## Maintenance

- **Upholstery Care:** For the linen upholstery, spot clean any spills or stains immediately with a clean, damp cloth and a mild, pH-neutral detergent. Blot gently; do not rub vigorously. Do not machine wash or tumble dry the upholstery.
- **Frame Care:** Wipe the wooden frame and other non-upholstered surfaces with a dry or slightly damp cloth. Avoid using abrasive cleaners, harsh chemicals, or excessive moisture, as these can damage the finish.
- **Regular Checks:** Periodically check all bolts and screws to ensure they remain tight. Retighten if necessary to maintain stability.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight may cause the fabric to fade over time.

## Troubleshooting

- **Squeaking Noises:** If the bed frame squeaks, check all assembly bolts and screws. Tighten any loose connections. Ensure the mattress is properly seated on the slatted base.
- **Drawers Sticking:** Ensure the drawers are properly aligned on their runners. Check for any obstructions within the drawer mechanism.
- **Instability:** If the bed feels unstable, immediately cease use and re-check all assembly steps, ensuring all components are correctly installed and tightened according to the manual.
