AKSOUL AKSOUL AA BATTERY PUMP

AKSOUL Portable Electric Air Pump (Basic Black Model) - Instruction Manual

Model: AKSOUL AA BATTERY PUMP

1. INTRODUCTION

The AKSOUL Portable Electric Air Pump is a compact and efficient solution designed for inflating and deflating various inflatable items. Its portable nature makes it ideal for outdoor activities, travel, and home use. This manual provides essential information for safe and effective operation of your air pump.

2. PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- 1 x AKSOUL Portable Electric Air Pump
- 4 x Air Nozzles (various sizes)
- 1 x Instruction Manual
- 1 x Carrying Bag
- 1 x USB Charging Cable (for rechargeable variants, if applicable)

Image: A selection of the four different air nozzles provided for various inflatable types.

3. PRODUCT FEATURES

- **Efficient Inflation:** Experience swift and effortless inflation with an impressive 200L/min air flow and 4000Pa air pressure, inflating items in minutes.
- **Cordless Operation:** The Basic Black model is powered by 6xAA batteries (not included), offering freedom from power outlets.
- **Compact Design:** Weighing only 0.3lbs and measuring 3.5"x2.5"x2", this pump is palm-sized and highly portable.
- **Versatile Nozzles:** Includes four different-sized nozzles to accommodate various inflatables such as sleeping pads, air mattresses, swimming rings, toys, and air pillows. (Note: Not suitable for high-pressure products like basketballs, footballs, tires, and balloons).
- **Durable Construction:** Crafted from high-quality ABS material, ensuring durability and quiet operation (less than 80dB noise) with 25W power.

4. SETUP

4.1 Battery Installation (Basic Black Model)

1. Locate the battery compartment on the pump.
2. Open the compartment cover.
3. Insert 6xAA batteries (not included) according to the polarity indicators (+/-).
4. Close the battery compartment cover securely.

4.2 Charging (for rechargeable variants)

If you have a rechargeable variant of the AKSOUL Portable Electric Air Pump, follow these steps:

1. Connect the provided USB charging cable to the pump's charging port (Type-C).
2. Plug the other end of the USB cable into a compatible USB power source (e.g., wall adapter, power bank, computer USB port).
3. The LED indicator lights will show the charging status. Once fully charged, disconnect the cable.

4.3 Attaching Nozzles

1. Select the appropriate nozzle size for your inflatable item.
2. For inflation, firmly insert the chosen nozzle into the inflation port of the pump.
3. For deflation, firmly insert the chosen nozzle into the deflation port of the pump.

5. OPERATING INSTRUCTIONS

5.1 Inflation

1. Ensure batteries are installed or the unit is charged.
2. Attach the correct nozzle to the inflation port of the pump.
3. Insert the nozzle firmly into the valve of the item you wish to inflate.
4. Press and hold the power button for 2 seconds to turn on the pump.
5. Allow the pump to operate until the item is fully inflated.
6. Press the power button once to turn off the pump and remove the nozzle.

APPLICABLE TO A VARIETY OF INFLATABLES

				
Swimming Rings	Inflatable Pillow	Sleeping Pad	Single Air Mattress	Double Air Mattress
8s	15s	30s	4min	10min

Image: Examples of inflatables compatible with the pump and their typical inflation durations.

5.2 Deflation

1. Attach the correct nozzle to the deflation port of the pump.
2. Insert the nozzle firmly into the valve of the item you wish to deflate.
3. Press and hold the power button for 2 seconds to turn on the pump.
4. Allow the pump to operate until the item is fully deflated.
5. Press the power button once to turn off the pump and remove the nozzle.

Image: Detailed view of the pump's inflation and deflation ports, along with the power switch.

5.3 Light Modes

The pump features a built-in light with multiple modes:

1. Press and hold the light button for 2 seconds to turn on the light (low brightness).
2. Press the light button once to cycle to high brightness.
3. Press the light button again to activate the flashing red light mode.
4. Press the light button one more time to turn off the light.

6. MAINTENANCE

- **Cleaning:** Wipe the pump's exterior with a soft, dry cloth. Do not use harsh chemicals or immerse the unit in water.
- **Storage:** Store the pump and its accessories in the provided carrying bag in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** If using AA batteries, remove them if the pump will not be used for an extended period to prevent leakage. For rechargeable models, charge the battery periodically to maintain its lifespan.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Pump does not turn on.	Low or no battery power.	Replace AA batteries or charge the rechargeable battery.
Pump does not turn on.	Power button not held long enough.	Press and hold the power button for 2 seconds.

Problem	Possible Cause	Solution
Slow inflation/deflation.	Incorrect nozzle size or loose connection.	Ensure the correct nozzle is used and firmly attached to both the pump and the inflatable's valve.
Pump overheats.	Continuous operation for too long.	Turn off the pump and allow it to cool down before resuming use.

8. SPECIFICATIONS

Feature	Detail
Brand	AKSOUL
Model Name	AKSOUL AA BATTERY PUMP
Color	Basic Black
Material	Plastic
Item Weight	0.3 Pounds
Product Dimensions	2.5"L x 2"W x 3.5"H
Power Source	Battery Powered (6xAA batteries, not included)
Air Flow Capacity	200 Liters Per Minute
Maximum Pressure	4000 Pascal
Operation Mode	Automatic
