SETUP INSTRUCTIONS

- Attach the Vent Clip:** Securely screw the vent clip attachment onto the back of the MagSafe car mount charger. Ensure it is tightened to prevent wobbling.
- Install in Vehicle:** Insert the vent clip into a suitable air vent in your car. The 3-point support arm on the clip provides extra stability.
- Connect Power:** Plug the provided USB-C charging cable into the USB-C port on the bottom of the car mount charger. Connect the other end of the cable to the dual-port 40W power adapter, then insert the adapter into your car's 12V accessory socket.

Upgrade for a Stronger Magnetic Lock

Combine with an ESR MagSafe case for an unshakeable hold

OPERATING INSTRUCTIONS

- 1. Mount Your Phone:** Ensure your iPhone (12 series or later) has a MagSafe-compatible case or is used without a case. Align your iPhone with the magnetic charging surface of the car mount. The strong magnets will automatically snap your phone into place.
- 2. Fast Charging:** The charger delivers 15W fast wireless charging. The CryoBoost phone-cooling technology will activate automatically to keep your phone cool and maintain maximum charging speeds, especially during navigation or heavy use.
- 3. Adjust Viewing Angle:** The mount features a highly adjustable ball joint, allowing you to rotate your phone 360 degrees for optimal viewing in portrait or landscape mode.

MAINTENANCE

- Keep the charging surface clean and free of dust or debris to ensure optimal charging performance.
- Avoid exposing the charger to extreme temperatures or direct sunlight for prolonged periods.
- Do not use harsh chemicals or abrasive materials to clean the device. Use a soft, dry cloth.

TROUBLESHOOTING

- **Slow Charging:** Ensure you are using the provided 40W dual-port power adapter and USB-C cable. Lower wattage adapters may result in slower charging speeds.
- **Phone Not Sticking Securely:** Verify that your iPhone has a MagSafe-compatible case. Standard cases may not provide sufficient magnetic force.
- **Mount Instability:** Ensure the vent clip is fully inserted and tightened. Adjust the 3-point support arm to rest against the dashboard for added stability.
- **Phone Overheating:** The CryoBoost feature is designed to prevent overheating. If your phone still feels excessively hot, ensure the fan vents are not obstructed.

SPECIFICATIONS

| | |
|--------------------------------|---|
| Product Dimensions | 2.99 x 3.59 x 3.82 inches |
| Item Weight | 4.9 ounces |
