De'Longhi PAC EL92HP

De'Longhi PAC EL92HP Reversible Portable Air Conditioner User Manual

Model: PAC EL92HP

1. Introduction

This manual provides comprehensive instructions for the safe and efficient operation, installation, and maintenance of your De'Longhi PAC EL92HP Reversible Portable Air Conditioner. Please read this manual thoroughly before using the appliance and keep it for future reference.

The De'Longhi PAC EL92HP is a versatile portable unit designed to provide both cooling and heating functions, ensuring comfort in various environmental conditions. Its compact design allows for easy placement and mobility within your home or office.

2. Safety Information

Important Safety Instructions:

- Read all instructions before using this appliance.
- This appliance is for indoor use only.
- Ensure the power supply matches the voltage specified on the rating label.
- Do not operate the appliance with a damaged cord or plug.
- Keep the appliance away from heat sources and direct sunlight.
- Do not block air inlets or outlets.
- Always unplug the appliance before cleaning or servicing.

- Do not allow children to play with the appliance.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.

3. Setup and Installation

Proper setup is crucial for the efficient operation of your portable air conditioner. Follow these steps carefully:

1. **Unpacking:** Carefully remove the unit from its packaging. Retain the packaging for future storage or transport.
2. **Positioning:** Place the unit on a flat, stable surface, ensuring there is at least 30 cm (12 inches) of clear space around the air inlets and outlets for proper airflow.
3. **Exhaust Hose Installation:**
    - Connect the exhaust hose to the outlet on the back of the unit.
    - Extend the hose to the nearest window or opening.
    - Install the window kit (if provided) to seal the opening around the exhaust hose, preventing outside air from entering the room.
4. **Power Connection:** Plug the power cord into a grounded electrical outlet (240 Volts, 880 Watts). Ensure the outlet is suitable for the appliance's power requirements.

4. Operating Instructions

Your De'Longhi PAC EL92HP offers multiple operating modes for year-round comfort.

Image 4.1: Close-up view of the De'Longhi PAC EL92HP control panel. It features a digital display, 'MODE' button, power button, and temperature adjustment arrows.

4.1 Control Panel Overview

The control panel, located on the front of the unit, allows you to manage all functions:

- **Power Button ( ):** Turns the unit ON or OFF.
- **Mode Button (MODE):** Cycles through available operating modes:
  - **Cooling Mode:** For air conditioning.
  - **Heating Mode:** For heating the room (reversible function).
  - **Fan Mode:** Circulates air without cooling or heating.
  - **Dehumidifying Mode:** Reduces humidity in the room.
- **Temperature Adjustment Arrows (▲ / ▼):** Adjusts the desired temperature setting.
- **Display:** Shows current temperature, mode, and other settings.

4.2 Selecting an Operating Mode

1. Press the Power button to turn on the unit.
2. Press the Mode button repeatedly until the desired mode (Cooling, Heating, Fan, or Dehumidifying) is displayed.
3. Use the temperature adjustment arrows to set your preferred temperature (for Cooling or Heating modes).

The unit will automatically adjust its operation to reach and maintain the set temperature.

5. Maintenance

Regular maintenance ensures optimal performance and extends the lifespan of your appliance.

5.1 Cleaning the Air Filter

The air filter should be cleaned regularly (every two weeks, or more often depending on usage) to prevent dust buildup and maintain efficiency.

1. Unplug the appliance from the power outlet.
2. Locate and remove the air filter from the back or side of the unit (refer to the diagram in your full product manual for exact location).
3. Clean the filter using a vacuum cleaner to remove dust, or wash it gently with lukewarm water and a mild detergent.
4. Allow the filter to dry completely before reinserting it into the unit.

5.2 Draining Condensed Water

During cooling and dehumidifying operations, water condensation occurs. The unit typically has an internal self-evaporating system, but in high humidity conditions, the water tank may fill up. When this happens, the unit will stop operating and display an error code (refer to troubleshooting).

1. Unplug the appliance.
2. Place a shallow pan or container under the drain outlet (usually located at the bottom rear of the unit).
3. Remove the drain cap/plug to allow water to flow out.
4. Once drained, replace the cap/plug securely.

6. Troubleshooting

If you encounter issues with your De'Longhi PAC EL92HP, consult the following table before contacting customer support.

Problem	Possible Cause	Solution
Unit does not turn on.	No power supply; power cord not plugged in; fuse blown.	Check power connection; check household fuse/circuit breaker.
Unit cools/heats insufficiently.	Air filter dirty; exhaust hose blocked or improperly installed; room too large; windows/doors open.	Clean air filter; ensure exhaust hose is clear and sealed; close windows/doors.
Unit is noisy.	Unit not on a flat surface; foreign object in fan.	Place on a flat surface; check for obstructions (unplug first).
Water leakage.	Drain plug not securely closed; unit tilted.	Ensure drain plug is tight; place unit on a level surface.
Error code displayed.	Specific internal issue (e.g., full water tank, sensor error).	Refer to the full product manual for specific error codes. For full water tank, drain the unit.

7. Specifications

Technical specifications for the De'Longhi PAC EL92HP model:

Feature	Detail
Brand	De'Longhi
Model Number	PAC EL92HP
Dimensions (L x W x H)	41 x 45 x 75 cm
Weight	32 Kilograms
