SMIROR 28"L x 20"W

SMIROR Oval LED Bathroom Mirror User Manual

Model: 28"L x 20"W

1. IMPORTANT SAFETY INFORMATION

CAUTION:

- This product contains glass that may break and cause injury. Always handle with care.
- Do not use if the mirror is broken or damaged.
- This mirror is designed for wall mounting only.
- Consult a qualified professional for installation if you are unsure.
- Keep electrical components dry and away from heat sources.
- Unplug the mirror from the power source when not in use or during cleaning.

2. PRODUCT OVERVIEW

The SMIROR Oval LED Bathroom Mirror is a modern vanity mirror featuring integrated LED lighting, anti-fog functionality, and dimmable color temperature options. It is constructed with tempered glass for enhanced durability.

Key Features:

- **Dual LED Lighting:** Features both front-lit and backlit LED strips for bright, even illumination, ideal for makeup and shaving.
- **Adjustable Color Temperature:** Easily switch between Warm White (3000K), Natural Light (4000K), and White Light (6000K) to suit different preferences and atmospheres.
- **Dimmable Brightness:** Stepless dimming allows you to adjust the light intensity to your desired level.
- **Anti-Fog Function:** An integrated defogger keeps the mirror clear after showers. The defogger automatically turns off after 1 hour to conserve energy.
- **Shatter-Proof Design:** Made from tempered glass, which is stronger than common mirrors and designed to not produce sharp fragments if broken.

Front Lit + Backlit

Real Double Led Strips

3. PACKAGE CONTENTS

Please check the package to ensure all items are present and undamaged:

- Mirror (1 piece)
- Mounting Bracket (1 piece)
- Screws (2 sets)

SMIROR

Packing List

- Mirror * 1pcs
- Bracket * 1pcs
- Screws * 2 sets

Installation

1. Mount the bracket on the wall with screws
2. Hang the mirror on the bracket

Image 3.1: Illustration of package contents and basic installation steps.

4. INSTALLATION

The SMIROR LED Bathroom Mirror is designed for easy wall mounting. It can be powered via hardwiring or by plugging into an electrical outlet.

Installation Steps:

1. **Prepare the Wall:** Choose a suitable location on the wall. Ensure there are no hidden electrical wires or pipes.
2. **Mount the Bracket:** Securely mount the provided bracket to the wall using the screws. Ensure the bracket is level and firmly attached.
3. **Connect Power:**
 - **For Plug-in:** Connect the mirror's power cord to a standard electrical outlet.
 - **For Hardwiring:** Consult a qualified electrician to hardwire the mirror directly into your electrical system. Ensure power is turned off at the circuit breaker before beginning any electrical work.
4. **Hang the Mirror:** Carefully hang the mirror onto the mounted bracket. Ensure it is securely seated and

stable.

Image 4.1: The mirror supports both plug-in and hardwired installations, compatible with a wall switch.

5. OPERATION

The mirror features touch-sensitive controls located on the mirror surface for easy operation.

Controls:

- **Power On/Off:** Tap the power icon to turn the mirror's lights on or off.
- **Change Color Temperature:** Press the right touch button to cycle through the three color temperatures: Warm White (3000K), Natural Light (4000K), and White Light (6000K). The mirror has a memory function that retains the last used setting.
- **Adjust Brightness (Dimming):** Long-press the middle touch button to steplessly dim or brighten the lights to your preferred level. Release the button when the desired brightness is reached.
- **Anti-Fog Function:** Activate the anti-fog feature by tapping the defogger icon. The defogger will automatically turn off after 1 hour of operation.

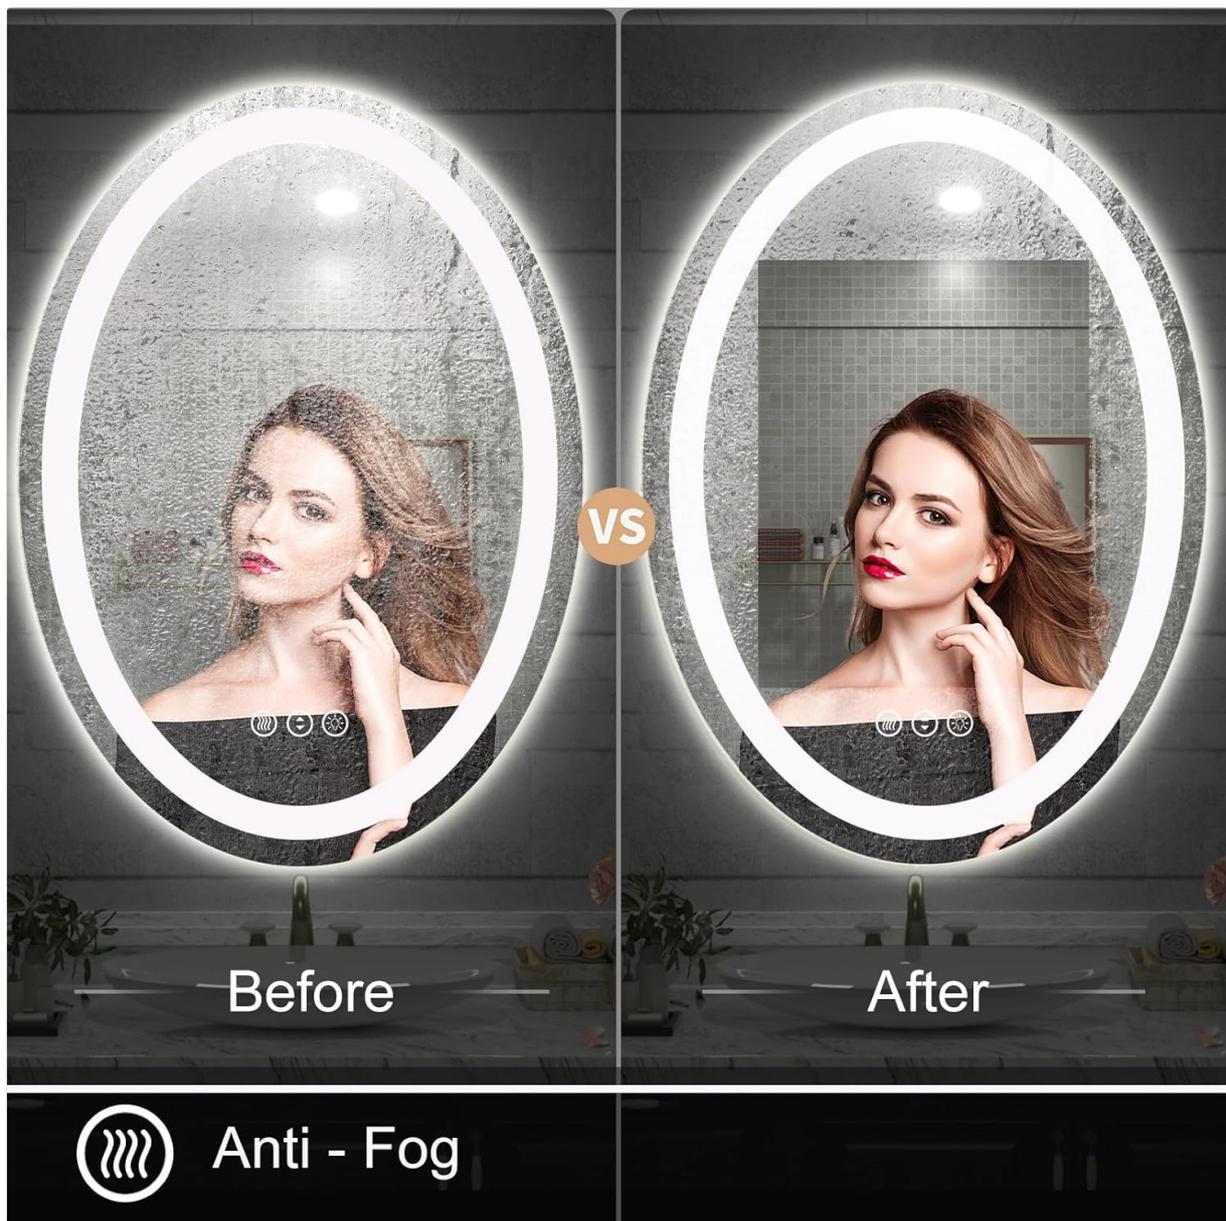

Image 5.1: Comparison of the mirror surface before and after activating the anti-fog function.

6. MAINTENANCE

To ensure the longevity and optimal performance of your SMIROR LED Bathroom Mirror, follow these maintenance guidelines:

- **Cleaning the Mirror Surface:** Use a soft, lint-free cloth and a non-abrasive glass cleaner. Spray the cleaner onto the cloth, not directly onto the mirror, to avoid liquid seeping into electrical components.
- **Cleaning the Frame:** Wipe the frame with a soft, damp cloth. Avoid harsh chemicals or abrasive materials.
- **Electrical Safety:** Always unplug the mirror before cleaning or performing any maintenance. Ensure all electrical connections remain dry.
- **Regular Inspection:** Periodically check for any signs of damage to the mirror, frame, or electrical cord. If any damage is found, discontinue use and contact customer support.

7. TROUBLESHOOTING

If you encounter any issues with your SMIROR LED Bathroom Mirror, please refer to the following common

solutions:

Problem	Possible Solution
Mirror lights do not turn on.	Check if the mirror is properly plugged into a working outlet or if the hardwired connection is secure. Ensure the wall switch (if applicable) is in the 'on' position. Verify that the circuit breaker has not tripped.
Anti-fog function is not working.	Ensure the anti-fog function has been activated by tapping its touch control. Allow a few minutes for the defogger to heat up and clear the mirror surface.
Lights are flickering or dim.	Check the power connection for stability. Ensure the dimming function is not set to its lowest level.
Touch controls are unresponsive.	Ensure the mirror surface is clean and dry. Try unplugging the mirror for a few minutes and then plugging it back in to reset.

If the problem persists after attempting these solutions, please contact SMIROR customer support for further assistance.

8. SPECIFICATIONS

Feature	Detail
Brand	SMIROR
Model	Oval LED Bathroom Mirror
Product Dimensions	28"L x 20"W
