NOVOO 4-In-1

Novoo by Realme Techlife 4-in-1 USB Hub User Manual

Model: 4-In-1 (NBR-4IN-1)

1. INTRODUCTION

Thank you for choosing the Novoo by Realme Techlife 4-in-1 USB Hub. This device expands a single USB port into four, offering enhanced connectivity for your peripherals. It features one USB 3.0 port for high-speed data transfer and three USB 2.0 ports for standard connectivity. This manual provides essential information for setting up, operating, and maintaining your USB hub.

2. PRODUCT OVERVIEW

2.1 Key Features

- **4-in-1 Port Expansion:** Converts one USB port into four (1x USB 3.0, 3x USB 2.0).
- **High-Speed Data Transfer:** USB 3.0 port supports up to 5 Gbps.
- **Plug & Play:** No drivers required for installation.
- **Wide Compatibility:** Supports Mac OS, Windows, and other operating systems.
- **Compact and Portable Design:** Lightweight for easy transport.
- **Broad Device Support:** Compatible with almost all USB devices.

2.2 Package Contents

- Novoo by Realme Techlife 4-in-1 USB Hub (Model 4-In-1)
- User Manual (this document)

2.3 Product Diagram

4 Ports Multi-functional

USB 3.0 + USB 2.0*3

Figure 1: Novoo 4-in-1 USB Hub showing its four ports (one blue USB 3.0, three black USB 2.0).

The Novoo 4-in-1 USB Hub features a sleek, compact design. It includes one blue USB 3.0 port for high-speed connections and three black USB 2.0 ports for standard peripherals. The integrated cable connects to your host device.

3. SETUP INSTRUCTIONS

1. **Connect the Hub:** Plug the USB-A connector of the Novoo 4-in-1 USB Hub into an available USB port on your computer, laptop, or compatible device.
2. **Automatic Recognition:** The hub is plug-and-play and does not require any driver installation. Your operating system (Windows, macOS, etc.) will automatically detect and configure the device.
3. **Connect Peripherals:** Once the hub is recognized, you can connect your USB devices (e.g., flash drives, keyboards, mice, external hard drives) to the available ports on the hub.

No driver required

Compatibility and stability,
support MAC OS WINDOWS and other systems

Figure 2: The USB hub connected to a laptop, illustrating its driver-free compatibility with various operating systems.

The hub is designed for immediate use upon connection, supporting various operating systems without the need for additional software.

4. OPERATING INSTRUCTIONS

4.1 Data Transfer

- **USB 3.0 Port:** Use the blue USB 3.0 port for devices requiring high-speed data transfer, such as external hard drives or high-resolution cameras. This port supports speeds up to 5 Gbps.
- **USB 2.0 Ports:** The three black USB 2.0 ports are suitable for standard peripherals like keyboards, mice, printers, or USB flash drives, offering speeds up to 480 Mbps.

USB 3.0 High Speed

Transfer large files in seconds

USB 3.0		5120Mbps
USB 2.0		480Mbps

 realme TechLife

Figure 3: Visual representation of high-speed data transfer capabilities of the USB 3.0 port compared to USB 2.0.

For optimal performance, connect high-bandwidth devices to the USB 3.0 port. The hub is designed to boost efficiency by allowing multiple devices to be connected simultaneously.

4.2 Connecting Multiple Devices

You can connect up to four USB devices to the hub simultaneously. Ensure that the total power draw of connected devices does not exceed the power supplied by your host USB port. For high-power devices, it is recommended to connect them directly to your computer's USB port if issues arise.

Figure 4: The USB hub in use, connected to a laptop with a mouse and other peripherals, demonstrating its ability to boost efficiency.

The hub provides responsive connectivity, ensuring smooth operation even when multiple devices like a mouse are connected.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the hub. Avoid liquid cleaners or abrasive materials.
- **Storage:** Store the hub in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Handling:** Avoid dropping the device or subjecting it to strong impacts.

6. TROUBLESHOOTING

Problem	Possible Solution
---------	-------------------

Problem	Possible Solution
Device not recognized	◦ Ensure the hub is securely plugged into your computer's USB port. ◦ Try connecting the hub to a different USB port on your computer. ◦ Restart your computer. ◦ Ensure the connected peripheral is functioning correctly by plugging it directly into your computer.
Slow data transfer speed	◦ Ensure you are using the USB 3.0 port (blue port) for high-speed devices. ◦ Verify that your computer's USB port also supports USB 3.0 for optimal speeds. ◦ Avoid connecting too many high-bandwidth devices simultaneously.
Some devices not working	◦ High-power devices (e.g., some external hard drives) may require more power than the hub can provide. Try connecting them directly to your computer's USB port. ◦ Ensure the device itself is powered on and functioning correctly.

7. SPECIFICATIONS

Feature	Detail
Brand	NOVOO
Model Number	4-In-1 (NBR-4IN-1)
Hardware Interface	USB 2.0, USB 3.0
Total USB Ports	4 (1x USB 3.0, 3x USB 2.0)
Data Transfer Rate	5 Gigabits Per Second (USB 3.0)
Compatible Devices	Laptops, PCs, and other USB-enabled devices
Special Feature	Portable, Plug & Play (No driver required)
Manufacturer	Novoo

8. WARRANTY AND SUPPORT

The Novoo by Realme Techlife 4-in-1 USB Hub comes with a**6-month warranty** from the date of purchase. This warranty covers manufacturing defects and malfunctions under normal use.

For warranty claims, technical support, or any inquiries, please contact Novoo customer service through the retailer where the product was purchased or visit the official Novoo website for support contact information.

Please retain your purchase receipt as proof of purchase for warranty purposes.

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
