IMPORTANT SAFETY INFORMATION

Observe the following safety precautions to reduce the risk of fire, electric shock, injury to persons, or damage to the appliance.

- **Electrical Safety:** Ensure the appliance is properly grounded. Do not use extension cords. Disconnect power before servicing.
- **Water Safety:** Ensure water connections are secure to prevent leaks. Do not operate if the water inlet hose is damaged.
- **Child Safety:** Keep children away from the dishwasher, especially when the door is open. Detergents are corrosive.

- **General Use:** Only use detergents and rinse aids specifically designed for automatic dishwashers. Do not sit or stand on the open door.

SETUP AND INSTALLATION

Unpacking

Carefully remove all packaging materials. Inspect the dishwasher for any shipping damage. Report any damage to your retailer immediately. Keep packaging materials away from children.

Placement

Place the dishwasher on a level, stable floor. Ensure there is adequate space for the door to open fully. The appliance dimensions are approximately 60 cm (width) x 60 cm (depth) x 85 cm (height).

Image: Front-side view of the Beko BDFN15420B dishwasher with labeled dimensions: 85cm height, 60cm width, and 60cm depth. This illustrates the physical size of the appliance for installation planning.

Water and Electrical Connections

Connect the water inlet hose to a cold water supply tap. Ensure the drain hose is properly connected to a drain outlet, preventing kinks or blockages. Plug the power cord into a grounded electrical outlet (240 Volts). Refer to the installation diagram in the full manual for detailed instructions.

First Use

Before the first wash, fill the salt dispenser (if applicable to your model) and rinse aid dispenser. Run an empty cycle with detergent to clean the interior of the appliance.

OPERATING INSTRUCTIONS

Control Panel Overview

The control panel features push buttons for program selection, start/pause, and special functions. Indicator lights display program status, salt, and rinse aid levels.

Image: A close-up view of the dishwasher's control panel, showing the program selection buttons and digital display. This panel allows users to choose wash cycles and monitor the dishwasher's status.

Loading the Dishwasher

Proper loading ensures optimal cleaning performance. Scrape off large food particles before loading. Avoid overcrowding.

- **Lower Basket:** Ideal for large items like plates, bowls, pots, and pans.
- **Upper Basket:** Suitable for glasses, cups, small plates, and delicate items.
- **Cutlery Basket:** Place cutlery with handles down, except for knives and sharp utensils which should be placed handles up for safety.

Adding Detergent and Rinse Aid

Open the detergent dispenser and add the recommended amount of dishwasher detergent. Close the dispenser cover securely. Fill the rinse aid dispenser to the indicated level for improved drying and shine.

Program Selection

Your dishwasher offers 5 wash programs:

- **Intensive:** For heavily soiled dishes, pots, and pans.
- **Normal:** For everyday soiled dishes.
- **Quick Wash:** For lightly soiled dishes that need a fast wash.
- **Rinse Only:** For rinsing dishes that will be washed later.
- **Eco:** An energy-efficient program for normally soiled dishes.

Select the appropriate program using the control panel buttons.

Special Features

- **Half Load:** Optimizes water and energy consumption when the dishwasher is not fully loaded.
- **Steam Gloss:** Enhances drying performance and provides extra shine to glassware and dishes.
- **Hygiene Intense:** Provides a higher temperature wash and rinse for improved sanitization.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your dishwasher.

Cleaning Filters

The filter system should be cleaned regularly to prevent blockages and ensure efficient washing. Twist and remove the coarse filter, then separate the fine filter. Rinse both under running water. Reassemble and secure firmly.

Cleaning Spray Arms

Check the spray arm nozzles for blockages. If necessary, remove the spray arms and clear any debris from the holes using a thin object like a toothpick.

Exterior and Interior Cleaning

Wipe the exterior with a damp cloth. For the interior, periodically run a dishwasher cleaning cycle with a specialized cleaner or a cup of white vinegar placed in the upper rack.

TROUBLESHOOTING

Before contacting service, review the following common issues and solutions:

Problem	Possible Cause	Solution
Dishwasher does not start	Power supply issue, door not closed properly, program not selected.	Check power connection, ensure door is latched, select a program and press start.
Dishes are not clean	Improper loading, clogged spray arms, insufficient detergent, incorrect program.	Reload dishes correctly, clean spray arms and filters, use adequate detergent, select a more intensive program.
Water leakage	Loose hose connections, damaged door seal, excessive foam from detergent.	Check and tighten hose connections, inspect door seal for damage, use only recommended dishwasher detergent.
Dishwasher is noisy	Items hitting spray arms, foreign object in pump, improper installation.	Rearrange dishes, check for foreign objects, ensure dishwasher is level.
