## iDOO I-C-031

# iDOO Full Size Air Mattress with Built-in Pump and Headboard

Model: I-C-031

Instruction Manual

## 1. INTRODUCTION

Thank you for choosing the iDOO Full Size Air Mattress. This inflatable mattress is designed for comfort and convenience, featuring a built-in pump and an integrated headboard. It is suitable for home use, guest accommodation, or camping. Please read this manual thoroughly before initial setup and use to ensure proper operation and longevity of your product.

## 2. IMPORTANT SAFETY WARNINGS

- Keep the air mattress away from sharp objects, heat sources, and open flames.
- Do not overinflate the mattress. Overinflation can cause damage and reduce product lifespan.
- Ensure the mattress is placed on a flat, stable surface free from debris.
- Do not allow children to jump on the mattress unsupervised.
- The maximum weight capacity for this mattress is 650 lbs (295 kg). Do not exceed this limit.
- Keep the electric pump dry and away from water to prevent electric shock.
- Unplug the pump when not in use or during cleaning.

## 3. PACKAGE CONTENTS

Please check the package to ensure all items are present:

- iDOO Full Size Air Mattress with Built-in Pump and Headboard
- Carry Bag
- Repair Patch

## 4. SETUP (INFLATION)

1. Unroll the air mattress completely on a clean, flat surface. Ensure the area is free of sharp objects.
2. Locate the built-in electric pump on the side of the mattress. Open the cover to access the power cord.
3. Plug the power cord into a standard electrical outlet.
4. Turn the pump dial to the "Inflate" position. The mattress will begin to inflate automatically.
5. Allow approximately 3-5 minutes for the mattress to fully inflate. You can adjust the firmness by stopping the pump once your desired level is reached.
6. Once inflated, turn the pump dial to the "Off" position and unplug the power cord. Store the cord in its designated compartment.

## Built-in Electric Pump & Integrated Moulding

## 5. OPERATING (USAGE)

---

Your iDOO air mattress is ready for use. Here are some key features and usage tips:

- **Comfortable Flocked Top:** The mattress features a luxurious flocked surface that is soft to the touch and provides a comfortable sleeping experience.
- **Integrated Headboard:** The built-in headboard offers solid support for your head, neck, and back, enhancing comfort whether sleeping or sitting upright.
- **Strong Internal Support:** Designed with upgraded vertical beams, the mattress provides excellent stability and support, distributing weight evenly.
- **Firmness Adjustment:** You can adjust the firmness of the mattress by adding or releasing small amounts of air using the built-in pump.

# Comfortable Body Supports

Air mattress with upgraded headboard

# Jump at Will

Thanks to Extra Strong Support of the 295KG/650LB

Figure 3: Designed with ultra-strong internal support, the mattress can hold up to 650 lbs, maintaining stability even with active use.

## 6. DEFLATION AND STORAGE

1. Ensure the mattress is unplugged from the power outlet.
2. Open the pump cover and turn the dial to the "Deflate" position. The pump will begin to extract air from the mattress.
3. Allow the mattress to fully deflate. This process is quick and efficient.
4. Once deflated, fold the mattress neatly to remove any remaining air and to make it compact.

5. Place the folded mattress into the provided carry bag for easy storage and transport.

## Widely Used Full Size Air bed

In the UK, the size is Queen (U.K. Standard)

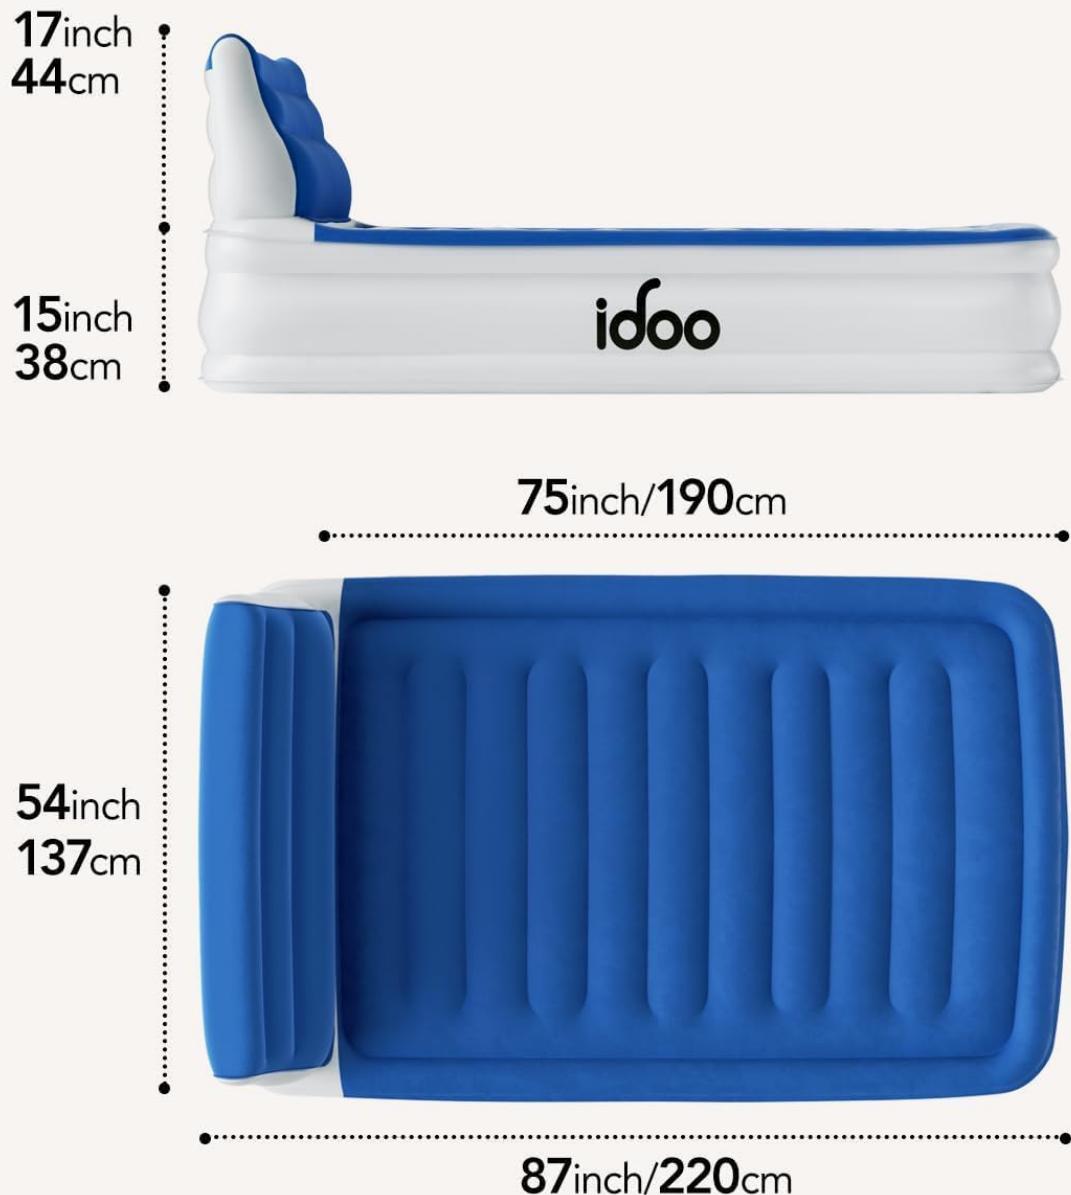

Figure 4: The mattress is designed for easy deflation and compact storage in its carry bag.

## 7. MAINTENANCE

- **Cleaning:** The mattress can be spot cleaned with a damp cloth and mild soap. Do not use harsh chemicals or abrasive cleaners. Hand wash only.
- **Storage:** Store the deflated and folded mattress in a cool, dry place away from direct sunlight and extreme temperatures.
- **Repair:** In case of a small puncture, use the provided repair patch according to its instructions.

## 8. TROUBLESHOOTING

---

- **Mattress not inflating:** Ensure the power cord is securely plugged into a working outlet and the pump dial is set to "Inflate". Check for any obstructions in the pump's air intake/output.
- **Mattress losing air:** Check that the pump dial is fully in the "Off" position and the cord compartment is securely closed. Inspect the mattress surface for any punctures or leaks. Use the repair patch if a leak is found.
- **Pump not working:** Verify the power connection. If the pump still does not operate, contact customer support.

## 9. SPECIFICATIONS

---

Feature	Detail
Brand	iDOO
Model Name	I-C-031
Size	Full
Product Dimensions	87"L x 54"W x 15"Th (Headboard dimensions: 54" x 12" x 21" included in overall length)
