Kwikset 992400-009

Kwikset Powerbolt 240 Electronic Deadbolt Door Lock User Manual

Model: 992400-009

INTRODUCTION

The Kwikset Powerbolt 240 Electronic Deadbolt Door Lock provides a convenient and secure keyless entry solution for your home. This manual outlines the installation process, operational features, maintenance guidelines, and product specifications to ensure proper use and longevity of your lock.

This electronic deadbolt features a 5-button light-up keypad, customizable user codes, auto-locking functionality, and an intrusion alert system for enhanced security.

INSTALLATION GUIDE

Installation of the Kwikset Powerbolt 240 is designed to be straightforward, requiring only a screwdriver. For detailed, step-by-step instructions, it is recommended to utilize the BILT 3D interactive instructions application, which provides voice, text, and animation guidance for an easy installation process.

Ensure your door preparation meets the lock's dimensions for proper fit and function.

OPERATING INSTRUCTIONS

Keyless Entry

The keypad allows for convenient keyless entry. To unlock the door, enter your programmed user code on the keypad. The lock will retract the deadbolt, allowing access.

User Code Management

The lock supports up to 12 permanent user codes and 2 one-time user codes. A programming code is used to add, edit, or delete these user codes. Refer to the detailed programming instructions in the BILT app or the included quick start guide for specific steps on managing codes.

Auto-Lock Function

The auto-lock feature automatically locks the door after a set period of time. This feature can be customized to activate after 30 seconds, 1 minute, 3 minutes, 5 minutes, or 10 minutes. This provides an added layer of security and peace of mind.

EASY CODE MANAGEMENT

12 user codes and 2 one-time user codes.

Intrusion Alert System

To prevent unauthorized access, the lock features an intrusion alert. After 3 consecutive incorrect code entries, the lock will sound an alarm and disable the keypad for 1 minute. This mechanism deters tampering and alerts occupants to potential security breaches.

Image: A graphic depicting the Kwikset Powerbolt 240 keypad, showing red flashes and beeps indicating an intrusion alert after multiple incorrect code attempts.

Low Light Code Entry

The keypad is equipped with bright LED lights that illuminate the buttons, making it easy to enter your user code in low-light conditions or at night. Simply tap the keypad to activate the lights.

INTRUSION ALERT

3 wrong codes disable keypad and sound alarm.

Exceed 3 Incorrect User Code Attempts

Vacation Mode

Activate Vacation Mode to temporarily disable the keypad. This feature ensures that no one can operate your door lock using codes while you are away, providing enhanced security during extended absences.

One-Touch Locking

The motorized deadbolt allows for convenient one-touch locking. Simply press the lock button on the keypad to secure your door. This eliminates the need to carry keys or manually engage the deadbolt.

MAINTENANCE

Battery Life and Replacement

The Kwikset Powerbolt 240 operates on 4 AA alkaline batteries (not included). The battery life is approximately 12 months, providing extended use between replacements. When the batteries are low, the lock will provide an indicator. Replace all four batteries simultaneously with new, high-quality alkaline batteries for optimal performance.

TROUBLESHOOTING

- **Keypad not responding:** Check battery level and replace if necessary. Ensure the battery pack is correctly seated.
- **Lock not engaging/disengaging:** Verify that the door is properly aligned and the deadbolt can extend and retract freely without obstruction. Check for low battery.
- **Intrusion Alert activated:** If the alarm sounds and the keypad is disabled, wait for the 1-minute lockout period to expire before attempting to enter a correct code.
- **Difficulty programming codes:** Ensure you are following the programming steps precisely as outlined in the BILT app or quick start guide. Verify the programming code is correct.

PRODUCT SPECIFICATIONS

Feature	Specification
Brand	Kwikset
Model Name	Powerbolt
Model Number	992400-009
Lock Type	Keypad, Pin Tumbler
Material	Alloy Steel, Plastic
