Golpart Heavy Duty Clothes Rack User Manual

Model: EA_406B

1. PRODUCT OVERVIEW

The Golpart Heavy Duty Clothes Rack is a versatile and robust storage solution designed for organizing garments and other items. This 3-tier adjustable wire shelving unit features a hanging rod and side hooks, offering extensive storage capacity and portability.

Image: The Golpart Heavy Duty Clothes Rack fully assembled and in use, showcasing its capacity for hanging clothes, folded items, and shoes.

Key Features:

- **Powerful Load-Bearing Capability:** Designed for robustness, with a total load-bearing capacity of 360 pounds. Each metal shelf supports up to 120 pounds, the hanging rod accommodates 80 pounds, and side hooks handle an additional 20 pounds.
- **Customizable Storage Solutions:** Features three tiers, one hanging rod, and two sets of side hooks. Adjustable shelves allow for tailored organization of shoes, hanging items, and folded storage.
- **Effortless Mobility & Secure Stability:** Equipped with four 360° wheels, including two lockable ones, for easy movement and secure positioning.
- **Premium Quality Craftsmanship:** Constructed from high-quality iron pipe with a water and rust-resistant coating, ensuring stability, sturdiness, and durability.
- **Quick and Easy Assembly:** Designed for straightforward setup with clear instructions.

2. ASSEMBLY INSTRUCTIONS

Please follow these steps carefully to assemble your Golpart Heavy Duty Clothes Rack. It is recommended to have a rubber mallet for stable shelf installation.

Components Checklist:

Before starting, ensure all components are present:

- Wire Shelves (3)
- Vertical Poles (various lengths, typically 8 sections)
- Plastic Clips (multiple pairs)
- Casters (4, two with locks)
- Hanging Rod (1)
- Side Hooks (2 sets)

Step-by-Step Assembly:

1. **Attach Casters:** Screw the casters into the bottom of the lowest pole sections. Ensure two casters with locking mechanisms are used on one side for stability.
2. **Install Plastic Clips:** Place the plastic clips around the poles at the desired height for the first shelf. Ensure the arrow on the clips points upwards and the flange fits into the groove on the pole. These clips secure the shelves.
3. **Assemble Wire Shelves:** Carefully slide the wire shelf down onto the poles until the sleeves fit snugly onto the plastic clips. For firm fastening, gently tap the edges of the metal shelf with a rubber mallet.
4. **Extend Poles (if necessary):** Connect the next sections of the vertical poles by screwing them into the top of the lower sections.
5. **Repeat for Additional Shelves:** Install plastic clips and subsequent shelves following the same procedure for the remaining tiers. Remember that shelves are adjustable; you can set their height to suit your application.
6. **Attach Hanging Rod and Side Hooks:** Secure the hanging rod between two poles at the desired height. Attach the side hooks to the outer poles.

1. The flange needs fit into the groove
2. Follow the arrow directions (upwards) on the plastic clip

Structural design rather than a quality flaw making the shelf anchored firmly

1. Slide shelf down slowly until 4 sleeves fit snugly onto the pole
2. The end with a notch is downward

The wire shelves can be adjusted up and down

3. OPERATION AND USAGE

The Golpart Clothes Rack is designed for flexible and efficient organization.

Utilizing Storage Space:

- **Hanging Rod:** Use the sturdy hanging rod for coats, dresses, shirts, and other garments that require hanging.

- **Wire Shelves:** The three adjustable wire shelves are ideal for folded clothing, storage bins, shoes, and accessories. Adjust their height to accommodate taller items or create more compact sections.
- **Side Hooks:** The two sets of side hooks provide convenient spots for hanging bags, scarves, hats, belts, or other small items.

Mobility and Stability:

The rack features four 360° rotating casters for easy movement. To secure the rack in place, engage the locks on the two designated casters. This prevents unintended rolling and ensures stability.

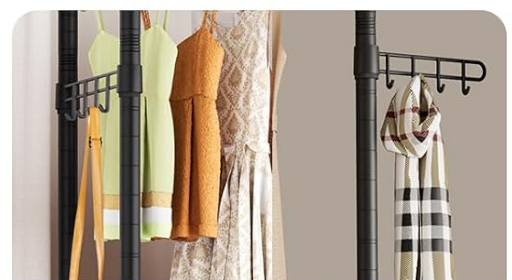

Massive Storage

4. CARE AND MAINTENANCE

To ensure the longevity and optimal performance of your Golpart Clothes Rack, follow these simple care instructions:

- **Cleaning:** Wipe down the metal surfaces with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used, followed by drying thoroughly. Avoid abrasive cleaners or harsh chemicals that could damage the protective coating.
- **Rust Prevention:** The rack is coated for water and rust resistance. However, to maintain this protection, avoid prolonged exposure to excessive moisture. If used in a damp environment, ensure good ventilation.
- **Weight Distribution:** Distribute weight evenly across the shelves and hanging rod to prevent strain on any single point and maintain the rack's structural integrity. Adhere to the specified load capacities.
- **Caster Care:** Periodically check the casters for any debris or hair that might impede smooth rolling. Clean as needed.

5. TROUBLESHOOTING

If you encounter any issues with your clothes rack, please refer to the following common solutions:

- **Rack is Unstable/Wobbly:**
 - Ensure all plastic clips are correctly seated in the grooves on the poles and that the shelves are firmly pressed down onto the clips. A rubber mallet can help secure them.
 - Verify that all pole sections are fully screwed together and tightened.
 - Check if the casters are properly installed and, if stationary, ensure the locking mechanisms are engaged.
- **Shelf Not Level:**
 - Adjust the height of the plastic clips on each pole to ensure they are at the same level before installing the shelf.
 - Ensure the shelf is fully seated on all four clips.
- **Difficulty Moving the Rack:**
 - Check if the caster locks are disengaged.
 - Inspect casters for any obstructions like lint or debris and clear them.
- **Exceeding Weight Capacity:**
 - If the rack appears strained or bent, reduce the load. Refer to the specifications for maximum weight capacities per shelf and rod.

6. SPECIFICATIONS

Attribute	Detail
Brand	Golpart
Model Number	EA_406B

Product Dimensions	40D x 60W x 184H Centimetres (15.75"D x 23.5"W x 72.45"H)
Item Weight	6.3 kg
Material	Carbon Steel
Color	Black
Installation Type	Free Standing
Special Feature	Portable
Total Load Capacity	360 pounds
Shelf Load Capacity	Up to 120 pounds per shelf
Hanging Rod Capacity	80 pounds
Side Hook Capacity	20 pounds

Weight Capacity: 450 LBS
