## Bunfly PC-S1

# Bunfly Dog Grooming Kit User Manual

Model: PC-S1

## INTRODUCTION

---

Thank you for choosing the Bunfly Dog Grooming Kit. This comprehensive system is designed to provide a professional grooming experience for your pets at home, combining powerful vacuum suction with a variety of grooming tools to ensure a clean and stress-free process. This manual provides essential information on setup, operation, maintenance, and troubleshooting to help you get the most out of your grooming kit.

## PRODUCT OVERVIEW AND COMPONENTS

---

The Bunfly Dog Grooming Kit includes a main vacuum unit and a comprehensive set of attachments designed for various grooming needs. Familiarize yourself with all components before use.

- Scissors (1)

- Electric hair clipper (1)
- Card cloth comb (1)
- Blade comb (1)
- Electrostatic comb (1)
- Limit comb (various sizes)
- User manual (1)
- Black storage bag (1)

## KEY FEATURES

### Powerful Vacuum Suction

The Bunfly grooming kit features a powerful vacuum design with suction up to 13,000Pa, capturing 99.99% of pet hair directly into the dust cup. This minimizes mess and keeps your grooming area clean.

## Large Capacity Dust Cup

Equipped with a 3L dust cup, the Bunfly grooming kit can handle grooming for multiple pets without frequent emptying. The hair collector is designed for non-contact cleaning, allowing you to empty it with a single finger.

Image: Illustration of the 3L dust cup, demonstrating its large capacity and the simple, non-contact method for emptying collected pet hair.

## Quiet Operation

The grooming vacuum operates at a low noise level, as low as 50dB, thanks to special noise reduction treatment. This helps prevent startling your pets during grooming sessions.

Image: A chart comparing the Bunfly vacuum's 50dB noise level to common sounds like falling leaves, a refrigerator, and conversation, emphasizing its quiet operation.

### **Grooming and Vacuuming Simultaneously**

This innovative design allows you to groom your pet while the vacuum simultaneously collects shed hair, preventing hair from scattering and sticking to clothes. This eliminates the need for extensive cleanup after grooming.

# Grooming and Vacuuming at the Same Time

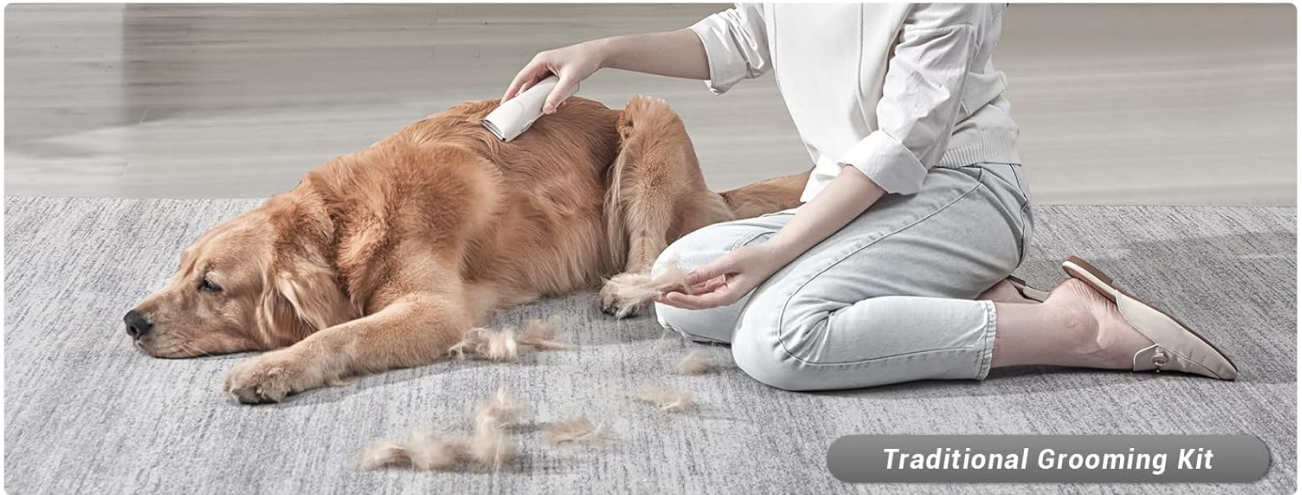

Image: A side-by-side comparison showing the mess from traditional grooming versus the clean process achieved by grooming and vacuuming simultaneously with the Bunfly kit.

## Comprehensive 16-Tool Set

The kit includes 16 specialized grooming tools, providing everything you need for a complete pet grooming session, from trimming and de-shedding to bathing and massaging.

## SETUP INSTRUCTIONS

- 1. Unpack Components:** Carefully remove all items from the packaging and ensure all listed components are present.
- 2. Connect Hose:** Attach the flexible hose securely to the main vacuum unit's intake port. Ensure a snug fit to maintain optimal suction.
- 3. Select Attachment:** Choose the appropriate grooming tool for your task (e.g., electric hair clipper, slicker comb, massage brush) and attach it to the end of the hose.
- 4. Power Connection:** Plug the power cord into a standard 110V~130V~60Hz electrical outlet.
- 5. Prepare Pet:** For best results and to help your pet relax, consider massaging and feeding them before beginning the grooming process. Ensure your pet's hair is dry before using the electric hair clipper.

## OPERATING INSTRUCTIONS

The Bunfly Dog Grooming Kit offers versatile functionality for various grooming tasks. Follow these guidelines for effective use:

## General Operation:

- Press the power button on the main unit to turn on the vacuum.
- Adjust the suction level using the controls on the unit. There are 3 adjustable suction levels available.
- Gently apply the chosen attachment to your pet's coat, moving in the direction of hair growth.

## Specific Tool Usage:

### Electric Hair Clipper:

Attach the desired guide comb (available in 6 sizes: 3mm, 6mm, 9mm, 12mm, 18mm, 24mm) to the electric hair clipper for precise hair length. Ensure the pet's hair is dry. Press the power button on the clipper and trim hair evenly. The clipper also includes a detail blade head for intricate areas and a nail grinding head for paw care.

### Massage Comb:

Use the massage comb to stimulate blood circulation and promote skin metabolism. This can be a relaxing experience for your pet.

**Multi-purpose Cleaning Tools:**

Utilize the 2-in-1 flat suction tool, pet hair roller brush, and other attachments for cleaning pet hair from furniture, carpets, and other surfaces.

Image: A collage demonstrating the use of different attachments for multi-purpose cleaning, including a crevice tool and a hair roller.

**Adjustable Suction Levels:**

The device features 3 adjustable suction levels. For sensitive pets or cats, it is recommended to start with lower settings (Gear 1 or 2) for less stress and gentleness.

## MAINTENANCE

---

Regular maintenance ensures the longevity and optimal performance of your Bunfly Dog Grooming Kit.

- **Empty Dust Cup:** After each grooming session, or when the dust cup is full, empty it. The 3L dust cup can be opened with one finger for non-contact cleaning.
- **Clean Attachments:** Detach all grooming tools and clean them thoroughly to remove any trapped hair or debris. Use the small brush provided for intricate areas.
- **Blade Maintenance:** For the electric hair clipper, apply a small amount of lubricating oil to the blades periodically to ensure smooth operation and prevent dulling.
- **General Cleaning:** Wipe down the main unit and hose with a damp cloth. Do not immerse the main unit in water.
- **Heat Dissipation:** Pay attention to the heat dissipation of the machine during extended use to extend its life. The thermal protection of the motors is 105 degrees Celsius.

## TROUBLESHOOTING

---

If you encounter any issues with your Bunfly Dog Grooming Kit, refer to the following common solutions:

- **Reduced Suction:** Check if the dust cup is full and needs emptying. Ensure the hose and attachments are securely connected and free from blockages.
- **Clipper Not Cutting Effectively:** Ensure the pet's hair is dry. Check if the blades are clean and free of hair buildup. Apply lubricating oil if needed. If the issue persists, the blades may need sharpening or replacement.
- **Unusual Noise:** Verify that all components are properly assembled. Check for any foreign objects in the hose or attachments.
- **Unit Not Powering On:** Ensure the power cord is securely plugged into a working electrical outlet. Check for any tripped circuit breakers.

If these steps do not resolve the issue, please contact customer support for further assistance.

## SPECIFICATIONS

---

Feature	Detail
Brand	Bunfly
Model Name	PC-S1
Item Weight	10.01 pounds
Product Dimensions	9.4 x 13 x 5.4 inches
Dust Cup Capacity	3 Liters
Suction Power	Up to 13,000Pa
Noise Level	As low as 50dB
Power Source	Corded Electric
Voltage	110V~130V~60Hz
Material	Acrylonitrile Butadiene Styrene
Country of Origin	China
