3. SAFETY INSTRUCTIONS

- Always assemble the product on a soft, clean surface to prevent scratches.
- Ensure all screws and fasteners are securely tightened before use. Periodically check and re-tighten if necessary.
- Do not exceed the maximum recommended load capacity of 106 pounds for the top surface.
- Keep small parts and hardware away from children to prevent choking hazards.
- For electrical safety, do not overload the power outlets or USB ports. Ensure the power cord is not pinched or damaged.
- Do not expose the nightstand to excessive moisture or direct sunlight.
- Use only the provided hardware for assembly. Substituting parts may compromise stability and safety.

4. ASSEMBLY INSTRUCTIONS

Follow these steps carefully for proper assembly. It is recommended to have two people for certain steps to ensure stability and ease of construction. An installation video is provided below for visual guidance.

Video 4.1: Installation video for the Yaheetech Nightstand. This video provides a step-by-step visual guide to assembling the nightstand, including attaching drawer slides, constructing the frame, and installing the charging station.

Step-by-Step Guide:

1. Assemble the Drawers:

- Attach the drawer side panels to the drawer front and back panels using the provided screws and dowels.
- Slide the drawer bottom panel into the grooves.
- Secure the drawer pulls to the drawer fronts.
- Attach the drawer slides (H-2(L) and H-2(R)) to the sides of each drawer using screws.

2. Assemble the Main Frame:

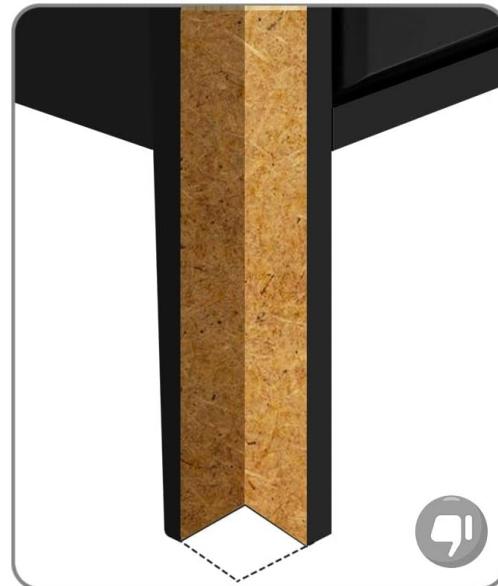

- Attach the side panels to the bottom panel using cam locks and cam bolts.
- Secure the back panel to the assembled frame.
- Attach the main drawer slides (H-1(L) and H-1(R)) to the inner sides of the main frame using screws. Ensure they are aligned correctly for smooth drawer operation.

3. Attach the Legs:

- Insert the wooden dowels into the designated holes on the bottom panel.
- Attach the four solid rubberwood legs to the bottom panel, aligning them with the dowels and securing them with screws.

Figure 4.1: This image highlights the robust construction of the solid rubberwood legs, emphasizing their strength and stability compared to MDF legs.

4. Install the Top Panel:

- Place the top panel onto the assembled frame, aligning the pre-drilled holes.
- Secure the top panel using screws.

5. Install the Charging Station:

- Carefully feed the power cord of the charging station through the cutout on the top panel.
- Insert the charging station unit into the opening on the top panel.
- Secure the charging station with the provided screws.

6. Insert Drawers:

- Carefully slide each assembled drawer into the corresponding drawer slides on the main frame.
- Ensure smooth operation. If a drawer is stiff, check alignment of the slides.

5. OPERATING INSTRUCTIONS (CHARGING STATION)

The integrated charging station provides convenient power access for your electronic devices.

- **Power Connection:** Plug the 6.5-foot power cord into a standard 120V AC wall outlet.
- **AC Outlets:** The charging station includes two 125V/12A AC outlets. Use these for devices requiring standard wall power, such as lamps, laptops, or small appliances.
- **USB Ports:** Two 5V/2A USB ports are available for charging smartphones, tablets, and other USB-powered devices.
- **Power Switch:** A master power switch controls the flow of electricity to both the AC outlets and USB ports. Press the switch to turn the charging station ON or OFF.
- **Cord Management:** Use the included hook & loop strap to manage excess power cord length and keep your space tidy.

Important: Do not exceed the maximum electrical load capacity of the charging station. Avoid plugging in high-power appliances that may draw more than 12A. If the charging station trips a circuit breaker, unplug devices and reset the breaker before resuming use.

6. MAINTENANCE AND CARE

Proper care will help maintain the appearance and longevity of your nightstand.

- **Cleaning:** Wipe the surface with a soft, damp cloth. For stubborn marks, use a mild, non-abrasive cleaner. Dry immediately with a clean cloth.
- **Spills:** The nightstand features a water-resistant painting. Promptly wipe up any spills to prevent damage to the finish.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, ammonia-based products, or silicone-based polishes, as these can damage the finish.
- **Drawer Slides:** Periodically check drawer slides for smooth operation. If they become stiff, a small amount of silicone lubricant can be applied.
- **Fasteners:** Regularly check all screws and bolts to ensure they remain tight. Re-tighten as needed to maintain structural integrity.

7. TROUBLESHOOTING

If you encounter any issues with your Yaheetech Nightstand, refer to the following common problems and solutions:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Drawers do not slide smoothly.	Misaligned drawer slides or loose screws.	Check the alignment of the drawer slides on both the drawer and the main frame. Tighten all screws securing the slides. Apply a small amount of silicone lubricant if needed.
Charging station not powering devices.	Power cord not plugged in, power switch off, or circuit overload.	Ensure the power cord is securely plugged into a working wall outlet. Check if the power switch on the charging station is ON. Unplug some devices if overloaded and check your household circuit breaker.
Nightstand feels wobbly.	Loose fasteners or uneven floor.	Tighten all assembly screws and bolts. Ensure the nightstand is placed on a level surface. If necessary, use furniture pads under the legs to stabilize.
