PetsCosset RAB14-GREYWHITE

PetsCosset 57" L Rabbit Hutch User Manual

Model: RAB14-GREYWHITE

Brand: PetsCosset

1. INTRODUCTION

This manual provides essential information for the assembly, operation, and maintenance of your PetsCosset 57" L Rabbit Hutch. This two-story pet house is designed to provide a comfortable and secure environment for small to medium animals such as rabbits, guinea pigs, and chickens, suitable for both indoor and outdoor use.

Image 1.1: The PetsCosset 57" L Rabbit Hutch, featuring a two-story design with a spacious run area and a sheltered sleeping compartment, suitable for outdoor placement.

2. SAFETY INFORMATION

- Ensure all parts are securely fastened during assembly to prevent collapse or injury to pets.
- Regularly inspect the hutch for any damaged components, sharp edges, or loose parts that could harm your pets.
- Place the hutch on a level, stable surface to prevent tipping.
- When used outdoors, position the hutch in a sheltered area to protect against extreme weather conditions. The asphalt roof provides rain and sun protection, but additional shelter may be necessary in severe weather.
- Keep small children away from the hutch during assembly and ensure they are supervised when interacting with pets inside the hutch.
- The hutch is designed for small to medium animals. Do not house animals larger than recommended to avoid

damage to the hutch or injury to the animals.

3. PACKAGE CONTENTS

Verify that all components listed below are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Wooden panels for main structure (walls, roof, floor)
- Wire mesh panels for run area and doors
- Ramps with timber ridges
- 3 Removable pull-out trays
- 6 Mobile brake casters (wheels)
- Metal latches and hinges
- Organic glass sliding window
- Assembly hardware (screws, bolts, etc.)
- Instruction manual

4. SETUP AND ASSEMBLY

Follow these steps carefully for proper assembly. It is recommended to have two people for certain steps.

1. **Unpack and Identify Parts:** Lay out all components and hardware. Refer to the parts list in your included manual to identify each piece.
2. **Assemble Base Frame:** Connect the base wooden panels to form the foundation of the hutch. Ensure all connections are tight.
3. **Attach Casters:** Secure the 6 mobile brake casters to the bottom of the base frame. Ensure the brake mechanism is functional.
4. **Construct Lower Level:** Attach the side and back panels for the lower activity area and the enclosed sleeping area.
5. **Install Pull-Out Trays:** Slide the three removable pull-out trays into their designated slots on the lower level. These trays are designed for easy cleaning.
6. **Build Upper Level:** Assemble the panels for the upper sleeping compartment and the roof structure.
7. **Install Ramps:** Position the internal ramp connecting the upper and lower levels, and the external ramp for ground access to the run area. The ramps feature timber ridges to prevent slipping.
8. **Attach Doors and Latches:** Secure all doors with hinges and install the metal latches to ensure pets cannot escape.
9. **Insert Organic Glass:** Slide the organic glass panel into the designated slot on the upper sleeping area door for visibility.
10. **Final Inspection:** Double-check all screws and connections to ensure the hutch is stable and secure.

NEW UPGRADE

Image 4.1: Key features of the hutch, including the openable roof for access, an organic glass window for viewing pets, a climbing ramp, and a pull-out tray for cleaning.

Image 4.2: The hutch equipped with 360-degree mobile brake casters, allowing for easy movement and secure positioning.

5. OPERATING INSTRUCTIONS

5.1 Accessing the Hutch

- **Main Doors:** The hutch features multiple doors with metal latches. To open, unlatch the metal hook and swing the door open. Ensure doors are securely latched when closed to prevent pets from escaping.
- **Openable Roof:** The roof of the activity area can be opened for easy access to your pets or for feeding. Unlatch the roof and lift it upwards.
- **Organic Glass Window:** The upper sleeping area includes a sliding organic glass window, allowing you to observe your pets without disturbing them.

Image 5.1: Detailed view of the hutch's multiple entrances and robust security locks, including metal latches, designed to keep pets secure.

5.2 Moving the Hutch

- To move the hutch, release the brakes on all 6 casters.
- Gently push the hutch to its desired location.

- Once in position, engage the brakes on all casters to secure the hutch and prevent accidental movement.

5.3 Pet Placement

- The hutch provides a double-level living space: an upper resting area and a lower activity area.
- Ensure pets have access to fresh water and food at all times.
- Introduce pets to the hutch gradually to allow them to acclimate to their new environment.

360° Mobile Brake Casters

Make it convenient to move outdoors & indoors

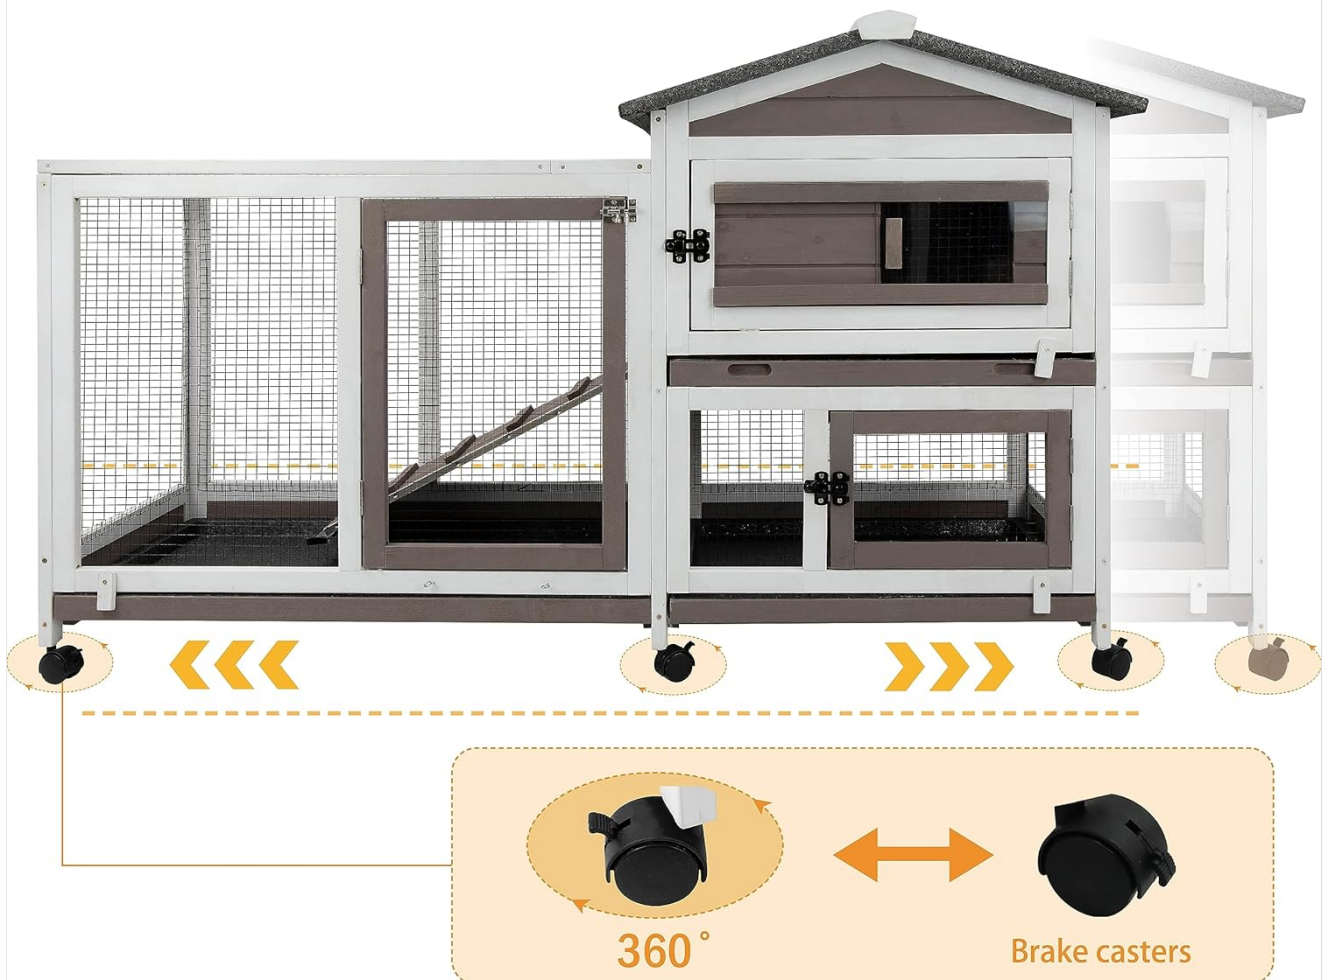

Image 5.2: The hutch is designed to accommodate a variety of small furry pets, providing a suitable habitat for multiple species.

6. MAINTENANCE

6.1 Cleaning

- **Pull-Out Trays:** The three removable pull-out trays are designed for easy cleaning. Simply slide them out, empty waste, clean with pet-safe disinfectant, rinse, and dry thoroughly before reinserting.
- **General Cleaning:** Regularly wipe down all surfaces of the hutch with a damp cloth and pet-safe cleaner.

Ensure all areas are dry before returning pets.

- **Bedding:** Replace bedding in the sleeping area regularly to maintain hygiene and comfort for your pets.

Image 6.1: The hutch features three waterproof pull-out trays, simplifying the cleaning process and maintaining a hygienic environment.

6.2 Inspection

- Periodically check all wooden components for signs of wear, chewing, or damage.
- Inspect wire mesh for any bends, breaks, or sharp points.
- Ensure all latches, hinges, and casters are functioning correctly and are securely attached.
- The ramps are designed with metal protection to avoid damage from chewing. Inspect these regularly.

Image 6.2: Metal protection integrated into the hutch's design helps prevent damage to ramps from pet chewing.

7. TROUBLESHOOTING

- **Hutch is unstable:** Ensure all screws are tightened and the hutch is placed on a flat, level surface. Check that casters are locked if stationary.
- **Doors not closing properly:** Inspect hinges and latches for damage or misalignment. Adjust if necessary. Ensure no debris is obstructing the door frame.
- **Trays are difficult to slide:** Clean the tray runners and the trays themselves to remove any accumulated debris or waste. Ensure trays are inserted correctly.
- **Strong odor:** New wooden products may have a natural scent. Ensure adequate ventilation. Regular cleaning and airing out the hutch will help dissipate any odors.
- **Pets not using ramp:** Some pets may need time to adjust to ramps. Encourage use with treats or by gently guiding them. Ensure the ramp is securely in place.
