3. SETUP AND ASSEMBLY

The Vabches Vanity Desk requires assembly. All necessary parts and accessories are labeled, and step-by-step instructions are included in the product package. Please follow the provided assembly manual carefully.

Before You Begin:

- Unpack all components and verify against the parts list in the assembly manual.
- Ensure you have adequate space for assembly.
- Gather any required tools (e.g., screwdriver, hammer) as specified in the assembly manual.

Key Assembly Steps (General Guidance):

1. Assemble the main desk frame.
2. Install the drawers and their slides.
3. Attach the mirror and shelving unit to the desktop.
4. Connect the LED light wiring and power strip.
5. Assemble the cushioned stool.
6. Install the hairdryer holder on your preferred side (left or right).

4. OPERATING INSTRUCTIONS

4.1. LED Mirror Lights

The vanity mirror features integrated LED lights with adjustable color temperatures. Locate the touch sensor or button on the mirror frame to control the lights.

- **Power On/Off:** Tap the sensor/button once to turn the lights on or off.
- **Change Color Temperature:** With the lights on, tap the sensor/button repeatedly to cycle through the 3 available color temperatures: Cold White, Warm White, and Warm Yellow.
- **Adjust Brightness:** Press and hold the sensor/button to smoothly adjust the brightness level. Release when the desired brightness is achieved.

Image 4.1: Visual representation of the three adjustable lighting modes (Cold White, Warm White, Warm Yellow) available on the vanity mirror, along with a brightness adjustment slider.

4.2. Built-in Power Strip

The vanity desk includes a built-in power strip for convenient access to power for your electronic devices and beauty tools.

- **AC Outlets:** Plug in hair curlers, hair dryers, or other AC-powered appliances into the two 125V/12A outlets.
- **USB Ports:** Use the two 5V/2A USB ports to charge mobile phones, tablets, or other USB-powered devices.
- Ensure the vanity desk is properly plugged into a wall outlet for the power strip to function.

5. MAINTENANCE AND CARE

Proper care and maintenance will ensure the longevity and appearance of your Vabches Vanity Desk.

- **Cleaning Surfaces:** Wipe down the desk surfaces with a soft, damp cloth. For stubborn marks, use a mild, non-abrasive cleaner. Avoid harsh chemicals or abrasive materials that could damage the finish.
- **Mirror Cleaning:** Use a glass cleaner and a lint-free cloth to clean the mirror. Spray cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into the light fixtures.
- **Dusting:** Regularly dust all surfaces, including shelves and drawers, to prevent buildup.
- **Drawer Maintenance:** Periodically check drawer slides for smooth operation. If they become stiff, a small amount of silicone lubricant can be applied.
- **Electrical Components:** Ensure the power cord is not pinched or damaged. Do not attempt to repair the power strip or LED lights yourself.
- **Avoid Overloading:** Do not place excessively heavy items on the desk or shelves.
- **Temperature and Humidity:** Keep the vanity desk in a stable environment, away from extreme temperature fluctuations or high humidity, which can affect wood products.

6. TROUBLESHOOTING

If you encounter any issues with your Vabches Vanity Desk, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
LED lights do not turn on.	Power cord not plugged in; loose connection; faulty power outlet; sensor issue.	<ul style="list-style-type: none"> • Ensure the desk's power cord is securely plugged into a working wall outlet. • Check all electrical connections during assembly. • Test the outlet with another appliance. • Gently tap the touch sensor to ensure it responds.
Power strip (AC/USB) is not working.	Desk not plugged in; power strip switch off (if applicable); overloaded circuit.	<ul style="list-style-type: none"> • Verify the main power cord is plugged in. • Ensure no circuit breaker has tripped. • Reduce the number of devices plugged into the power strip.
Drawers are stiff or difficult to open/close.	Improper assembly; debris in slides; overloaded drawer.	<ul style="list-style-type: none"> • Review assembly instructions for drawer slide installation. • Clear any debris from the drawer slides. • Ensure drawers are not overloaded.
Desk feels wobbly after assembly.	Loose fasteners; uneven floor.	<ul style="list-style-type: none"> • Tighten all screws and fasteners. Do not overtighten. • Place the desk on a level surface. Use shims if necessary.

If the problem persists after attempting these solutions, please contact customer support.

7. WARRANTY AND SUPPORT

Vabches is committed to providing high-quality products. While specific warranty details are typically included with your product packaging, general support is available for any questions or concerns.

Customer Support:

If you have any questions, encounter defective products, or are missing parts, please contact the seller directly. You can usually find a "contact seller" option on the platform where you purchased the product.

Please have your model number (B0C73WHMVD) and purchase date ready when contacting support to expedite assistance.
