Aesfee AF-8088

Aesfee Electric Foil Shaver User Manual

Model: AF-8088

PRODUCT OVERVIEW

The Aesfee Electric Foil Shaver is designed for men seeking a close and smooth shave for their face, neck, and bald head. This professional-quality shaver is ideal for maintaining stubble and short hair, offering both wet and dry shaving capabilities. Its compact and waterproof design makes it suitable for both home and travel use.

KEY FEATURES

- **Professional Quality Shaver:** Specifically designed for stubble and short hair, providing a zero-finish shave.
- **Powerful & Ultra-Thin Foils:** Dual hypoallergenic titanium foils capture stubble and short hair efficiently, following facial contours for a comfortable shave.
- **USB-C Quick Charge:** Universal Type-C interface for fast charging. Fully charges in 2 hours for 90 minutes of use.
- **Waterproof and Wet & Dry:** 100% waterproof and washable, allowing for dry, wet, or in-shower shaving. Easy to clean.
- **Detachable Foils & Blades:** Convenient for daily cleaning and future replacement to maintain optimal performance.
- **Travel Lock:** Prevents accidental activation during travel or when not in use.

SETUP

Initial Charging

Before first use, fully charge your Aesfee Electric Foil Shaver. The shaver uses a universal Type-C interface for charging.

1. Connect the provided USB-C charging cable to the shaver's charging port.
2. Plug the other end of the cable into a compatible USB power adapter (not included) or a computer's USB port.
3. The indicator lights on the shaver will illuminate to show charging progress. A full charge takes approximately 2 hours.
4. Once fully charged, the shaver provides up to 90 minutes of cordless shaving time.

The shaver connected to a laptop via its USB Type-C port for convenient charging.

Preparing for Shave

For optimal results, especially if your hair is longer than 1/32 inch or you have a curly beard, it is recommended to trim your hair to a short stubble with a separate trimmer before using the foil shaver.

OPERATING INSTRUCTIONS

General Shaving Tips

- Ensure the shaver is fully charged for best performance.
- For a close shave, hold the shaver at a right angle to your skin and stretch your skin taut with your free hand.
- Move the shaver in short, straight strokes against the direction of hair growth. Avoid circular motions, which are typically for rotary shavers.
- Do not press too hard; the ultra-thin foils are designed to cut effectively with light pressure.

Wet and Dry Shaving

The Aesfee Electric Foil Shaver is 100% waterproof (IPX7 rated), allowing for versatile shaving options:

- **Dry Shave:** Use the shaver on dry skin for a quick and convenient shave.
- **Wet Shave:** Use with shaving foam or gel for a more comfortable and refreshing experience. The shaver can also be used in the shower.

The shaver is fully washable under running water, highlighting its IPX7 waterproof rating.

Shaving Face and Head

The shaver's design with dual foils is effective for achieving a close shave on various contours of the face, neck, and bald head.

Hypoallergenic Titanium Dual Foils

Designed for Short Hair and Stubble, Quickly Achieves a Zero Finish on Your Face, Neck and Head

Perfect for Maintaining Bald Head & Fades Hairstyles

A man using the Aesfee shaver to maintain a bald head, showing its versatility.

Travel Lock Feature

To prevent accidental activation, the shaver includes a travel lock feature.

- **To Enable:** Press and hold the On/Off button for 3 seconds. The shaver will indicate that the travel lock is active.
- **To Disable:** Press and hold the On/Off button for 3 seconds again. The shaver will unlock and be ready for use.

MAINTENANCE

Daily Cleaning

To maintain optimal performance, clean the shaver after each use.

1. Turn off the shaver.
2. Detach the foils assembly.
3. Rinse the foils and blades assembly thoroughly under running water.
4. Use the included cleaning brush to remove any stubborn hair particles from the foils and the shaver body.
5. Allow all parts to air dry completely before reassembling the shaver.

Dual Foils Professional Shaver

Ultra-thin dual foils makes it easier to capture stubble and short hair to achieve skin-close shaves

A detailed view of the ultra-thin dual foils, designed for capturing stubble and short hair.

Foil and Blade Replacement

For continued best shaving results, it is recommended to replace the foils assembly and blades every six months. Replacement parts can be ordered from the official Aesfee Amazon store.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Shaver does not turn on.	Battery is depleted; Travel lock is engaged.	Charge the shaver fully; Press and hold the On/Off button for 3 seconds to disable travel lock.
Poor shaving performance / pulling hair.	Foils or blades are dull or clogged; Hair is too long.	Clean the foils and blades thoroughly; Replace foils and blades if necessary; Trim longer hair to stubble before shaving.
Shaver not charging.	Charging cable or adapter faulty; Charging port is dirty.	Try a different USB-C cable or power adapter; Ensure charging port is clean and free of debris.
