## AQUABATOS LM08126D

# AQUABATOS Essens Series Bathroom Mirror - User Manual

Model: LM08126D | Dimensions: 120 x 60 cm

## 1. INTRODUCTION

Thank you for choosing the AQUABATOS Essens Series Bathroom Mirror. This mirror is designed to enhance your bathroom experience with its advanced features, including energy-efficient LED lighting, an anti-fog function, a 3x magnifying cosmetic mirror, and a digital clock. Please read this manual carefully before installation and use to ensure proper function and safety.

## **2. SAFETY INFORMATION**

---

- Ensure the power supply is disconnected before installation or maintenance.
- Installation should be performed by a qualified electrician if you are unsure about electrical connections.
- Do not expose the mirror to excessive moisture or direct water spray beyond its intended use in a bathroom environment.
- Handle the mirror with care to prevent damage to the glass or internal components.
- Keep packaging materials out of reach of children.

## **3. PACKAGE CONTENTS**

---

Verify that all components are present and undamaged before proceeding with installation.

- AQUABATOS Essens Series Bathroom Mirror (120 x 60 cm)

- Wall mounting bracket
- Screws and wall plugs for mounting
- User Manual

## 4. SETUP AND INSTALLATION

The mirror is designed for simple wall mounting. Follow these steps carefully:

1. **Prepare the Wall:** Choose a suitable location on the wall, ensuring it can support the mirror's weight (approximately 13.7 kg). Mark the positions for drilling based on the mounting bracket.
2. **Install Mounting Bracket:** Drill holes at the marked positions, insert wall plugs, and securely attach the wall mounting bracket using the provided screws.
3. **Electrical Connection:** Ensure the main power supply is OFF. Connect the mirror's power cable to your existing power source (e.g., a ceiling light connection). This mirror does not include a plug and is intended for direct wiring.
4. **Hang the Mirror:** Carefully lift the mirror and hang it onto the installed wall bracket, ensuring it is stable and level.

## 5. OPERATING INSTRUCTIONS

The mirror features intuitive touch controls for its various functions.

### 5.1. LED Lighting Control

- **Power On/Off:** Briefly touch the power symbol (U) on the mirror to turn the LED lighting on or off.
- **Dimming:** Long press the power symbol (U) to continuously adjust the brightness of the LED lighting. Release when the desired brightness is reached. The mirror has a memory function that saves the last dimming setting even after power off.

## 5.2. Anti-Fog Function

- **Activate/Deactivate:** Briefly touch the anti-fog symbol (☰) to turn the mirror heating (anti-fog) function on or off. This function operates independently.

Image 4: Separate anti-fog function keeping the mirror clear.

## 5.3. Digital Clock

- **Display On/Off:** Long press the anti-fog symbol (☰) to turn the digital clock display on or off. The clock continues to run in the background when the display is off, ensuring the correct time is shown upon reactivation.

## 5.4. 3x Magnifying Cosmetic Mirror

The integrated 3x magnifying mirror, equipped with LED light strips, is ideal for detailed tasks such as makeup application or shaving.

## 6. MAINTENANCE

To maintain the appearance and functionality of your mirror, follow these cleaning guidelines:

- **Glass Cleaning:** Use a soft, lint-free cloth and a non-abrasive glass cleaner. Spray the cleaner onto the cloth, not directly onto the mirror surface, to avoid liquid seeping into the electrical components.
- **Frame Cleaning:** Wipe the anodized aluminum frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **General Care:** Regularly check for any loose connections or damage. Do not attempt to repair electrical components yourself.

## 7. TROUBLESHOOTING

If you encounter any issues with your mirror, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
LED lighting does not turn on.	No power supply; loose connection; faulty LED driver.	Check main power supply. Ensure electrical connections are secure. If problem persists, contact support.
Anti-fog function is not working.	Anti-fog function not activated; faulty heating element.	Ensure the anti-fog touch sensor is activated. If problem persists, contact support.
Digital clock is incorrect or not displayed.	Clock display turned off; power interruption.	Long press the anti-fog symbol to toggle the clock display. The clock should retain time even after power interruptions.
Mirror stops functioning entirely.	Electrical fault; component failure.	Check all power connections. If the mirror remains unresponsive, disconnect power and contact customer support.

## 8. SPECIFICATIONS

---

- **Brand:** AQUABATOS
- **Model Number:** LM08126D
- **Dimensions:** 120L x 60W cm
- **Material:** 4mm Crystal Glass, Anodized Aluminum Frame
