Pyle PDWRBT36RD.1

Pyle 200 Watt Bluetooth Indoor Outdoor Speakers

USER MANUAL

Model: PDWRBT36RD.1 | Brand: Pyle

1. Introduction

The Pyle PDWRBT36RD.1 speakers are a pair of 200-watt Bluetooth indoor/outdoor speakers designed for versatile audio applications. Featuring a waterproof construction and a 2-way full-range speaker system, these units are suitable for home, boat, marine, deck, patio, and poolside environments. They offer wireless music streaming via Bluetooth and come with all necessary mounting hardware for flexible installation.

Image 1.1: Pyle 200 Watt Bluetooth Indoor Outdoor Speakers. These speakers are designed for both indoor and outdoor use, featuring a durable red casing.

2. Package Contents

Please check the box for the following items:

- 2 x Pyle Indoor/Outdoor Speakers
- Mounting Brackets
- Mounting Hardware (screws, washers, nuts)
- Speaker Cable (11.48 ft / 3.5m)
- Power Adapter (DC12V, 2A)

WHAT'S IN THE BOX?

Image 2.1: What's in the Box. This image displays the two speakers, mounting hardware (screws, nuts, washers), and the speaker cable included in the package.

3. Setup & Installation

3.1 Mounting the Speakers

The Pyle speakers are designed for universal mounting and can be installed either horizontally or vertically. The included mounting brackets allow for flexible positioning on walls, decks, boats, or other suitable surfaces.

UNIVERSAL MOUNTING

Image 3.1: Universal Mounting Options. The speakers can be mounted in either a horizontal or vertical orientation to suit various installation needs.

1. Choose a suitable mounting location that provides optimal sound dispersion and is structurally sound.
2. Attach the mounting brackets to the desired surface using the provided mounting hardware. Ensure the brackets are securely fastened.
3. Attach the speakers to the mounting brackets. The flexible 180-degree mounting allows for angle adjustment.

3.2 Connecting the Speakers

The speakers feature quick-connect terminals for easy and secure wire connections.

QUICK-CONNECT TERMINALS

Connect wires easily using the spring type speaker terminals

Image 3.2: Quick-Connect Terminals. The rear of the speaker shows the quick-connect terminals for speaker wire, the DC 12V power input, and a 3.5mm AUX input.

- Connect the included speaker cable to the quick-connect terminals on the back of each speaker. Ensure correct polarity (red to red, black to black).
- Connect the other end of the speaker cable to your audio amplifier or receiver.
- Connect the power adapter to the DC 12V input on one of the speakers and plug it into a power outlet.
- For wired audio input, connect an audio source to the 3.5mm AUX input using a compatible cable (not included).

4. Operating Instructions

4.1 Bluetooth Wireless Music Streaming

The speakers feature a built-in Bluetooth receiver for wireless audio streaming from your devices.

YOUR MUSIC, YOUR WAY

Built-in Bluetooth for Wireless Audio Streaming

Image 4.1: Bluetooth Connectivity. A smartphone is shown wirelessly connected to the Pyle speakers, demonstrating the ease of Bluetooth audio streaming.

1. Ensure the speakers are powered on.
2. On your Bluetooth-enabled device (smartphone, tablet, laptop, computer), navigate to the Bluetooth settings.
3. Search for available devices. The Bluetooth network name for the speakers is 'Pyle'.
4. Select 'Pyle' from the list to connect. If prompted for a password, enter '0000' (four zeroes).
5. Once connected, you can stream audio wirelessly to the speakers. The wireless range is approximately 30+ feet (9 meters).

4.2 General Audio Playback

Adjust the volume from your connected audio source. Ensure the audio source is playing content and the volume is not muted.

5. Maintenance & Care

The Pyle speakers are designed with heavy-duty ABS construction and a completely waterproof design, making them suitable for marine and outdoor environments with heavy water splashes.

Image 5.1: Waterproof Construction. This image highlights the heavy-duty ABS construction and marine-grade waterproof features, ensuring durability in wet conditions.

- **Cleaning:** Use a soft, damp cloth to clean the speaker surfaces. Avoid abrasive cleaners or solvents that may damage the finish.
- **Storage:** If storing the speakers for an extended period, especially in harsh conditions, ensure they are clean and dry.
- **Environmental Considerations:** While waterproof, prolonged submersion is not recommended. Ensure proper drainage if installed in areas prone to standing water.

6. Troubleshooting

- **No Sound:**

- Ensure the speakers are powered on and the power adapter is securely connected.
 - Check all speaker cable connections for proper polarity and secure fit.
 - Verify that your audio source (phone, tablet, amplifier) is playing audio and its volume is turned up, not muted.
 - If using Bluetooth, ensure the device is properly paired and within the 30-foot wireless range.
- **Bluetooth Connection Issues:**
 - Make sure Bluetooth is enabled on your device.
 - Ensure no other devices are currently connected to the speakers. Disconnect any previous connections.
 - Try turning the speakers off and on again, then re-attempt pairing.
 - If the issue persists, try forgetting the 'Pyle' device from your device's Bluetooth settings and re-pairing.
- **Distorted Sound:**
 - Reduce the volume on your audio source or amplifier.
 - Check speaker wire connections for any loose strands or shorts.
 - Ensure the audio source is not sending an overdriven signal.

7. Specifications

Detailed technical specifications for the Pyle PDWRBT36RD.1 speakers:

FULL RANGE AUDIO

full range stereo sound reproduction and impressive bass response

Image 7.1: Full Range Audio Components. This diagram illustrates the 3.5-inch aluminum injection cone subwoofer and the 1/2-inch high compliance polymer tweeter, which contribute to the full-range sound.
