Espelho DU4LB-WS-01

Espelho Automatic Cat Feeder WiFi Edition

Model: DU4LB-WS-01 | Brand: Espelho

PRODUCT OVERVIEW

The Espelho Automatic Cat Feeder is designed to simplify pet feeding with advanced features for convenience and pet health. This WiFi-enabled feeder allows you to manage your pet's meals remotely via a dedicated app, ensuring they are fed on schedule even when you are away. Key features include customizable feeding plans, a voice recording function, and a reliable dual power supply.

SETUP GUIDE

1. Unboxing and Initial Assembly

Carefully remove all components from the packaging. Ensure you have the main feeder unit, food bowl, power adapter, and desiccant bag. The food tank is detachable for easy cleaning.

Video demonstrating the unboxing and initial setup of the Espelho Automatic Cat Feeder.

2. Power Supply

The feeder supports dual power supply for reliable operation. Connect the provided AC power adapter to the feeder and a wall outlet. For backup power, insert 3xD size batteries (not included) into the battery compartment at the bottom of the unit. This ensures continuous feeding even during power outages.

3. App Download and Connection

Download the "PetTech" app from your App Store or Google Play. Ensure your phone's Bluetooth and 2.4GHz WiFi are enabled. Follow the in-app instructions to add and configure your device. The feeder's indicator light will flash quickly when in WiFi pairing mode.

OPERATING INSTRUCTIONS

1. Scheduling Meals

Use the "PetTech" app to create a personalized feeding schedule. You can set up to 10 meals daily with 1-20 portions per meal. This helps your pet develop healthy eating habits and reduces the risk of overeating.

APP Remote Control Feeding

Video demonstrating how to manually feed your pet using the device buttons.

3. Personalized Voice Meal Call

Record a 10-second voice message that will play automatically when the meal is dispensed. This familiar sound provides comfort for your pet. To record, press and hold the microphone button until you hear a "di" sound, then start recording. Release your hand when finished, and you'll hear "didi" indicating completion.

MAINTENANCE

1. Cleaning the Feeder

The food tank and bowl are detachable for easy cleaning. Hand wash only. Ensure all parts are completely dry before reassembling to prevent moisture issues.

2. Maintaining Food Freshness

The 4L food container includes a built-in desiccant box to maintain food freshness. Replace the desiccant bag periodically to ensure optimal food quality. The feeder also features a secure food locking lid to prevent pet access and maintain freshness.

Features for keeping pet food dry and fresh, including a desiccant bag and safety lock.

3. Anti-Clog Design

The feeder features an innovative anti-clog design with a wide angle and 40-degree slope to increase grain sliding speed, ensuring smooth and uninterrupted food flow. It is compatible with dry kibble sizes ranging from 0.07 to 0.4 inches (2-12mm). Larger food may get stuck or block the food outlet.

Kibble Never Get Stuck Inside

Allowed food size ≤ 0.5 inch

TROUBLESHOOTING

- **Food getting stuck:** Ensure only dry food with a diameter of 2-12mm is used. Larger food may cause blockages.
- **Device disconnected from network:** If the product disconnects from the network, restart the device and open the app to reconnect. Ensure your WiFi is 2.4Ghz.
- **Battery life:** Check the battery regularly, especially before extended trips. Replace batteries as needed to ensure continuous operation.

SPECIFICATIONS

Feature	Detail
