Brookstone Snd Moldable Sand Instruction Manual

Model: 705213BRS

1. INTRODUCTION

The Brookstone Snd Moldable Sand offers a unique tactile play experience. This product is designed to mimic the properties of wet beach sand, allowing for molding, sculpting, and shaping, yet it remains dry to the touch and adheres only to itself, not to hands or surfaces. It is composed of 98% natural sand and 2% polymer, providing its distinctive texture and flow. This sand is non-toxic and engineered to never dry out, ensuring long-lasting play.

Key Features:

- Composed of 98% sand and 2% polymer for unique moldable properties.
- Each jar contains 1.625 lbs (0.73 kg) of Snd.
- Designed to never dry out, maintaining its texture over time.
- Non-toxic formulation, suitable for its intended use.
- Recommended for ages 5 and up.

2. SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years. Do not ingest. Adult supervision is recommended for all play sessions.

- This product is intended for tactile play only.
- Keep away from open flames or high heat sources.
- Avoid contact with water, as this may alter the sand's properties.
- Ensure play is conducted on clean, dry surfaces.
- Wash hands before and after use, especially if sensitive skin is a concern.

3. SETUP AND GETTING STARTED

The Brookstone Snd is ready for use directly from its container. No assembly or preparation is required.

1. **Unpack:** Carefully remove the lid from the Brookstone Snd container.

2. **Prepare Play Area:** Choose a clean, dry, and flat surface for play. A tray or mat can help contain the sand during use.
3. **Begin Play:** Gently pour the desired amount of sand onto the play surface.

Image 1: Brookstone Snd Moldable Sand in its original packaging. The jar contains 1.625 lbs of sand, labeled as non-drying, reusable, mess-free, tactile play, and non-toxic.

4. OPERATING INSTRUCTIONS (How to Use)

Brookstone Snd offers a versatile play experience. Its unique properties allow for various creative activities.

- **Molding:** Press the sand firmly into molds or shape it with your hands to create structures. The sand holds its shape well once compacted.
- **Sculpting:** Use tools or your fingers to sculpt intricate details into your creations. The sand's consistency allows for fine manipulation.
- **Slicing and Cutting:** The sand can be easily sliced and cut with plastic knives or other safe tools, providing a satisfying tactile experience.
- **Flowing:** Observe the sand's mesmerizing flow when gently squeezed or allowed to fall. It has a unique "oozing" quality.

Image 2: Demonstrations of molding and sculpting Brookstone Snd. The image shows sand being poured to form a castle, geometric shapes created with molds, and a small mouse figure being sculpted by hand.

Image 3: Brookstone Snd molded into a multi-tiered cake structure on a cake stand, with a portion sliced and served on a small plate, illustrating its ability to be cut.

5. MAINTENANCE AND STORAGE

Brookstone Snd is designed for low maintenance and long-term usability.

- **Storage:** Always store the sand in its original airtight container or a similar sealed container when not in use. This prevents dust and debris from contaminating the sand.
- **Cleaning:** If the sand becomes mixed with small debris, it can often be separated by hand. Avoid washing the sand with water.
- **Longevity:** The sand is formulated to never dry out, so it will retain its unique properties indefinitely if stored correctly.

6. TROUBLESHOOTING

While Brookstone Snd is generally trouble-free, here are solutions to common inquiries:

- **Sand feels less cohesive:** Ensure the sand has not come into contact with water or excessive humidity. If it has, allow it to air dry completely in a clean, dry environment.
- **Sand is messy:** Although designed to be mess-free, small particles may escape the play area. Use a tray or mat to contain the sand. A vacuum cleaner can be used for cleanup on hard surfaces.
- **Unusual odor:** The sand is non-toxic and should not have a strong odor. If an unusual odor is detected, ensure it is stored in a clean, dry environment away from contaminants.

7. SPECIFICATIONS

Attribute	Detail
Product Name	Brookstone Snd Moldable Sand
Model Number	705213BRS
Net Weight	1.625 lbs (0.73 kg)
Product Dimensions (Jar)	6.8 x 4 x 4 inches
Composition	98% Sand, 2% Polymer
Age Recommendation	Ages 5+
Manufacturer	Brookstone

8. WARRANTY AND SUPPORT

For any questions, concerns, or support regarding your Brookstone Snd Moldable Sand, please contact the manufacturer directly. Information regarding specific warranty terms, if applicable, can typically be found on the product packaging or the official Brookstone website.

Manufacturer: Brookstone
