INTRODUCTION

Thank you for choosing the Crzoe Countertop Ice Maker Machine. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new ice maker. Please read it thoroughly before first use and retain it for future reference.

SAFETY INFORMATION

WARNING: To reduce the risk of fire, electric shock, or injury, always follow basic safety precautions when using this appliance.

- Ensure the ice maker is placed on a stable, level surface away from direct sunlight and heat sources.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Unplug the ice maker from the power outlet before cleaning or when not in use.
- Do not operate the appliance with a damaged cord or plug.
- Keep children away from the ice maker during operation.
- Use only potable water in the ice maker.

PRODUCT COMPONENTS

Your Crzoe Ice Maker comes with the following components:

- Ice Maker Unit
- Ice Basket
- Ice Scoop

The ice maker features a compact and portable design, making it easy to carry and place in various locations such as your home, kitchen, or office.

Compact & Portable Design

Image: The Crzoe ice maker highlighting its compact dimensions (11.22"D x 8.66"W x 11.73"H) and integrated handle for portability.

SETUP & FIRST USE

- Unpacking:** Carefully remove the ice maker from its packaging. Remove all packing materials, including any tape or protective film.
- Placement:** Place the ice maker on a flat, stable surface. Ensure there is adequate ventilation around the unit.
- Initial Cleaning:** Before first use, clean the interior of the ice maker, including the water reservoir, ice basket, and ice scoop, with a soft cloth and mild detergent. Rinse thoroughly with clean water.
- Add Water:** Open the lid and remove the ice basket. Fill the water reservoir with potable water up to the 'MAX' fill line. Do not overfill.
- Power On:** Plug the ice maker into a grounded electrical outlet. Press the 'ON/OFF' button to start the ice

making process.

OPERATION

Ice Making Process

The Crzoe ice maker is designed for quick and efficient ice production. It can produce 9 bullet-shaped ice cubes in approximately 7-8 minutes, with a daily capacity of up to 27 lbs.

Image: Diagram illustrating the ice-making process, showing water freezing around metal rods to form bullet-shaped ice cubes in 7 minutes.

Control Panel & Indicators

The control panel features intuitive indicators to keep you informed about the ice maker's status:

- **ON/OFF Button:** Powers the unit on or off.
- **POWER Indicator:** Illuminates when the unit is powered on and operating.
- **ICE FULL Indicator:** Lights up when the ice basket is full, and the ice making process will pause automatically.
- **ADD WATER Indicator:** Illuminates when the water reservoir needs refilling.

One-Touch Operation

Bullet-Shaped Ice Cubes

The ice maker produces distinctive bullet-shaped ice cubes. Their rounded appearance helps prevent scratching your mouth, and their hollow design allows them to chill drinks quickly.

Infrared Sensor

An integrated infrared sensor automatically detects when the ice basket is full, pausing ice production to prevent overflow. It also signals when more water is required.

CLEANING & MAINTENANCE

Self-Cleaning Function

The ice maker features an advanced self-cleaning function to simplify maintenance and ensure hygienic ice production. It is recommended to clean the ice maker every 2 months.

1. Ensure the water reservoir is filled with clean water.
2. Press and hold the 'ON/OFF' button for more than 5 seconds to activate the self-cleaning mode.
3. The cleaning cycle will run automatically. Once complete, drain the water from the unit.

Self-Cleaning Function

Press and hold the ICE/CLEAN button for 5 seconds to activate the machine's self-cleaning system.

Just one click

Once a week

Regular Cleaning

- Wipe the exterior with a soft, damp cloth.
- For thorough cleaning, remove the ice basket and clean the interior with a mild detergent and water. Rinse well.
- Ensure all parts are dry before reassembling and storing the unit.

TROUBLESHOOTING

If you encounter issues with your ice maker, please refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
|---------|----------------|----------|
|---------|----------------|----------|

| Problem | Possible Cause | Solution |
|---|---|---|
| Ice maker not producing ice. | No water in reservoir; power issue; ambient temperature too high. | Fill water reservoir; check power connection; ensure unit is in a cool environment. |
| Ice cubes are too small or cloudy. | Water temperature too high; mineral buildup. | Use colder water; perform self-cleaning cycle. |
| "ICE FULL" indicator is on, but basket is not full. | Ice is blocking the sensor; sensor is dirty. | Rearrange ice in basket; clean the infrared sensor. |
| Water leaking. | Overfilled reservoir; drain plug not secured. | Do not overfill; ensure drain plug is tightly closed. |

If the problem persists after attempting these solutions, please contact customer support.
