MAINTENANCE

1. Cleaning

- Wipe the headset with a soft, dry cloth.
- For stubborn dirt, lightly dampen the cloth with water and mild soap, then wipe dry immediately.
- Do not use harsh chemicals or abrasive cleaners.
- Ensure no liquid enters the earcups or microphone.

2. Storage

When not in use, store the headset in the provided carry pouch to protect it from dust and scratches. Avoid placing heavy objects on the headset.

TROUBLESHOOTING

• No Sound:

- Ensure the 3.5mm audio cable is fully inserted into both the headset and the device.
- Check the volume roller on the headset and your device's volume settings.
- If using a PC, verify that the correct audio output device is selected in your sound settings.

• Microphone Not Working:

- Ensure the detachable microphone is securely connected to the headset.
- Check if the microphone mute button on the headset is disengaged (unmuted).
- If using a PC, verify that the correct microphone input device is selected in your sound settings.
- Ensure the Y-shaped extension cable is correctly connected to both the microphone and audio jacks on your PC.

• Poor Audio Quality:

- Ensure all cable connections are secure.
- Test the headset with another device to rule out device-specific issues.
- Check for any physical damage to the cables or connectors.
