote is pointed directly at the TV's IR sensor and that there are no obstructions (e.g., furniture, plants) blocking the signal path.
3. **TV IR Sensor:** Confirm that the TV's IR sensor is not covered or obstructed.
4. **Test with Another Device (if possible):** If you have another compatible Panasonic TV, test the remote with it to determine if the issue is with the remote or the TV.

If problems persist after following these steps, please refer to the Support section for further assistance.

Specifications

Model Number	N2QAYB001180
Brand	ALLIMITY
Dimensions	8.19 x 0.6 x 2 inches (approx.)
Item Weight	3.17 ounces (approx.)

Color	Black
Special Feature	Ergonomic design
