

## Letaya ZZ1

# Letaya 72-inch Metal Storage Cabinet User Manual

Model: ZZ1

## 1. INTRODUCTION

### 1.1 Product Overview

Thank you for choosing the Letaya 72-inch Metal Storage Cabinet. This durable steel wardrobe is designed to provide secure and versatile storage solutions for various environments, including offices, homes, schools, gyms, and commercial spaces. Featuring a robust construction, lockable doors, and adjustable shelving, it offers organized storage for a wide range of items.

### 1.2 Key Features

- **Durable Metal Material:** Constructed from 0.8mm steel with an environmentally friendly powder-coated finish, offering resistance to moisture, corrosion, and rust.
- **Large Storage Space:** Measures 72"H x 36"W x 18"D, equipped with 4 adjustable shelves, each capable of holding up to 180 lbs.
- **Professional Design:** Features an upgraded three-point lock system with thickened steel rods for enhanced security. Anti-collision reinforcements ensure quiet operation and protection. Pre-drilled holes on the back allow for wall mounting.
- **Adjustable Feet:** Integrated adjustable feet to ensure stability on uneven surfaces.
- **Metal Handles:** Sturdy metal handles for reliable access.

## 2. SAFETY INFORMATION

Please read all safety instructions carefully before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- **Assembly:** Always assemble the cabinet on a soft, clean surface to prevent scratches. It is highly recommended that **two adults** perform the assembly to ensure safety and ease of handling.
- **Stability:** For optimal stability and safety, especially in households with children or in earthquake-prone areas, secure the cabinet to a wall using the pre-drilled holes on the back. Anti-tip hardware is recommended.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 180 lbs per shelf. Distribute weight evenly to prevent tipping or structural damage.
- **Placement:** Place the cabinet on a level surface. Use the adjustable feet to stabilize the unit.
- **Children:** Do not allow children to climb on or play with the cabinet. Keep keys out of reach of children.
- **Moving:** If moving the assembled cabinet, empty it first to reduce weight and prevent shifting contents. Lift with care, preferably with assistance.

### 3. PACKAGE CONTENTS

Before beginning assembly, verify that all parts are present and undamaged. If any parts are missing or damaged, please contact customer support immediately.

#### 3.1 Included Components

- Cabinet panels (top, bottom, sides, back, doors)
- Adjustable shelves (4 included)
- Hanger bar
- Lock system with keys
- Metal handles
- Assembly hardware (screws, bolts, etc.)
- Basic assembly tools (screwdriver)
- Instruction manual

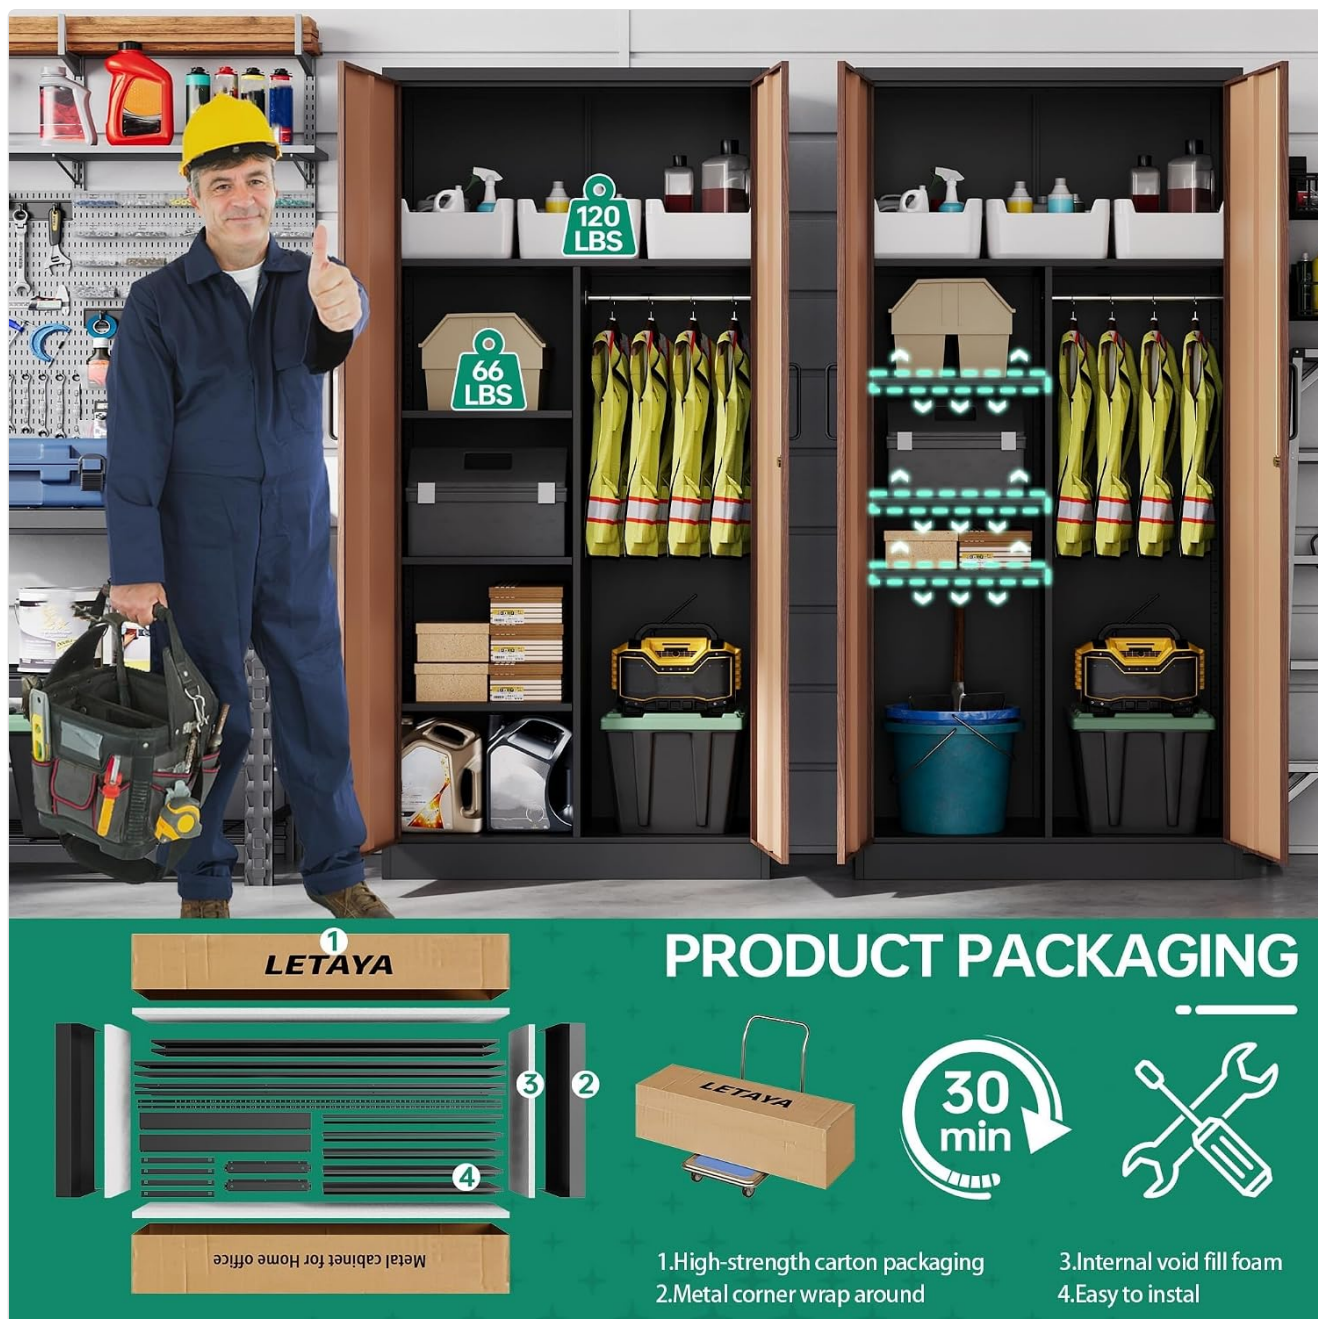

Figure 3: Product Packaging and Included Components

## 4. ASSEMBLY INSTRUCTIONS

---

Estimated assembly time is approximately 30 minutes. For best results and safety, assembly should be performed by two adults.

### 4.1 Preparation

1. Clear a spacious, clean, and soft area for assembly to prevent damage to components.
2. Unpack all components and verify against the package contents list. All parts are meticulously labeled to match the instructions.
3. Ensure you have a sturdy Phillips head screwdriver. While a basic screwdriver is included, a higher quality tool may be beneficial for easier assembly, especially if encountering tight fits or misaligned holes.

### 4.2 Step-by-Step Assembly

Follow the detailed diagrams and instructions provided in the included assembly manual. Pay close attention to the orientation of each piece.

- **Important Note on Vertical Piece:** When installing the middle vertical support piece, ensure the hole for the hanger bar is positioned at the top. Incorrect orientation will require reassembly.
- **Alignment:** Some holes may require slight force to align properly. This is normal for metal construction.
- **Door Installation:** Attach doors carefully, ensuring hinges are properly seated and aligned for smooth operation.
- **Handles and Lock:** Install the metal handles and the lock mechanism as per the instructions.

### 4.3 Post-Assembly

- Adjust the feet at the base of the cabinet to ensure it is level and stable on your chosen surface.
- For added security, especially if the cabinet will hold heavy items or is in an area with children, use the pre-drilled holes on the back to secure the cabinet to a wall.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Using the Lock System

The cabinet is equipped with an upgraded three-point lock system for enhanced security. Insert the key into the lock on the front door and turn to engage or disengage the locking mechanism. Ensure both doors are fully closed before locking.

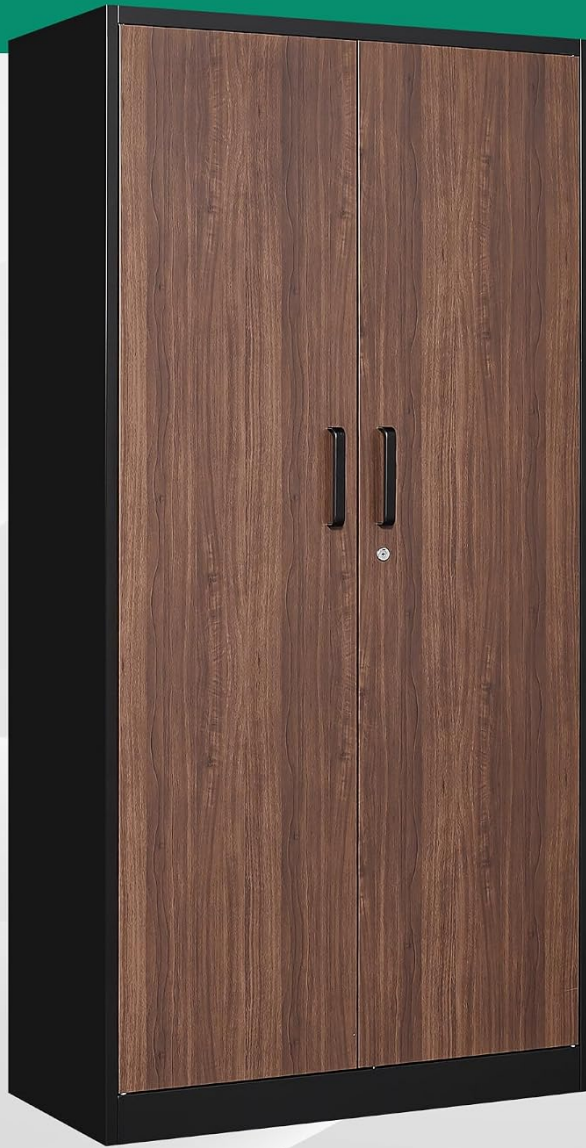

### 5.2 Adjusting Shelves

The cabinet features 4 adjustable shelves. To adjust a shelf, remove all items from the shelf. Locate the shelf clips on the interior side panels. Remove the clips, reposition them to the desired height, and then place the shelf back onto the clips, ensuring it is securely seated.

### 5.3 Using the Hanger Bar

A metal hanger bar is included for hanging garments or other items. It can hold up to 30 lbs. Ensure the hanger bar is securely installed in the designated slots.

## 6. MAINTENANCE

To ensure the longevity and appearance of your Letaya Metal Storage Cabinet, follow these simple maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, as they can damage the powder-coated finish.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Lock Care:** Keep the lock mechanism clean and free of debris. If the lock becomes stiff, a small amount of graphite lubricant can be applied.
- **Environment:** While moisture-proof, avoid prolonged exposure to excessive humidity or direct water to prevent potential rust over time.

## 7. TROUBLESHOOTING

### 7.1 Common Issues and Solutions

| Problem                                       | Possible Cause                                                                           | Solution                                                                                                                                                                         |
|-----------------------------------------------|------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Cabinet is wobbly or unstable                 | Uneven floor; loose connections                                                          | Adjust the leveling feet at the base. Ensure all screws are tightened. Consider wall mounting for added stability.                                                               |
| Doors do not close properly or are misaligned | Hinges not properly installed; cabinet not level; frame slightly twisted during assembly | Check hinge installation. Ensure the cabinet is level using the adjustable feet. Loosen and retighten frame screws to allow for slight adjustment, then re-check door alignment. |

| Problem                                 | Possible Cause                                                      | Solution                                                                                                                    |
|-----------------------------------------|---------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Lock mechanism is stiff or not engaging | Debris in lock; mechanism needs lubrication; doors not fully closed | Ensure doors are fully closed. Clean the lock with a soft cloth. Apply a small amount of graphite lubricant to the keyhole. |
| Missing or damaged parts upon delivery  | Shipping damage; packaging error                                    | Do not proceed with assembly. Contact Letaya customer support immediately with details and photos of the issue.             |
