ECRU B0C6PRBB7G

ECRU 3 oz Herb Decarboxylator Infuser Machine

User Manual

1. Introduction

Thank you for choosing the ECRU 2-in-1 Herb Decarboxylator and Infuser Machine. This device is designed to simplify the process of decarboxylating herbs and infusing them into butter or oil with precise temperature and time control. Please read this manual thoroughly before first use to ensure safe and optimal operation.

Image: The ECRU machine facilitates easy preparation for culinary creations.

2. Safety Information

- Always place the machine on a stable, heat-resistant surface.
- Do not immerse the main unit in water or any other liquid.
- Ensure the power cord is not damaged and is properly plugged into a grounded outlet.
- Keep out of reach of children and pets.
- The inner canister and lid can become hot during operation. Use caution when handling.
- This appliance is FCC approved for safe infusion and decarboxylation.

- All materials are food-grade and BPA-free.

3. Package Contents

Verify that all items are present in the package:

- ECRU Decarboxylator Infuser Machine (Main Unit)
- Inner Non-Stick Canister
- Silicone Lid
- Power Cord
- User Manual (this document)
- Cookbook (for culinary inspiration)

4. Product Overview

The ECRU machine features an intuitive control panel and a robust design for efficient herb processing.

Image: Control panel of the ECRU machine, showing various function buttons.

- **Control Panel:** Features buttons for Decarb, Infuse, Temperature adjustment (+/-), Time adjustment (+/-), Start/Stop, and Cancel.
- **Digital Display:** Shows current temperature and time settings.
- **Inner Canister:** Non-stick and removable for easy cleaning.
- **Lid:** Designed with a double lock mechanism for odor control during operation.

5. Setup

1. Unpack all components and remove any packaging materials.
2. Wash the inner canister and silicone lid with warm, soapy water before first use. Rinse thoroughly and dry.
3. Place the main unit on a flat, stable, and heat-resistant surface.
4. Insert the clean inner canister into the main unit.
5. Connect the power cord to the machine and then to a standard electrical outlet.

6. Operating Instructions

6.1 Decarboxylation Process

Decarboxylation activates the compounds in your herbs, preparing them for infusion.

1. Place up to 3 ounces of finely ground herbs into the inner canister. Ensure the herbs are evenly distributed.
2. Securely place the silicone lid on the canister and close the main unit's lid, ensuring it is properly locked.
3. Press the **Decarb** button on the control panel. The default temperature and time settings for decarboxylation will appear.
4. Adjust the temperature and time using the**Temp +/-** and **Time +/-** buttons if desired. Refer to the included cookbook for recommended settings.
5. Press the **Start**/**Stop** button to begin the decarboxylation cycle. The machine will preheat and then maintain the set temperature.
6. Once the cycle is complete, the machine will beep and automatically shut off. Allow the herbs to cool before proceeding to infusion or storage.

6.2 Infusion Process

Infusion extracts the activated compounds into your chosen medium (butter, oil, etc.).

1. After decarboxylation, add your desired infusion medium (e.g., butter, coconut oil) to the canister with the decarboxylated herbs. Ensure the liquid level does not exceed the MAX fill line.
2. Securely place the silicone lid on the canister and close the main unit's lid, ensuring it is properly locked.
3. Press the **Infuse** button on the control panel. The default temperature and time settings for infusion will appear.
4. Adjust the temperature and time using the **Temp +/-** and **Time +/-** buttons if desired. Consult the included cookbook for specific infusion recipes and settings.
5. Press the **Start/Stop** button to begin the infusion cycle. The machine will maintain the set temperature for the duration.
6. Once the cycle is complete, the machine will beep and automatically shut off. Carefully open the lid and strain the infused butter or oil to separate the plant material.

6.3 One-Click Operation

The machine offers simplified one-click operation for both decarboxylation and infusion using preset optimal settings. Simply press the desired function button (**Decarb** or **Infuse**) and then **Start/Stop**. You can customize time and temperature as needed before starting the cycle.

6.4 Video Demonstration

Watch this official video for a visual guide on how to decarboxylate and infuse with your ECRU machine:

7. Cleaning and Maintenance

Regular cleaning ensures the longevity and performance of your ECRU machine.

- Always unplug the machine and allow it to cool completely before cleaning.
- The inner canister is dishwasher-safe for convenient cleaning. It is also non-stick and easy to rinse by hand.
- The silicone lid can be washed by hand with warm, soapy water.
- Wipe the exterior of the main unit with a damp cloth. Do not use abrasive cleaners or immerse the main unit in water.
- Ensure all parts are completely dry before reassembling or storing the machine.

8. Troubleshooting

- **Machine does not turn on:** Ensure the power cord is securely plugged into both the machine and a working electrical outlet.
- **Cycle does not start:** Check that the lid is properly closed and locked. Press the Start/Stop button firmly.
- **Unusual odors during operation:** While the machine is designed for odor control, some faint aroma may be present. Ensure the lid is properly sealed. For stronger odors, consider operating in a well-ventilated area.
- **Herbs not fully decarboxylated/infused:** Verify that the correct temperature and time settings were selected for your specific herbs and desired potency. Ensure herbs are finely ground for optimal surface area.
- **Error message on display:** Unplug the machine, wait 5 minutes, then plug it back in. If the error persists, contact customer support.

9. Specifications

Feature	Detail

Model	B0C6PRBB7G
Capacity	Up to 3 ounces of herb
Functions	Decarboxylation, Infusion (Butter, Oil)
Temperature Control	Automatic with manual adjustment
Time Control	Automatic with manual adjustment
Odor Control	Double lock lid design
Material	Food-grade, BPA-free
Cleaning	Dishwasher-safe inner canister, non-stick
Item Weight	4.64 pounds
Package Dimensions	9.75 x 9 x 9 inches

10. Warranty and Support

ECRU products are manufactured with quality and reliability in mind. For any questions, technical support, or warranty claims, please contact the seller, ÉcruNewJersey, through your Amazon purchase history or visit the ECRU brand store on Amazon.

Please retain your proof of purchase for warranty purposes.
