EJEAS Type-C

EJEAS V6C/V4C Plus Referee Headset (Type-C) Instruction Manual

Model: Type-C

PRODUCT OVERVIEW

The EJEAS Referee Headset is a single-ear headphone accessory designed for clear communication in noisy environments, specifically for football and handball referees. It features a Type-C connector for compatibility with EJEAS V6C/V4C Plus Intercoms, mobile phones, or MP3 players.

WHAT'S IN THE Box

Your EJEAS Referee Headset package includes the following components:

- One (1) EJEAS Single-Ear Headset with Microphone (Type-C)
- Additional ear tips (various sizes)

SETUP AND INSTALLATION

- 1. Select Appropriate Ear Tip:** Choose the silicone ear tip size (S, M, L) that provides the most comfortable and secure fit for your ear. A proper fit is crucial for optimal sound and noise reduction.
- 2. Wear the Headset:** Place the single-ear earpiece into your ear, ensuring the ear hook is positioned correctly for stability. Adjust the microphone boom so that the microphone is close to your mouth for clear voice pickup.
- 3. Connect to Device:** Insert the Type-C connector of the headset into the Type-C port of your EJEAS V6C/V4C Plus Intercom, mobile phone, or MP3 player. Ensure the connection is firm.

OPERATION

Once connected, the headset will function as an audio input (microphone) and output (earpiece) device for your connected intercom or mobile device. The headset itself does not have independent controls for volume or power, as these functions are managed by the connected device.

- **Clear Sound:** The headset is designed with a good microphone and noise reduction function to ensure clear sound transmission even in noisy game environments.
- **Secure Fit:** The in-ear design and suitable length ensure the headset remains firmly in place during active use, such as refereeing.

MAINTENANCE

- **Cleaning:** Regularly wipe the earpiece and microphone with a soft, dry cloth. For ear tips, remove them and clean with mild soap and water, then dry thoroughly before reattaching.
- **Storage:** Store the headset in a clean, dry place away from extreme temperatures and direct sunlight

when not in use. Avoid tangling the cable.

- **Cable Care:** Do not pull on the cable to disconnect the headset. Always grasp the Type-C connector firmly.

TROUBLESHOOTING

Problem	Solution
No sound from earpiece.	Ensure the Type-C connector is fully inserted into the device. Check the volume settings on your connected intercom or mobile device. Test the headset with another compatible device to rule out device issues.
Microphone not picking up voice.	Verify the microphone boom is positioned correctly near your mouth. Check microphone settings on your connected device. Ensure the microphone is not obstructed.
Headset falls out easily.	Try a different size of ear tip for a more secure fit. Adjust the ear hook for better stability.

SPECIFICATIONS

- **Model Name:** Referee Headset
- **Connectivity Technology:** Wired
- **Headphones Jack:** Type-C
- **Material:** Plastic
- **Form Factor:** In Ear
- **Ear Placement:** In Ear
- **Special Features:** Lightweight
- **Noise Control:** Sound Isolation
- **Item Weight:** 0.02 Kilograms (15g parcel weight)
- **Compatible Devices:** Devices with Type-C port (EJEAS V6C/V4C Plus Intercom, mobile phones, MP3)
