Amazfit A2294

Amazfit Cheetah Smart Watch User Manual

Model: A2294

The Amazfit Cheetah Smart Watch, designed for optimal performance and comprehensive health tracking.

1. SETUP

1.1 Pairing via the Zepp App

To begin using your Amazfit Cheetah Smart Watch, you must first pair it with your smartphone using the Zepp App. This process establishes a connection for data synchronization and watch management.

1. Open the Zepp App on your smartphone.
2. Tap on 'Profile' in the app.
3. Select 'My device'.

4. Tap '+Add' to add a new device.
5. Choose 'Watch with QR code'.
6. Scan the QR code displayed on your watch face using your phone's camera.
7. Confirm the pairing request on your watch.

Once paired, your watch will synchronize data with the app.

1.2 System Update

Regular system updates ensure optimal performance, new features, and improved stability for your Amazfit Cheetah Smart Watch. It is recommended to keep your watch's software up to date.

1. Open the Zepp App.
2. Tap on 'Profile'.
3. Select 'My device' and then 'Amazfit Cheetah (Round)'.
4. Tap 'System Update'.
5. Keep the watch close to your phone during the update process.

The app will guide you through any available updates.

2. OPERATING YOUR SMART WATCH

2.1 Watch Face Customization

Personalize your watch face to display information most relevant to you.

1. Tap and hold the watch face.
2. Swipe left or right to choose a different watch face.
3. Tap the 'Edit' icon (usually a pencil or gear).
4. Choose the highlighted area and swipe up or down to switch the function displayed (e.g., steps, heart rate, weather).

2.2 Control Center

Access quick settings and essential functions by swiping down from the home page.

- **Torch:** Activates the watch screen as a flashlight.
- **Do Not Disturb:** Silences notifications and alerts.
- **Sleep Mode:** Optimizes settings for sleep tracking and minimizes disturbances.
- **Theater Mode:** Dims the screen and disables raise-to-wake.
- **Always On:** Toggles the always-on display feature.
- **Calendar:** View your schedule.
- **Volume:** Adjusts watch volume.
- **Battery:** Displays battery status and power-saving options.
- **Brightness:** Adjusts screen brightness.
- **Settings:** Access full watch settings.
- **Find phone:** Locates your paired smartphone.

- **Bluetooth:** Manages Bluetooth connections.
- **Alarm:** Sets and manages alarms.
- **Lock Screen:** Prevents accidental touches.

2.3 View Notifications

Stay informed by viewing notifications directly on your watch.

- Swipe right on the home page to view notifications.

2.4 Shortcut Cards

Quickly access frequently used features via shortcut cards.

- Swipe up on the home page to view shortcut cards.
- To set shortcut cards on the Zepp App: Go to Profile > My device > Amazfit Cheetah (Round) > Shortcut Cards > Resident Application Settings.

2.5 Sports Modes

The Amazfit Cheetah (Round) supports more than 150 sport modes, allowing you to track a wide range of activities with detailed metrics.

1. Press the crown (physical button on the side) and tap 'Workout'.
2. Choose your desired sports mode.
3. Tap 'GO' to start tracking.

2.6 Workout Detection

The Amazfit Cheetah (Round) supports smart recognition of 8 sports, automatically detecting when you start an activity.

- Go to Settings > Workout > Workout Detection.
- Choose the sport you want the watch to auto-detect.

2.7 Music Transfer

Transfer your favorite music directly to your watch for offline listening during workouts.

1. Open the Zepp App.
2. Tap Profile > My device > Amazfit Cheetah (Round) > Music.
3. Tap 'Upload music', and find your music folder.
4. Choose the .mp3 format music and tap Upload.

2.8 Advanced Features

MaxTrack Dual-Band GPS Technology

MaxTrack™: Industry-leading GPS Technology

Picks up 100% of Satellite Signals

The Amazfit Cheetah features MaxTrack dual-band GPS technology, which picks up almost 100% of satellite signals. This ensures precise tracking even in challenging environments like dense urban areas or woodlands, minimizing multipath interference for highly accurate location data.

Zepp Coach AI Running Coach

Zepp Coach™

AI-generated Personalized Running Plans

Zepp Coach utilizes AI to create personalized running plans tailored to your specific goals and performance. It provides weekly adjustments and scientific guidance to optimize your race preparation, adapting to your progress and recovery needs.

Comprehensive Health Monitoring

Accurate Workout Heart Rate Tracking

Connect to a Heart Rate Belt

Note: This product is not a medical device.

Equipped with a BioTracker PPG sensor, the Amazfit Cheetah offers real-time metrics for heart rate, blood oxygen saturation, stress levels, and sleep quality. It also supports seamless integration with external heart rate belts for enhanced accuracy during workouts.

Lightweight Ergonomic Design

Streamlined & Lightweight Design

32g

Note: Weight without strap.

Crafted from fiber-reinforced polymer, the Amazfit Cheetah is designed to be lightweight (32g without strap) and ergonomic, ensuring comfort during any activity. Its HD AMOLED display provides vibrant visuals that are easily readable in various lighting conditions.

Long-lasting Battery Life

The Amazfit Cheetah offers up to 14 days of typical usage on a single charge, providing extended battery life for continuous

tracking and daily use without frequent recharging.

Offline Map Navigation

Download and import color maps directly to your watch for precise route navigation. This feature ensures you stay informed and oriented during runs, even in areas without network connectivity, regardless of terrain complexity.

3. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Amazfit Cheetah Smart Watch.

- **Cleaning:** Regularly wipe the watch screen and strap with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials. Ensure the charging contacts on the back of the watch are clean and dry before charging.
- **Charging:** Use only the provided magnetic charging cable. Ensure the watch and charger are dry before connecting. Avoid charging in extremely hot or cold environments.
- **Storage:** When not in use for extended periods, store the watch in a cool, dry place. Avoid direct sunlight and

extreme temperatures.

- **Water Resistance:** The watch is water-resistant, but it is not recommended for hot showers, saunas, or diving. Rinse with fresh water after exposure to saltwater.

4. TROUBLESHOOTING

If you encounter issues with your Amazfit Cheetah Smart Watch, try the following common troubleshooting steps:

- **Connectivity Issues:** Ensure Bluetooth is enabled on your phone and the watch is within range. Restart both the watch and the Zepp App. If issues persist, try unpairing and re-pairing the device.
- **Battery Drain:** Check for excessive background app usage on the watch. Reduce screen brightness or disable Always-On Display. Ensure GPS is not constantly active when not needed.
- **Inaccurate Data:** Ensure the watch is worn snugly on your wrist. For GPS, ensure you have a clear view of the sky. Perform a system update to ensure the latest algorithms are in place.
- **Watch Not Responding:** Try a force restart by pressing and holding the crown button for approximately 10-15 seconds until the Amazfit logo appears.

4.1 How to Submit Feedback

If you experience persistent issues, you can submit feedback directly through the Zepp App for technical support.

1. Open the Zepp App.
2. Go to Profile > User feedback.
3. Select an issue type.
4. Select the specific issue time.
5. Write a detailed description about the issue.
6. Upload pictures (optional).
7. Upload log (optional, but important for diagnosis).
8. Then, Submit.

5. SPECIFICATIONS

Feature	Detail
