Household Essentials HE1075

Household Essentials Glidez HE1075 2-Tier Dual Slide Pull-Out Cabinet Organizer

Instruction Manual

Introduction

The Household Essentials Glidez HE1075 2-Tier Dual Slide Pull-Out Cabinet Organizer is designed to enhance efficiency and convenience in kitchen cabinetry. This chrome-plated steel organizer provides two independently sliding storage compartments, ideal for cookware, bakeware, and other kitchen essentials. Its full-extension ball-bearing sliding base ensures smooth access to items, eliminating the need to reach into deep cabinets. The versatile design allows for mounting directly onto hard surfaces within most standard kitchen cabinets, maximizing storage space. Constructed from durable chrome-plated steel, it offers stability and longevity for heavy items. The base arrives fully assembled, requiring only the insertion of steel dividers for immediate use.

Specifications

Model Number	HE1075
Material	Alloy Steel
Color	Chrome
Product Dimensions (D x W x H)	21.5" x 5.25" x 20.75"
Shelf Type	2-Tier Dual Slide
Weight Capacity	22 Pounds
Mounting Type	In Cabinet (Directly onto hard surfaces)
Assembly Required	No (Base arrives fully assembled, only dividers need insertion)
Included Components	Hardware

Note: Interior basket is approximately 1/4" smaller on all 4 sides than outer dimensions.

Setup and Installation

The Household Essentials Glidez organizer is designed for straightforward installation. The base unit comes pre-assembled with full-extension ball-bearing slides. Installation primarily involves securing the unit to the cabinet base and inserting the dividers.

1. Measure Your Cabinet Opening

Before installation, accurately measure the internal dimensions of your cabinet. Consider the width, height, and depth. It is crucial to account for any potential obstructions such as plumbing or cabinet door hinges to ensure the organizer slides freely.

3. Insert Dividers

Once the base unit is securely mounted, simply insert the steel dividers into the designated slots to create compartments for your items. The dividers can be adjusted to accommodate various sizes of cookware and bakeware.

Operating Instructions

The Glidez organizer features a full-extension ball-bearing sliding base for smooth and effortless operation. Both tiers slide independently, providing easy access to all stored items.

Accessing Items

To access items, simply pull the desired tier forward. The ball-bearing slides ensure a smooth motion. Push the tier back into the cabinet until it is fully retracted for proper storage.

Maintenance

To ensure the longevity and smooth operation of your Household Essentials Glidez organizer, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down the chrome-plated steel surfaces with a soft, damp cloth and mild detergent as needed. Avoid abrasive cleaners or scouring pads, as these can damage the finish.

- **Lubrication:** Periodically check the ball-bearing slides for smooth movement. If any resistance is noted, a small amount of silicone-based lubricant can be applied to the slide mechanisms.
- **Inspection:** Regularly inspect all mounting hardware and connections to ensure they remain secure. Tighten any loose screws to maintain stability.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 22 pounds per shelf to prevent damage to the unit or cabinet.

Troubleshooting

If you encounter any issues with your Household Essentials Glidez organizer, refer to the following common troubleshooting tips:

- **Organizer not sliding smoothly:**
  - Check for any debris or obstructions in the slide tracks.
  - Apply a silicone-based lubricant to the ball-bearing slides.
  - Ensure the unit is installed level and securely to the cabinet base.
- **Unit feels wobbly or unstable:**
  - Verify that all mounting screws are tightened securely to the cabinet floor.
  - Ensure the weight distributed on the shelves does not exceed the 22-pound capacity.
  - Confirm that the cabinet itself is stable and not damaged.
- **Items falling off shelves:**
  - Ensure items are placed securely within the baskets and do not protrude excessively.
  - Adjust the steel dividers to create appropriately sized compartments for your items.
