## SETUP AND ASSEMBLY

- Battery Installation:** Ensure batteries are fully charged and properly inserted. Align the battery with the slot at the base of the chainsaw handle and slide it in until it clicks securely into place.
- Handle/Guard Attachment:** The chainsaw comes with a protective guard and an auxiliary handle. Attach these components using the provided screws and screwdriver.
- Chain Tensioning:** Use the included wrench to adjust the chain tension. The ideal tension allows for about 3mm of slack. Turn the tensioner knob clockwise to tighten and counter-clockwise to loosen.
